BUSINESS AND GENERAL INFORMATION

Item 1. Business

(A) Description of Business.

1. Business Development

Philippine Telegraph & Telephone Corporation (the "Company" or "PT&T") was incorporated on October 16, 1962 and subsequently registered with the Philippine Securities and Exchange Commission ("SEC") on November 14, 1962 under the laws of the Philippines as a diversified telecommunications entity catering to the corporate, small and medium business and residential segments.

As at June 30, 2011, the Company is 75.92%-owned subsidiary of Republic Telecommunications Holdings, Inc. ("RETELCOM"). PT&T is the flagship company of RETELCOM whose other telecommunication based companies are Capitol Wireless, Inc. (CWI) and Philippine Wireless, Inc. (PWI). They are collectively called "RETELCOM Group of Companies (or RETELCOM Group for brevity)." The RETELCOM Group's ultimate parent company is Telectronics Systems, Inc. (TSI).

The registered office address of the Company is 106 Carlos Palanca, Jr. St., Legaspi Village, Makati City and is domiciled in the Philippines.

In 1998, the decline of the Philippine peso vis-à-vis the U.S. dollar, intra-corporate litigations in RETELCOM which resulted in non-realization of RETELCOM's planned additional capital infusion into the Company, increasing competitive pressure among industry players, market and technology changes, in particular short messaging services (i.e., SMS, more popularly known as text messaging), and deregulation have all contributed to decreased margins in the telecommunications industry and market shift to mobile phones. This, in turn, severely affected the Company's ability to settle its maturing obligations. In addition, as discussed below, the Company finalized the restructuring of a substantial portion of its outstanding obligations to its various creditor banks and certain suppliers.

On November 26, 2002, the Company's creditors, representing 75% of the outstanding liabilities being restructured, approved the Company's debt restructuring proposal and accordingly signed the Master Restructuring Agreement, Dollar Facility Agreement, Peso Facility Agreement and other documents, collectively called the "Definitive Agreements", covering the said debt restructuring. On October 27, 2003, the Company's lenders who have signed the Definitive Agreements represent 93% of the outstanding liabilities restructured.

On August 20, 2009, after the Definitive Agreements did not materialize, the RETELCOM Group including Wavenet Philippines, Inc. (WPI), a 100% subsidiary of CWI jointly filed a petition for Corporate Rehabilitation and Suspension of Payments pursuant to the Rules of Procedure on Corporate Rehabilitation, A.M. No. 00-8-10-SC. The said petition was accompanied by the RETELCOM Group's proposed rehabilitation plan (the "Rehab Plan") and was docketed as SP. Proc. No. M-6853 and raffled to the Makati RTC Branch 66 (the "Rehab Court"). On August 24, 2009, the Rehab Court issued an order staying enforcement of all claims, whether for money or otherwise against the RETELCOM Group ("Stay Order") and appointing a rehabilitation receiver (the "Rehab Receiver").

On April 1, 2011, the Rehab Court approved the proposed Rehab Plan subject to certain modifications (the "Rehab Order"), which was immediately executory. Petitioners as well as all claimants and creditors were ordered to strictly comply to the RETELCOM Group's rehabilitation which include, among others, the following:

- i. Modification of the rehabilitation period from 15 years to a 2-year moratorium and 12-year debt payment period;
- ii. Waiver of any and all interest, penalties and surcharges on all obligations of the Company to all claimants listed in the Rehab Plan except the legal interest of 6% from the approval of the plan until the full payment of the obligation;
- iii. Each of the petitioners to: (i) immediately settle, out of the proceeds of the liberated escrow account pursuant to the Rehab Court's orders dated September 3, 2010 and October 20, 2010,

the petitioners' obligations to the SSS in accordance with the SSS Condonation Law of 2009 and SSS Circular No. 2010-2004 for delinquent premium contributions and SSS Circular No. 2010-2005 for delinquent loan amortizations, including, but not limited to, delinquent employees compensation contributions through the SSS; (ii) immediately settle out of the proceeds from the recovery of any advances and deposits or garnished/levied assets and the proceeds of the sale of the petitioners' other assets pursuant to the pertinent orders issued by the courts, all unpaid wages, salaries and benefits inclusive of whatever amount have been deducted from said wages and salaries which the petitioners have not remitted to the appropriate contractual entity such as, but not limited to, the SSS and the Pag-Ibig Fund, of all existing and resigned/retired or separated employees, pursuant to law and to respective petitioners' employment policies including, but not limited to, collective bargaining agreements; and (iii) to immediately settle out of the proceeds from the recovery of any advances and deposits or garnished/levied assets and the proceeds of the sale of the petitioners' other assets pursuant to the pertinent orders issued by the Rehab Court, all unpaid retirement/separation pay for the retired or separated employees, pursuant to law and to the respective petitioners' employment policies including, but not limited to, collective bargaining agreement;

- iv. The petitioners to avail, whenever necessary, financing and advances from owners to finance their working capital requirements prior to the entry of the new investor, which financing and advances from owners shall be payable/repaid out of the new money to be infused by the new investor;
- v. The full conversion of all outstanding liabilities into 12 year serial redeemable preferred shares except for statutory obligations, financing and advances from owners and certain liabilities in the nature of suppliers' credits, and that the corresponding amount will be lodged in the petitioner's books as "Deposit for Subscription" pending approval by the SEC of the increase in authorized capital stock;
- vi. The Company, within a reasonable time from receipt of the Rehab Order, to amend its articles of incorporation increasing its authorized capital stock from ₱3,800,000,000 (consisting of 1,500,000,000 common shares at ₱1 par value and 230,000,000 serial cumulative convertible redeemable preferred shares at ₱10 par value) to ₱10,187,150,000 (consisting of 1,387,150,000 common shares at ₱1 par value and 7,500,000 serial cumulative convertible preferred shares at ₱10 par value and 8,800,000,000 serial redeemable preferred shares at ₱1 par value), and to immediately issue the corresponding stock certificates to the claimants concerned;
- vii. The Company to enroll and list all of its authorized Series "A", Series "B" and Series "C" redeemable preferred shares as freely "tradable" stocks with the PSE;
- viii. The SEC shall approve the Company's request for temporary exemptive relief under the SRC Rule 72.2, without sanctions or penalties whatsoever, monetary or otherwise, and the PSE to lift the suspension of the trading of the Company's common shares without any sanctions or penalties whatsoever, monetary or otherwise, and the Company shall faithfully comply with all the applicable rules and regulations of the SEC and PSE so that the trading of all the authorized shares of the Company shall not in any way be suspended or restricted except as provided by law;
- ix. Immediately settle obligations to petitioners such as salaries, wages and benefits out of escrow account; and
- x. Any sale or disposition of the petitioner's properties, whether real or personal shall also be subject to the Rehab Court's evaluation and approval.

In 2011, certain creditors, representing 8.5% and 12.8% of the secured and unsecured creditors, respectively, filed before the Court of Appeals ("CA") a petition for review with prayer for Temporary Restraining Order and/or Writ of Preliminary Injunction. The cases were consolidated and as of June 30, 2011 is pending resolution by the CA.

2. Business of Issuer

On June 20, 1964, the Company was granted a 25-year national legislative franchise under Republic Act ("RA") No. 4161, as amended by RA Nos. 5048 and 6970, allowing the Company to establish, install, maintain and operate wire and/or wireless telecommunications systems, lines, circuits and stations throughout the Philippines for public domestic and international communications, and to provide domestic record communications services which consisted of telex, telegraph, and private leased circuits. As of June 30, 2011, the Company is reasonably optimistic that its franchise will be renewed again based on the congressional House Bill which is currently being processed.

The Company has various Certificates of Public Convenience and Necessities ("CPCNs") and Provisional Authorities ("PAs") granted by the National Telecommunications Commission ("NTC") for the conduct of its telecommunications activities. These CPCNs and PAs include, among others, enabling the Company to provide data communications services, to implement its expansion and improvement programs covering among others the installation, operation, and maintenance of an integrated digital network in the National Capital Region ("NCR"), and to install, operate and maintain a national packet data network with the accompanying authority to charge rates for said services.

Aside from NTC-authorized Datacom services, the Company was granted a CPCN that enable the Company to participate in the government's liberalization of telecommunications industry as mandated under Executive Order ("EO") No. 109. While beforehand the Company was already operating as inter-exchange carrier pursuant to the NTC Case No. 90-129 which enabled the Company to provide inter-exchange trunk facilities to connect with local exchange carriers ("LEC") and public calling offices for long distance toll service, the said EO 109 thereafter enabled the Company to become a LEC operator authorized under NTC Case No. 94-022. As a LEC operator, the Company was granted Region IV-A comprising of the provinces of Aurora, Laguna, Marinduque, Quezon, Rizal, and Romblon for LEC services. The Company, along with its related party, CWI, has been granted the CPCN to establish, operate and maintain international gateway facilities to/from foreign countries as authorized under NTC Case Nos. 93-144 and 94-022.

In 2008, the Company has ceased its LEC operations.

In response to these economic events and financial pressures, the Company has reviewed its businesses with the objective of optimizing revenues, reducing expenses and improving service quality. The Company's medium-term strategy now focuses on the emerging internet era with its offering of broadband internet access and other VAS to e-business providers.

The Company is currently focused on broadband internet access services as a result on growth of wireless/mobile systems and the rise of broadband internet demand. As such, the Company's main source of revenue is broadband internet access services. The Company offers dedicated or shared internet access service, via fiber or wireless, and operates a 10+ Gbps broadband network across the NCR, and Regions III and IV catering corporate, business and residential customers.

As mentioned in the foregoing, the Company is currently focused in broadband internet services which is now its main source of revenues.

As of June 30, 2011, the Company's employee force is 46 from the previous fiscal year's manpower complement of 40. For the forthcoming fiscal year 2012, the number of employees is expected to further increase. Since the start of the implementation of the rehabilitation, the Company does not have collective bargaining agreement (CBA).

The Company has recorded its personnel cost as follows:

	2011	2010
Salaries and wages	33,066,974	36,413,525
Retirement costs	4,107,453	281,169.00
Other benefits	3,952,228	5,063,319
	41,126,655	41,195,675

As discussed elsewhere in this report, the Company instituted several measures to alleviate operational cash flow difficulties. Among these is the observance of furlough days for certain executive officers and management staffs. The above tabulation of personnel costs reflect the said furlough days following the principle of "No Work, No Pay".

Item 2. Properties

(B) Description of Property

The principal properties of the Company which consists of land, buildings, other land improvements, telecommunication equipment, machinery and equipment, and office equipment are located mainly at the main office of the Company which is situated at 106 C. Palanca Jr. St., Legaspi Village, Makati City.

In its August 20, 2009 Petition for Corporate Rehabilitation and Suspension of Payments pursuant to the Rules of Procedure on Corporate Rehabilitation, A.M. No. 00-8-10-SC, the Company submitted a list of the following properties:

Mortgage, lien or encumbrance

The Company's property, plant and equipment are pooled under a mortgage trust indenture (the MTI) which is managed by the MTI Trustee, Export Industry Bank – Trust as successor of Philippine National Bank – Trust Group. Mortgage participation certificates are given by the MTI Trustee to secured creditors principally as security for their long term loans to the Company, representing their respective pro-rata interest over the collateral pool.

However, pursuant to the Rehab Order, the obligations to the secured creditors have been settled already by way of their conversion to 12-year Series "A" redeemable preferred shares. Consequently, it is the Company's contention that there are no more MTI liens and encumbrances over the Company's property, plant and equipment.

In accordance with PFRS, the liabilities for conversion to serial redeemable preferred shares which has been directed by the Rehab Court under its Rehab Order to be treated as "Deposit for Subscription" is not booked anymore in the equity account but instead presented as non-current liabilities.

Lease Agreements

The company has entered into various lease agreements on office space, cell sites telecommunications equipment locations and car rentals. The operating lease agreements age for periods ranging from 1 to 5 years from the date of contracts.

The Company's investment properties consist of land in various locations in NCR, and Regions 3 and 4. Some of these lands are rented out for a free to third parties for one (1) to five (5) years lease term and are renewable subject to mutual consent of both parties, while others are held for capital appreciation.

Item 3. Legal Proceedings

(C) Legal Proceedings

The Rehab Court approved the RETELCOM Group's Rehab Plan pursuant to its Order dated April 1, 2011 which was immediately executory. The Rehab Plan as modified includes certain directives and orders that are presented in the preceding discussions.

Prior to the issuance of the said Rehab Order, the Rehab Court issued a Stay Order dated August 21, 2009. Among others, the said Stay Order stayed the enforcement of all claims against the petitioners, whether for money or otherwise and whether such enforcement by the Rehab Court, action or otherwise, against the petitioners and its guarantors and sureties not solidarily liable with the petitioners.

In 2011, certain creditors representing 8.5% and 12.8% of the secured and unsecured creditors, respectively, filed before the Court of Appeals ("CA") their petition for review of the Rehab Order, with prayer for Temporary Restraining Order and/or Writ of Preliminary Injunction. The cases were consolidated and as of June 30, 2011 are pending resolution by the CA.

Item 4. Submission of Matters to a Vote of Security Holders

There were no matters submitted to a vote of the security holders during the 4th quarter of the fiscal year covered by this report.

No acquisition, business combination or reorganization was implemented that would have affected the amount or percentage of the current holdings of the Company's common equity beneficially owned by more than 5% of the beneficial owners, each director and nominee and all directors as a group.

(3) Dividends

The Company has not declared any dividends for its common equity in the last two (2) fiscal years. The Company is not in a position to declare dividends due to its accumulated deficits amounting to ₱11,314,772,597 as of June 30, 2011.

Moreover, the Company is undergoing rehabilitation and should first settle its obligations before it can declare any dividends to its stockholders.

(4) Recent Sales of Unregistered Securities

There are no recent sale of unregistered securities or exempt securities or recent issuance of securities constituting an exempt transaction.

B) Description of Registrant's Securities.

(1) Preferred Stock

Pursuant to the Rehab Order, the RETELCOM Group has been directed to fully convert all its outstanding liabilities into 12-year serial redeemable preferred shares except for statutory obligations, financing and advances from owners and certain liabilities in the nature of suppliers' credits, under respective classifications as shown below:

Type of Redeemable Serial Preferred Shares	Type of obligation
Series "A"	Secured obligations
Series "B"	Unsecured obligations
Series "C"	Obligations to affiliated companies

In this regard, the Company sent confirmation letters to all claimants concerned that the principal amount of their debts/liabilities have been fully converted to equity, by way of 12-year serial redeemable preferred shares and that the corresponding amount of ₱8,841,736,581 was lodged in the Company's books as "Deposit for subscription" pending approval by the SEC of the increase in authorized capital stock. No oppositions were made by the creditors except as discussed elsewhere in this report. As at June 30, 2011, the Company has not yet filed the increase in authorized capital stock with the SEC.

C) Management's Discussion and Analysis or Plan of Operation

(A) Management's Discussion and Analysis

(1) Management's Discussion and Analysis (MDA) of Fiscal year ended June 30, 2011 (FY 2011)

The following discussion and analysis should be read in conjunction with the accompanying financial statements and the related notes. PT&T's financial statements and the financial information discussed below have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

The Company has selected and applied accounting policies so that financial statements will comply with all the requirements of Statement of Financial Accounting Standard and Interpretations. If there are no specific requirements, management has developed policies to ensure that the financial statements provide relevant and reliable information.

The Company maintains and adopted no change in accounting principle or practice, or in the method of applying any accounting principle or practice which affects relevance, reliability and comparability of the financial statements with those of prior periods.

The Company has no significant change in accounting estimates of the amount reported during the interim period of the financial year and in the other interim period or changes in estimates of amounts reported in prior financial years.

Since the last annual balance sheet date as of 30 June 2010, the Company has no change in contingent liabilities and contingent assets during the interim financial period reported.

The Company is contingently liable for various claims arising in the ordinary conduct of business and certain tax assessments, which are being contested. Additional details of the disclosures are disclosed in the SEC Form 17-A and its attachments previously submitted.

During the interim period, there is no change in the Company's composition with regards to business combination, acquisition or disposal of subsidiaries and long-term investments and discontinuing operations, other than the explanations presented in Items 1 and 2 and Notes to Financial Statements.

The discussion below should be read in conjunction with the Audited Financial Statements of the Company attached as Item 7 of this report.

Revenue Performance

For fiscal year 2011, the Company declined its growth rate in the number of data services circuits over the prior fiscal year 2010. It recorded a total of 89 circuits by 30 June 2011 compared to 122 ending circuits in fiscal year 2010. This sustained decrease in the number of data circuits resulted in operating revenues of ₱12.3 million and ₱15.1 million for fiscal years ending 2011 and 2010, respectively. This revenue decrease, before revenues from rental of Company's premises, showed a growth rate of 121% for the comparative fiscal years. The details of the revenue performance for the comparative fiscal years are presented below:

	REVENUES - Net (In Philippine Pesos)	
	FY Ending June 30	
	2011	2010
Broadband	12,312,362	15,102,753
Rental Income/Others	4,786,471	2,157,357
	17,098,833	17,260,110

The Company's growth is buoyed up by its on-going infrastructure development anchored on platform transformation that is accompanied with process, practice and expanded brand and market initiatives. The Company continued its pursuit of a deliberate technology transformation, with minimal capital outlay through creative 3rd-party arrangements. Thus, the Company's expansion and upgrade in Region IV enabled it to access several growth areas and industrial parks such as those in the Cavite area. The Company likewise instituted protection, upgrading and expansion projects in its main networks in Rizal and Laguna. These involved, among others, the completion of the 10Gbps upgrade in Metro Manila's North and South backbone rings and the Company's Laguna lake backbone network.

Capitalizing on the progressive fixed wire and wireless network brought about by the abovementioned facilities and improvement projects, the Company was able to implement saturation drives in selected commercial business districts (CBDs) with particular focus on the business segment of the market thus generating relatively high average revenue per connected circuit exceeding ₱ 20,000 per month.

Market penetration was made solely and under collaborative and mutually beneficial arrangements with other telecommunication service providers. Thus, more buildings are now accessible with the Company's fiber network. The potential subscribers therein are being tapped by an increased direct and indirect sales force for new and old services, markets, alongside increased direct and indirect operations crews to handle expanded scope of installation, restoration and general service support.

Cost and Expenses

The attainment of the aforesaid revenue growth had a concomitant increase in cost and expenses.

In support of the infrastructure development and sales thrust, the Company also enhanced its organizational capabilities in the technical and support areas. The staffing level increased from 40 at the start of fiscal year 2010 to 46 at the end of fiscal year 2011. Mobility for the sales and technical crews were continuously improved through the acquisition of service vehicles. Nevertheless, their impact on operational expenses has generally been manageable and was more than covered up by the strong revenue performance. The details of the cost and expenses are shown below:

COSTS & EXPENSES

(In Phippine Pesos)

	FY Ending June 30	
	2011	2010
Operating Expenses		
Staff Related Expenses	41,126,655	41,195,675
Premises Related Expenses	21,225,570	26,149,906
Other Operations Expenses	5,485,322	8,414,694
	67,837,547	75,760,275

EBITDA and Profitability Performance

From the foregoing revenue performance, the Company has consistently produced negative and decreasing EBITDA during fiscal years 2011 and 2010 in the respective amounts of ₱50.7 million and ₱58.5 million. The EBITDA margin performance has significantly improved from a negative 339% in fiscal year 2010 to a negative 297% in fiscal year 2011. The EBITDA margin improvement is expected to continue in the forthcoming months.

However, despite the encouraging EBITDA performance, the Company posted annual losses of ₱83 million in fiscal year 2011 and ₱69 million in fiscal year 2010. Noticeable however is the improvement in bottom line performance as the annual losses continued to decline in the comparative fiscal years. The Company is reasonably optimistic that continuous improvement can still be achieved in the subsequent fiscal years.

The losses were brought about by recognizing the Rehabilitation Court's imposed 6% p.a. legal interest on unpaid obligations and the depreciation charges.

A tabulation of the comparative EBITDA and net income/(loss) presentation for fiscal years 2011 and 2010 is presented below:

	FY Ending June 30	
	2011	2010

Financial Condition - Balance Sheet Accounts

<u>(In Philippine pesos)</u>	<u>2011</u>	<u>2010</u>
Current Assets	13,543,485	13,263,672
Non-current Assets	658,267,946	724,166,925
Total Assets	671,811,431	737,430,597
Current Liabilities	848,964,182	835,656,531
Non-current liabilities	8,913,468,501	8,909,361,048
Total Liabilities	9,762,432,683	9,745,017,579
Capital Deficiency	(9,090,621,252)	(9,007,586,982)
Total Liabilities and Capital	671,811,431	737,430,597

The Company's total assets amounted to ₱671.8 million as of 30 June 2011. A major portion of the total assets are property, plant and equipment and investment properties in the respective amounts of ₱419.7 million and ₱235.8 million. To explain, the investment properties consist of lands in various locations in NCR and Regions 3 and 4 some of which are rented out to third parties.

The Company's accounts receivables amounting to ₱2.1 million as of 30 June 2011 are attributable to trade transactions and dues from related parties as explained in Note 18 of the audited financial statements.

Other current assets amount to ₱10.6 million as of ending 30 June 2011 which is mostly attributable to creditable withholding taxes. They can be claimed as credit against the Company's future tax liabilities.

Trade and other payables amount to ₱848.9 million as of 30 June 2011. A major component is under the account due to related parties which, as explained in Note 18 of the audited financial statements, are principally non-interest bearing unsecured and short-term Philippine Peso-denominated financing and advances from the Company's owners to finance the working capital requirements prior to entry of the new investor in accordance with the court-approved rehab plan as explained above.

The deficit as of 30 June 2011 amounted to ₱11.3 billion. Had the court-directed debt-to-equity conversion been booked as part of equity instead of deposit for subscription under non-current liabilities, the said deficit could have been reduced significantly. The treatment as equity component is held in abeyance pending approval by the Securities and Exchange Commission (SEC) of the Company's increase in its authorized capital stock.

The current ratio as of June 30, 2011 is 0.01:1.

(B) Plan of Operation

Moving forward 30 June 2011, Market testing was conducted for scalable burstable services platform which, with affordable pricing, is targeted to lower budget markets such as small business and power user residential clients.

The technology platform transformation is undertaken with incremental organizational adjustments in order to meet market scaling and distribution requirements. As a matter of strategy, the direct and indirect/ 3rd party sales force is being increased to attend to new and old services/markets. Equally important, technical and operations crews, both direct and indirect/ 3rd parties, are being strengthened in order to handle expanded scope of installation, restoration, and general service support.

Report on the Audit of Financial Statements

Opinion

We have audited the financial statements of **PHILIPPINE TELEGRAPH & TELEPHONE CORPORATION** (the Company), which comprise the statements of financial position as at June 30, 2011 and 2010, and the statements of loss, statements of comprehensive income (loss), statements of changes in capital deficiency and statements of cash flows for the years ended June 30, 2011 and 2010, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at June 30, 2011 and 2010, and its financial performance and its cash flows for the years ended June 30, 2011 and 2010 in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 to the financial statements, which indicates that the Company has incurred net losses amounting to ₱83,019,222 and ₱69,332,536 in 2011 and 2010, respectively, resulting to accumulated deficit amounting to ₱11,314,772,597 and ₱11,231,753,375 as at June 30, 2011 and 2010, respectively, and capital deficiency amounting to ₱9,090,621,252 and ₱9,007,586,982 as at June 30, 2011 and 2010, respectively.

We further draw attention to Note 1 to the financial statements, which indicates that on November 7, 2018, the Company joined the selection for the new major player in the Philippine Telecommunication Market ("Third Telco Bidding") wherein the Selection Committee disqualified the Company. The disqualification is not warranted for the lacking document in question is the subject of the Petition for Declaratory Relief filed by the Company last November 6, 2018 with the Regional Trial Court of Makati City, Branch 134. On November 9, 2018, the Company filed a Motion for Reconsideration before the Selection Committee of the NTC. In a letter dated November 12, 2018, the Selection Committee denied the Company's Motion for Reconsideration. As approved by the Board of Directors, the Company filed a Petition for Certiorari with the SC on November 16, 2018 to assail the decision of the Selection Committee in disqualifying the Company.

Alas Oplas & Co., CPAs

On December 12, 2018, the Board of Directors of the Company approved the filing of an Amended Petition for Certiorari with the SC. The amendments intend to supplement and further strengthen the arguments previously raised in the Petition for Certiorari. The Amended Petition for Certiorari was filed with the SC on December 12, 2018, pending resolution from SC as at May 6, 2019.

On August 6, 2018, the Regional Trial Court Branch 66 of Makati City (the "Rehab Court") has granted the Company's request to exit from rehabilitation subject to certain requirements in line with the court-approved Rehab plan. Corporate rehabilitation was approved by the Rehab Court on April 1, 2011 and on December 21, 2018, the Company received an order from the Rehab Court denying the opposition and motions for reconsideration filed by the creditors of the Company on the Rehab Court's August 6, 2018 order which allowed the Company to exit from rehabilitation subject to the fulfillment of certain conditions.

In the same order, the Rehab Court confirmed that the Company substantially complied with the conditions provided for under the August 6, 2018 order. In view of the said substantial compliance, the Rehab Court declared that the Company is now out of rehabilitation and its exit is no longer conditional.

The action plans of the Company's management, to achieve effective implementation of the court-approved Rehab Plan and exit in the corporate rehabilitation status, to attain sustainable financial stability, improve its financial position, and to restore and reinstate to its former position of successful operation and solvency are discussed in Note 1 to the financial statements.

These events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter. We performed audit procedures to evaluate management's plans for such future actions as to likelihood to improve the situation and as to feasibility under the circumstances. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Accounting for Court-Approved Rehabilitation Plan

On April 1, 2011, the Rehab Court approved the corporate rehabilitation plan submitted by the Company on August 20, 2009. There is a risk that the Company's financial position and result are influenced through management bias in interpreting of and accounting for the Rehab Court's order. Specifically, these risks which are highly subjective and involves significant judgments and estimates such as: (1) settlement through conversion of obligation to 12-year serial redeemable preferred shares; and (2) applicability and accrual of 6% legal interest on each obligation. The Company's assessment of these significant accounting judgment and estimates are disclosed in Note 4 to the financial statements.

Audit Response

Our audit procedures included, among others: evaluating the legal opinion of the rehab receiver and rehab counsel as to interpretation of and accounting for: (1) settlement through conversion of obligation to 12-year serial redeemable preferred shares; and (2) application and accrual of 6% legal interest on each obligation; involving our lawyers to assist and perform independent assessment of the legal opinion; considering the financial reporting bulletin issued by the Philippine Securities and Exchange Commission; and recalculating the interest following the provisions of the Rehab Court-approved Rehab Plan. We assessed the potential risk of management bias and the adequacy of the disclosure in the financial statements.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended June 30, 2011 but does not include the financial statements and our auditors' report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended June 30, 2011 are expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Alas Oplas & Co., CPAs

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Supplementary Information Required Under Revenue Regulation No. 15-2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Revenue Regulations No.15-2010 in Note 28 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such information is the responsibility of the management of **PHILIPPINE TELEGRAPH & TELEPHONE CORPORATION**. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The engagement partner on the audit resulting in this independent auditors' report is Danilo T. Alas.

1. CORPORATE INFORMATION

1.01 Company Profile

Philippine Telegraph & Telephone Corporation (the "Company") was incorporated on October 16, 1962 and subsequently registered with the Philippine Securities and Exchange Commission ("SEC") on November 14, 1962 under the laws of the Philippines as a diversified telecommunications entity catering to the corporate, small and medium business and residential segments. On October 19, 2012, at the Special Stockholders' Meeting, the stockholders representing at least 2/3 of the outstanding capital stock approved the amended articles of incorporation extending the corporate term for another 50 years until November 14, 2062. On November 26, 2012, SEC approved the Company's extension of corporate term for another 50 years.

As at June 30, 2011, the Company is 66.18%-owned subsidiary of Republic Telecommunications Holdings, Inc. ("RETELCOM"). The Company's ultimate parent company is Telectronics Systems, Inc. ("TSI").

On August 25, 2017, RETELCOM and Menlo Capital Corporation ("MENLO") entered into a Sale and Transfer Agreement wherein RETELCOM agreed to sell and transfer 560,000,000 common shares, representing 37.33% ownership interest, of the Company in favor of MENLO.

The registered office address of the Company is 106 Carlos Palanca, Jr. St., Legaspi Village, Makati City and is domiciled in the Philippines.

Legislative Franchise

On June 20, 1964, the Company was granted a 25-year national legislative franchise under Republic Act (RA) No. 4161, as amended by RA Nos. 5048 and 6970, allowing the Company to establish, install, maintain and operate wire and/or wireless telecommunications systems, lines, circuits and stations throughout the Philippines for public domestic and international communications, and to provide domestic record communications services which consisted of telex, telegraph, and private leased circuits. On July 21, 2016, the Company was granted an extension of its franchise for another 25 years under RA No. 10894, An Act Extending to Another Twenty-Five (25) Years the Franchise Granted to the Company to Establish, Install, Maintain and Operate Wire and/or Wireless Telecommunications Systems, Lines, Circuits and Stations Throughout the Philippines for Public Domestic and International Communications under Republic Act No. 4161, as Amended.

The Company has various Certificates of Public Convenience and Necessities (CPCNs) and Provisional Authorities (PAs) granted by the National Telecommunications Commission ("NTC") for the conduct of its telecommunications activities. These CPCNs and PAs include, among others, enabling the Company to provide data communications services, to implement its expansion and improvement programs covering among others the installation, operation, and maintenance of an integrated digital network in the National Capital Region (NCR), and to install, operate and maintain a national packet data network with the accompanying authority to charge rates for said services.

Aside from NTC-authorized Datacom services, the Company was granted a CPCN that enable the Company to participate in the government's liberalization of telecommunications industry as mandated under Executive Order (EO) No. 109. While beforehand the Company was already operating as inter-exchange carrier pursuant to the NTC Case No. 90-129 which enabled the Company to provide inter-exchange trunk facilities to connect with local exchange carriers (LEC) and public calling offices for long distance toll service, the said EO 109 thereafter enabled the Company to become a LEC operator authorized under NTC Case No. 94-022. As a LEC operator, the Company was granted Region IV-A comprising of the provinces of Aurora, Laguna, Marinduque, Quezon, Rizal, and Romblon for LEC services. The Company, along with its related party, Capitol Wireless, Inc. ("CWI"), has been granted the CPCN to establish, operate and maintain international gateway facilities to/from foreign countries as authorized under NTC Case Nos. 93-144 and 94-022.

The Company was also granted with certificate of registration as a value-added service (VAS) provider by the NTC. As part of the VAS, the Company offers internet access service; virtual private network, electronic mail (e-mail), messaging services, web hosting, electronic commerce, firewall service and e-learning. The VAS is valid from September 6, 2013 up to September 5, 2022.

Public Hearing on Franchise

The Company is a grantee of the franchise to establish, install, maintain and operate wire and/or wireless telecommunications systems, lines, circuits and stations throughout the Philippines for public and international communications. On February 20, 2018, the Subcommittee on Oversight (Legislative Franchise) ("Subcommittee") of the House of Representatives conducted a public hearing on the alleged sale of the Company's ownership interest to MENLO without Congressional approval. As stated in RA No. 10894, Section 14, the grantee shall not sell, lease, transfer, grant the usufruct of, nor assign this franchise or the rights and privileges acquired thereunder to any person, firm, company, corporation, or other commercial or legal entity, nor merge with any other corporation or entity, nor shall transfer the controlling interest of the grantee, whether as a whole or in parts, and whether simultaneously or contemporaneously, to any person, firm, company, corporation or entity without the prior approval of Congress of the Philippines. Further, the Congress shall be informed of any sale, lease, transfer, grant of usufruct, or assignment of franchise or the rights and privileges acquired thereunder, or of the merger, or transfer of the controlling interest within sixty (60) days after the completion of said transaction. Furthermore, failure to report to Congress such change of ownership shall render the franchise ipso facto revoked.

The Subcommittee have opened an inquiry into the non-compliance with the terms and conditions of the franchise. The Company made clear its position that based on the applicable law on the matter and the factual circumstances surrounding the sale of the Company's shares, the approval by Congress is not required before the new investors can enter the Company. Considering there are other items that the Subcommittee on Oversight wants to be clarified, the Company was required to submit a Position Paper to clarify all concerns on the compliance by the Company of the provisions of its franchise.

The Company complied with the requirement and submitted a Position Paper on March 7, 2018 followed by a Supplemental Position Paper on March 21, 2018. The Company is yet to receive response from the Subcommittee regarding the Position Paper and the Supplemental Position Paper submitted.

Status of Shares Listing in the Philippine Stock Exchange ("PSE")

The Company listed its shares in the PSE. On December 10, 2004, the Company requested the voluntary suspension of trading of its shares citing the non-completion of audit of financial statements which was approved by the PSE on December 13, 2004.

The Company, however, continues to file with the SEC for the prescribed quarterly and periodic information reports, PSE for the required disclosure statements and Bureau of Internal Revenue ("BIR") for the quarterly and annual income tax return based on interim unaudited financial statements.

On August 29, 2017, the Company requested for the lifting of the voluntary suspension of the trading of its shares with the PSE appealing that the Makati City Regional Trial Court - Branch 66 (the "Rehab Court") acknowledged the importance of the lifting of the suspension of trading of the Company's shares with the PSE in going forward with its business.

On September 7, 2017, the PSE responded to the Company's request dated August 29, 2017 mentioning that without the SEC approval of the temporary exemptive relief, the Company may be found non-compliant with the structured reportorial requirements of the PSE given the Company's non-submission of the annual and quarterly reports. Furthermore, the PSE requested additional information from the Company which include, among others, updates on the implementation of the court-approved rehabilitation plan to proceed with the evaluation of the request.

On April 20, 2018, the Company received show cause letters from the Markets and Securities Regulation Department ("MSRD") all dated April 19, 2018 requiring the Company to submit a written explanation on alleged violations and/or deficiencies.

On April 26, 2018, the Company replied to show cause letters explaining support of the Company's argument that it should not be held administratively liable by the SEC.

On June 5, 2018, MSRD issued letter to the Company and cited liable for violating the pertinent provisions of Rules 17, 20 and 68 of the implementing rules and regulations of the Securities Regulation Code (SRC), as amended, for the Company's failure to (i) conduct its annual stockholders' meeting and (ii) file its audited financial statements and (iii) annual information statements.

The Company's registration statement was suspended and shall be lifted only upon full compliance with necessary requirements.

On June 14, 2018, the Company paid the monetary penalties assessed by the MSRD amounting to ₱7,000,000 for the non-compliance with the SEC's reportorial requirements and the management is positive that this will lead to a favorable turning point in the Company's compliance requirements.

On October 3, 2018, the Company submitted the required documents and reports in full compliance of the Order dated June 5, 2018. The management is positive that this will lead to a favorable turning point in the Company's compliance requirements.

Increase in Authorized Capital Stock

In a meeting dated July 30, 2018, the Board of Directors of the Company approved to increase the authorized capital stock of the Company from ₱3,800,000,000 to ₱15,600,000,000. The increase was approved by the stockholders in the Company's Annual Stockholders' Meeting held on September 20, 2018.

On October 9, 2018, the Company has filed the amendment of Article 7 of the Amended Articles of Incorporation with the SEC to increase the authorized capital stock from ₱3,800,000,000 to ₱15,600,000,000 broken down as follows:

- a) 4,500,000,000 common shares at ₱1 par value per share;
- b) 230,000,000 Serial Cumulative Convertible Redeemable Preferred Shares at ₱10 par value per share;
- c) 6,750,000,000 Series A Serial Redeemable Preferred Shares at ₱1 par value per share;
- d) 1,800,000,000 Series B Serial Redeemable Preferred Shares at ₱1 par value per share; and
- e) 250,000,000 Series C Serial Redeemable Preferred Shares at ₱1 par value per share.

The amendment was approved by the SEC on October 31, 2018. As at May 6, 2019, the Company has yet to issue the share certificates to the creditors.

Third Telco Bidding

On November 7, 2018, the Company joined the selection for the new major player in the Philippine Telecommunication Market ("Third Telco Bidding") wherein the Selection Committee disqualified the Company. The disqualification is not warranted for the lacking document in question is the subject of the Petition for Declaratory Relief filed by the Company last November 6, 2018 with the Regional Trial Court of Makati City, Branch 134.

On November 9, 2018, the Company filed a Motion for Reconsideration before the Selection Committee of the NTC. In a letter dated November 12, 2018, the Selection Committee denied the Company's Motion for Reconsideration.

As approved by the Board of Directors, the Company filed a Petition for Certiorari with the SC on November 16, 2018 to assail the decision of the Selection Committee in disqualifying the Company. On December 12, 2018, the Board of Directors of the Company approved the filing of an Amended Petition for Certiorari with the SC. The amendments intend to supplement and further strengthen the arguments previously raised in the Petition for Certiorari. The Amended Petition for Certiorari was filed with the SC on December 12, 2018, pending resolution from SC as at May 6, 2019.

Status of Operations

In 2008, the Company has ceased its LEC operations (see Notes 12 and 24).

The Company is currently focused on broadband internet access services as a result on growth of wireless/mobile systems and the rise of broadband internet demand. As such, the Company's main source of revenue is broadband internet access services (see Note 19). The Company offers dedicated or shared internet access service, via fiber or wireless, and operates a 10+ Gbps broadband network across the NCR, and Regions III and IV catering corporate, business and residential customers.

In 1998, the decline of the Philippine peso vis-à-vis the U.S. dollar, intra-corporate litigations in RETELCOM which resulted in non-realization of RETELCOM's planned additional capital infusion into the Company, increasing competitive pressure among industry players, market and technology changes, in particular short messaging services (i.e., SMS, more popularly known as text messaging), and deregulation have all contributed to decreased margins in the telecommunications industry and market shift to mobile phones. This, in turn, severely affected the Company's ability to settle its maturing obligations.

In response to these economic events and financial pressures, the Company has reviewed its businesses with the objective of optimizing revenues, reducing expenses and improving service quality. The Company's medium-term strategy now focuses on the emerging internet era with its offering of broadband internet access and other VAS to e-business providers. In addition, as discussed below, the Company finalized the restructuring of a substantial portion of its outstanding obligations to its various creditor banks and certain suppliers.

On November 26, 2002, the Company's creditors, representing 75% of the outstanding liabilities being restructured, approved the Company's debt restructuring proposal and accordingly signed the Master Restructuring Agreement, Dollar Facility Agreement, Peso Facility Agreement and other documents, collectively called the "Definitive Agreements", covering the said debt restructuring. On October 27, 2003, the Company's lenders who have signed the Definitive Agreements represent 93% of the outstanding liabilities restructured.

On August 20, 2009, after the Definitive Agreements did not materialize, RETELCOM, the Company, Philippine Wireless, Inc. ("PWI"), CWI, and Wavenet Philippines, Inc. ("WPI") (collectively referred to as the "RETELCOM Group") jointly filed a petition for Corporate Rehabilitation and Suspension of Payments pursuant to the Rules of Procedure on Corporate Rehabilitation, A.M. No. 00-8-10-SC. The said petition was accompanied by the RETELCOM Group's proposed rehabilitation plan (the "Rehab Plan") and was docketed as SP. Proc. No. M-6853 and raffled to the Rehab Court. On August 24, 2009, the Rehab Court issued an order staying enforcement of all claims, whether for money or otherwise against the RETELCOM Group ("Stay Order") and appointing a rehabilitation receiver (the "Rehab Receiver").

On April 1, 2011, the Rehab Court approved the proposed Rehab Plan subject to certain modifications, which was immediately executory (see Note 2).

In 2011, certain creditors, representing 8.5% and 12.8% of the secured and unsecured creditors, respectively, filed before the Court of Appeals ("CA") a petition for review with prayer for Temporary Restraining Order and/or Writ of Preliminary Injunction.

On May 19, 2017, the CA granted the review of the consolidated petitions, and reversed, set aside and dismissed the Rehab Court's decision dated April 1, 2011 in SP Proc. No. M-6853 ("CA Decision").

On June 13, 2017, the RETELCOM Group filed a Motion for Reconsideration in relation to the CA Decision dated May 19, 2017 citing, among others, that rehabilitation is still the better option to take for the Company to settle its obligations and to reinstate to its former position of successful operation and solvency. The RETELCOM Group further indicated in the Motion for Reconsideration that the said creditors who filed the petition before the CA represent only 8.5% and 12.8% of the secured and unsecured creditors, respectively, and that it will be a grave injustice to the remaining 91.5% and 87.2% of the other secured and unsecured creditors, respectively. Consequently, the creditors filed their comments and opposition to the RETELCOM Group's Motion for Reconsideration.

On October 10, 2017, the RETELCOM Group filed a consolidated reply respectfully reiterating that the judgment be rendered anew reconsidering the CA Decision and a resolution be issued granting instant Motion for Reconsideration, thereby dismissing the appeals in these cases based on the following, among others:

- Entry of MENLO as the new owner of the Company and its impact.
- Capabilities and credentials of MENLO which will enable the Company to fulfill its obligations under the court-approved Rehab Plan.
- The Company is envisaged as the third player in telecommunications industry.
- The Philippine telecommunications market is in need of more competition in order that the Filipino people can avail of efficient, greater capacity internet broadband connectivity with low latency at very affordable rates.
- The Company has the competitive edge to compete in the broadband market place. The Company is not saddled with the legacy investments in 2G/3G networks, thereby enabling it to leapfrog to the next 5G generation network.

On October 11, 2017, the CA denied the Motion for Reconsideration as it finds no cogent reason to warrant a reconsideration of the assailed decision.

On December 4, 2017, the RETELCOM Group filed petition for certiorari before the Supreme Court ("SC") requesting the SC to review the CA Decision citing that the CA erred in dismissing the petition for corporate rehabilitation indicating the following arguments:

- Rehabilitation proceeding is a relief that is accorded to financially distressed corporations, partnerships, and associations. As opposed to liquidation, rehabilitation is preferred relief. The rationale of a rehabilitation proceeding is to effect feasible and viable rehabilitation by preserving a foundering business as going concern, because the assets of a business are often more valuable when so maintained than they would be when liquidated.
- The Company is on the road to financial vigor. The Company is talking to potential investors to form strategic partnerships with the aim of becoming a major player in the Philippine market which is a sign of its way to financial recovery. To scuttle these plans by outright rejecting them through the dismissal of its Rehab Plan would mean injustice not only to its investors but to its employees, creditors, stockholders, and the general public.
- The said creditors who filed the petition before the CA represent only 8.5% and 12.8% of the secured and unsecured creditors, respectively, and that it will be a grave injustice to the remaining 91.5% and 87.2% of the other secured and unsecured creditors, respectively, to resort to the Company's liquidation, specially in the light of recent developments in the takeover of the Company's management. These creditors have shown continuous support for the ongoing rehabilitation and have not actually opposed the order dated April 1, 2011.
- The Company's improved, and still improving, fortunes provide the needed breathing room for their rehabilitation and have created an attractive business environment, thereby opening the Company to interested third parties that are very keen on participating in the development of broadband internet service to serve underdeveloped and underserved needs of our country.

In a resolution dated March 7, 2018, the SC dismissed the appeal of RETELCOM Group for allegedly being filed beyond the required period of on or before December 4, 2017. On June 4, 2018, the Company filed a Motion for Reconsideration arguing that the SC erred in dismissing for the same was actually filed on December 4, 2017. In a Resolution dated July 11, 2018, the SC granted the Company's Motion for Reconsideration and reinstated the Company's appeal assailing the decision of the CA.

On June 20, 2018, one of the creditors who filed the petition before the CA served a Manifestation with Motion to Suspend, pending before SC, that the new ownership and management that recently took over the reins of the Company may be able to reverse the financial condition of the latter. In line with this, the creditor moved for the suspension of pending SC proceedings while the parties study and review the business plans of the new owner and management.

On July 27, 2018, the Company requested the Rehab Court that it be allowed to exit from rehabilitation subject to certain requirements with which was granted by the Rehab Court on August 6, 2018. Part of the compliance is for the Company to conduct a shareholders' meeting to increase its authorized capital stock. This will enable the Company to pay its debt through debt-to-equity conversion as mandated by the approved Rehabilitation Plan. Given the circumstances, the Company can strategically proceed with its operations and at the same time settling the claims of its various creditors.

In the Company's Annual Stockholders' Meeting held on September 20, 2018, the stockholders approved and ratified the following items:

- Amendment of the Amended Articles of Incorporation to increase the authorized capital stock of the company to ₱15,600,000,000;
- Conducting debt-to-equity conversion or other equity conversion of up to ₱8,800,000,000;
- Listing the common and serial cumulative convertible redeemable preferred shares in the PSE;
- Amending further the Amended By-Laws to change the accounting period to calendar year commencing on January 1 and ending on December 31 of the same year;
- Amending further the Amended Articles of Incorporation to include "information and communications technology" in the company's purpose;
- Participating in the bidding for the New Major Player in Telecommunications Market;
- Authorizing and confirming the acts of the Company in negotiating and execution of relevant documents with National Transmission Corporation or National Grid Corporation of the Philippines;
- Authorizing the Company to establish long term incentive plan; and
- Authorizing the Company to secure the necessary funding for the Company's operations and expansion programs through financing, loans and equity offering.

As discussed above, the increase in authorized capital stock was filed by the Company with the SEC on October 9, 2018. The SEC approved the increase in authorized capital stock filed by the Company pending the issuance of Series "A", Series "B" and Series "C" Preferred Shares and the implementation of the Company's debt-to-equity conversion as ordered by the Rehab Court amounting to ₱8,711,736,581 on October 31, 2018. As at May 6, 2019, the Company has yet to issue the share certificates to the creditors.

On December 21, 2018, the Company received an order from the Rehab Court denying the opposition and motions for reconsideration filed by the creditors of the Company on the Rehab Court's August 6, 2018 order which allowed the Company to exit from rehabilitation subject to the fulfillment of certain conditions.

In the same order, the Rehab Court confirmed that the Company substantially complied with the conditions provided for under the August 6, 2018 order. In view of the said substantial compliance, the Rehab Court declared that the Company is now out of rehabilitation and its exit is no longer conditional.

Going Concern

The Company has incurred net losses amounting to ₱83,019,222 and ₱69,332,536 in 2011 and 2010, respectively, resulting to accumulated deficit amounting to ₱11,314,772,597 and ₱11,231,753,375 as at June 30, 2011 and 2010, respectively, and capital deficiency amounting to ₱9,090,621,252 and ₱9,007,586,982 as at June 30, 2011 and 2010, respectively. As at June 30, 2011, the Company is under corporate rehabilitation as approved by the Rehab Court. These events or conditions indicate the existence of a material uncertainty which may cast doubt about the Company's ability to continue as a going concern.

The Company's management, to achieve effective implementation of the court-approved Rehab Plan and exit in the corporate rehabilitation status, is undertaking the following action plans, to attain sustainable financial stability, improve its financial position, and to restore and reinstate to its former position of successful operation and solvency through, among others:

- Conversion of debt into equity (see Notes 2 and 14);
- Availment of condonation program of the Social Security System (SSS) pursuant to RA No. 9003 and SSS Circular Nos. 2010-2004 and 2010-2005 (see Notes 2 and 12);
- Immediate settlement of statutory obligations to minimize associated risk;
- Infusing significant capital expenditures, through its new owners, MENLO, to improve, modernize and increase the capacity of its existing broadband assets;
- Use of organic capital expenditures rolled-out from earnings, in addition to above, which will be used to expand the Company's fiber footprint into Greater Metropolitan Area and surrounding areas; and
- Possible foreign partner to recapitalize the Company and scale up its broadband business model on a nationwide coverage using the latest state-of-the-art fixed and mobile broadband infrastructure and enter into agreements with the Philippine government, through NTC, to use its nationwide fiber optic assets (see Note 27).

On December 21, 2018, the Rehab Court confirmed that the Company substantially complied with the conditions and declared that the Company is out of rehabilitation and its exit is no longer conditional, as discussed above.

The Company's financial statements have been prepared as a going concern. As such, the Company's accompanying financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Authorization for Issue of the Financial Statements

The financial statements of the Company as at June 30, 2011 and 2010 and for each of the three years in the period ended June 30, 2011 were authorized for issue by the Board of Directors (BOD) on May 6, 2019.

2. CORPORATE REHABILITATION

As discussed in Note 1, on April 1, 2011, the Rehab Court approved the Rehab Plan which was immediately executory and petitioners as well as all claimants and creditors are enjoined and strictly comply include, among others, the following:

1. Modification of the rehabilitation period from 15 years to a 2-year moratorium and 12-year debt payment period;
2. Waiver of any and all interest, penalties and surcharges on all obligations of the Company to all claimants listed in the Rehab Plan except the legal interest of 6% from the approval of the plan until the full payment of the obligation (see Note 13);

3. Each of the petitioners to: (i) immediately settle, out of the proceeds of the liberated escrow account pursuant to the Rehab Court's orders dated September 3, 2010 and October 20, 2010, the petitioners' obligations to the SSS in accordance with the SSS Condonation Law of 2009 and SSS Circular No. 2010-2004 for delinquent premium contributions and SSS Circular No. 2010-2005 for delinquent loan amortizations, including, but not limited to, delinquent employees compensation contributions through the SSS (see Notes 1 and 12); (ii) immediately settle out of the proceeds from the recovery of any advances and deposits or garnished/levied assets and the proceeds of the sale of the petitioners' other assets pursuant to the pertinent orders issued by the courts, all unpaid wages, salaries and benefits inclusive of whatever amount have been deducted from said wages and salaries which the petitioners have not remitted to the appropriate contractual entity such as, but not limited to, the SSS and the Pag-Ibig Fund, of all existing and resigned/retired or separated employees, pursuant to law and to respective petitioners' employment policies including, but not limited to, collective bargaining agreements; and (iii) to immediately settle out of the proceeds from the recovery of any advances and deposits or garnished/levied assets and the proceeds of the sale of the sale of the petitioners' other assets pursuant to the pertinent orders issued by the Rehab Court, all unpaid retirement/separation pay for the retired or separated employees, pursuant to law and to the respective petitioners' employment policies including, but not limited to, collective bargaining agreement;
4. The petitioners to avail, whenever necessary, financing and advances from owners to finance their working capital requirements prior to the entry of the new investor, which financing and advances from owners shall be payable/repaid out of the new money to be infused by the new investor (see Note 18);
5. The full conversion of all outstanding liabilities into 12 year serial redeemable preferred shares except for statutory obligations, financing and advances from owners and certain liabilities in the nature of suppliers' credits, and that the corresponding amount will be lodged in the petitioner's books as "Deposit for Subscription" pending approval by the SEC of the increase in authorized capital stock (see Note 14);
6. The Company, from receipt thereof, to amend its articles of incorporation increasing its authorized capital stock from ₱3,800,000,000 (consisting of 1,500,000,000 common shares at ₱1 par value and 230,000,000 serial cumulative convertible redeemable preferred shares at ₱10 par value) to ₱10,187,150,000 (consisting of 1,387,150,000 common shares at ₱1 par value and 7,500,000 serial cumulative convertible preferred shares at ₱10 par value and 8,800,000,000 serial redeemable preferred shares at ₱1 par value), and to immediately issue the corresponding stock certificates to the claimants concerned (see Note 16);
7. The Company to enroll and list all of its authorized Series "A", Series "B" and Series "C" redeemable preferred shares as freely "tradable" stocks with the PSE;
8. The SEC shall approve the Company's request for temporary exemptive relief under the SRC Rule 72.2, without sanctions or penalties whatsoever, monetary or otherwise, and the PSE to lift the suspension of the trading of the Company's common shares without any sanctions or penalties whatsoever, monetary or otherwise, and the Company shall faithfully comply with all the applicable rules and regulations of the SEC and PSE so that the trading of all the authorized shares of the Company shall not in any way be suspended or restricted except as provided by law;
9. Immediately settle obligations to petitioners such as salaries, wages and benefits out of escrow account; and
10. Any sale or disposition of the petitioner's properties, whether real or personal shall also be subject to the Rehab Court's evaluation and approval.

On July 27, 2018, the Company requested the Rehab Court that it be allowed to exit from rehabilitation subject to certain requirements with which was granted by the Rehab Court on August 6, 2018.

On July 30, 2018, in its Regular Meeting, the Board of Directors of the Company approved to increase the authorized capital stock of the company from ₱3,800,000,000 to ₱15,600,000,000 and debt-to-equity conversion or other equity conversion as mandated by the Rehab Court. The Company will conduct debt-to-equity conversion under the Company's Rehab Plan, in order to pay the claims of its creditors amounting to ₱8,800,000,000, more or less. Said debts will be converted to equity through the issuance of Series "A", "B", and "C" Redeemable Serial Preferred Shares. The increase and debt-to-equity conversion or other equity conversion were approved by the stockholders in the Company's Annual Stockholders' Meeting held on September 20, 2018.

The Company has filed with the SEC the increase in authorized capital stock on October 9, 2018 which was approved on October 31, 2018 (see Note1). As at May 6, 2019, the Company has yet to issue the share certificates to the creditors.

On December 21, 2018, the Rehab Court confirmed that the Company substantially complied with the conditions and declared that the Company is out of rehabilitation and its exit is no longer conditional (see Note 1).

3. BASIS FOR THE PREPARATION AND PRESENTATION OF FINANCIAL STATEMENTS

3.01 Basis of Preparation

The Company's financial statements have been prepared in compliance with the Philippine Financial Reporting Standards (PFRSs).

The Company's financial statements have been prepared on a historical cost basis, except for available-for-sale (AFS) investments included under other non-current assets, which is carried at fair value. The Company's financial statements are presented in Philippine Peso, the Company's functional and presentation currency. All values are rounded to the nearest peso, except when otherwise indicated.

3.02 Current versus Non-current Classification

The Company presents assets and liabilities in the Statements of financial position based on whether it is current and non-current classification.

An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred income tax assets and liabilities are classified as non-current assets and liabilities, respectively.

3.03 Operating Segments

The Company's operating businesses are recognized and managed according to the nature of the products or services offered, with each segment representing strategic business unit that serves different markets.

Segment assets include operating assets used by a segment and consist principally of operating cash, receivables and property and equipment.

Segment liabilities include all operating liabilities and consist principally of trade, accrued expenses and other payables which were incurred after the approval of the Rehab Plan.

Segment revenue, expenses and profit are recognized and incurred in the ordinary course of business. These are accounted at competitive market prices.

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Operating Officer (COO) of the Company who makes strategic decisions.

3.04 New and Revised PFRSs in Issue but Not Yet Effective

The accounting policies adopted are consistent with those of the previous financial year for the following new and amended PFRS, Philippine Accounting Standards (PAS), Philippine Interpretation based on International Financial Reporting Interpretations Committee (IFRIC) and improvements to PFRS which were adopted as at July 1, 2010. The adoption of these amendments did not have any significant impact on the Company's financial statements.

3.05 Summary of Significant Accounting Policies

3.05.01 Presentation of Financial Statements

The Company has elected to present all items of recognized income and expenses in two (2) statements, one displaying components of profit or loss in the statements of loss and a second statement beginning with profit or loss and displaying components of other comprehensive income (loss) in the statements of comprehensive income (loss).

3.05.02 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

3.05.02.01 Initial Recognition

The Company recognizes a financial asset or a financial liability in the statements of financial position when it becomes a party to the contractual provisions of the instrument.

All financial instruments are initially recognized at fair value. Except for financial assets and financial liabilities at fair value through profit or loss (FVPL), the initial measurement of financial instruments includes transaction costs. The Company classifies its financial assets in the following categories: financial assets at FVPL, held-to-maturity (HTM) investments, AFS financial assets, loans and receivables or as hedging instrument in an effective hedge as appropriate. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the settlement date i.e., the date that an asset is delivered to or by an entity.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual agreement. Interest, dividends, gains and losses relating to a financial instrument or a component that is a financial liability, are reported as expenses or income. Distributions to holders of financial instruments classified as equity are charged directly to equity, net of any related income tax benefits.

The Company classifies its financial liabilities into financial liabilities at FVPL, loans and borrowings, trade and other payables or as derivative designated as hedging instrument in an effective hedge, as appropriate. Management determines the classification at initial recognition and, where allowed and appropriate, re-evaluates such designation at each end of the reporting period.

The Company's financial assets are in the nature of loans and receivables and AFS financial assets, while its financial liabilities are in the nature of loans and borrowings. As at June 30, 2011 and 2010, the Company has no financial assets classified as at FVPL, HTM investments and derivatives designated as hedging instruments in an effective hedge. Further, the Company has no financial liabilities classified as at FVPL and derivatives designated as hedging instrument in an effective hedge as at June 30, 2011 and 2010.

3.05.02.02 Subsequent Measurement

The subsequent measurement of financial instruments depends on their classification as follows:

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are not entered into with the intention of immediate or short-term resale and are not classified as "financial assets held for trading" or designated as "AFS financial assets" or "financial assets at FVPL."

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate method (EIR), less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization and losses arising from impairment are recognized in "Others" in the statements of loss.

The Company's cash, receivables, and long-outstanding trade receivables and refundable security deposits included under "other non-current assets", are classified as loans and receivables as at June 30, 2011 and 2010.

AFS Financial Assets

AFS financial assets are those which are designated as such or do not qualify to be classified or designated as FVPL, HTM investments or loans and receivables. AFS financial assets are purchased and held indefinitely and may be sold in response to liquidity requirements or changes in market conditions.

After initial measurement, AFS financial assets are subsequently measured at fair value with unrealized gains or losses arising from the fair valuation of AFS financial assets being reported as net unrealized gain (loss) on AFS financial assets in the statements of financial position balances until the investment is derecognized. These are also reported as other comprehensive income in the statements of comprehensive income (loss). Interest earned whilst holding AFS financial assets is reported as interest income using the EIR method. Any dividend earned on holding AFS financial asset is recognized in the statements of loss when the right of payment has been established.

The Company evaluates whether the ability and intention to sell its AFS financial assets in the near term is still appropriate. When, in rare circumstances, the Company is unable to trade these financial assets due to inactive markets and management's intention to do so significantly changes in the foreseeable future, the Company may elect to reclassify these financial assets.

Reclassification to loans and receivables is permitted when the financial assets meet the definition of loans and receivables and the Company has the intent and ability to hold these assets for the foreseeable future or until maturity. Reclassification to the HTM investments category is permitted only when the entity has the ability and intention to hold the financial asset accordingly.

For a financial asset reclassified from the AFS category, the fair value carrying amount at the date of reclassification becomes its new amortized cost and any previous gain or loss on the asset that has been recognized in equity is amortized to profit or loss over the remaining life of the investment using the EIR. Any difference between the new amortized cost and the maturity amount is also amortized over the remaining life of the asset using the EIR. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to the statements of loss.

Loans and Borrowings

This category pertains to financial liabilities that are not held for trading or not designated as at FVPL upon the inception of the liability. Loans and borrowings are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statements of loss. Gains and losses are recognized in "Other income (charges)" in the statements of loss when the liabilities are derecognized as well as through the amortization process.

The Company's loans and borrowings include trade and other payables, accrued expenses and other liabilities as at June 30, 2011 and 2010.

3.05.02.03 Impairment of Financial Assets

The Company assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that has occurred since the initial recognition of the asset (an incurred 'loss event') has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include: indications that the debtor, or a group of debtors, is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial Assets Carried at Amortized Cost

For financial assets carried at amortized cost, the Company first assesses whether impairment exists individually for financial assets that are individually significant or collectively for financial assets that are not individually significant. If the Company determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original EIR.

The carrying amount of the asset is reduced through the use of an allowance account, and the loss is recognized in the statements of loss. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Company. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. Any subsequent reversal of an impairment loss is recognized in the statements of loss, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

AFS Financial Assets

For AFS financial assets, the Company assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. In case of equity investments classified as AFS, this would include a significant or prolonged decline in the fair value of the investments below its cost. The Company treats significant generally as 20% or more of the original cost of investment, and prolonged as greater than 12 months. If an AFS financial asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortization) and its current fair value, less any impairment loss previously recognized in the statements of loss, is transferred from equity to the statements of loss. Reversals in respect of equity instruments classified as AFS are not recognized in the statements of loss.

If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such unquoted equity instrument has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

3.05.02.04 Derecognition of Financial Assets and Liabilities

Financial Assets

A financial asset or, where applicable a part of a financial asset or part of a group of similar financial assets is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Company has transferred its rights to receive cash from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

Where the Company has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of Company's continuing involvement in the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts of a financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed is recognized in the Company's statements of loss.

3.05.02.05 Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statements of financial position if there is a currently enforceable legal right to set off the recognized amounts and there is intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Company assesses that it has a currently enforceable right of offset if the right is not contingent on a future event and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Company and all of the counterparties.

3.05.02.06 Fair Value Measurement

An analysis of fair values of financial instruments and further details as to how they are measured are provided in Note 26.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; or
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

3.05.03 Other Current Assets

Other current assets include prepayments and creditable withholding taxes (CWTs).

Prepayments

Prepayments are expenses paid in advance and recorded as asset, before these are used or consumed, as the service or benefit will be received in the future. Prepayments expire and are recognized as expenses either with the passage of time or through use or consumption.

CWTs

CWTs are tax withheld from income subject to expanded withholding taxes (EWT). CWTs can be utilized as payment for income taxes provided that they are properly supported by certificates of creditable withholding tax withheld at source subject to the rules in Philippine income taxation. CWTs are expected to be utilized as payment for income taxes within twelve (12) months and are classified as current assets.

3.05.04 Property and Equipment

Cost Model

Property and equipment, except land, are stated at cost less accumulated depreciation and accumulated impairment in value, if any.

The initial cost of property and equipment comprises the purchase price or construction cost, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the property and equipment to its working condition and location for its intended use.

Such cost includes the cost of replacing parts of such property and equipment, if the recognition criteria are met. All other repairs and maintenance are charged to current operations during the financial period in which these are incurred.

Depreciation

Except for land, depreciation is charged so as to allocate the cost of assets less their residual values over their estimated useful lives, using straight-line method. The useful lives of property and equipment are as follows:

Type of Asset	Estimated Useful Life in Years
Buildings and improvements	– 25
Telecommunications equipment:	
Cable and wire facilities	– 14
Central office equipment	– 5
Other work equipment	– 5

The assets' residual values estimated recoverable reserves and useful lives are reviewed and adjusted, if appropriate, at each end of the reporting period.

Property and equipment, except land is depreciated from the moment the assets are available for use and after the risks and rewards are transferred to the Company. Depreciation cease when the assets are fully depreciated, or at the earlier of the period that the item is classified as held for sale (or included in the disposal group that is classified as held for sale) in accordance with PFRS 5, *Noncurrent Assets Held for Sale and Discontinued Operations*, and the period the item is derecognized.

The assets' residual values and useful lives are reviewed and adjusted, if appropriate, at each end of the reporting period.

When assets are retired or otherwise disposed of, the cost and the related accumulated depreciation and any impairment in value are removed from the accounts and any resulting gain or loss is credited or charged to current operations.

3.05.05 Investment Properties

Investment properties of the Company pertains to various land held for lease or held for capital appreciation. Investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment properties at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day to day servicing of an investment property. Subsequent to initial recognition, investment properties are carried at cost less any impairment in value.

Investment property is derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in profit or loss in the statements of loss in the year of retirement or disposal.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment property when, and only when, there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale.

For a transfer from investment property to owner-occupation, commencement of operating lease to another party or ending of construction or development, the deemed cost of property for subsequent accounting is its fair value at the date of change in use. If the owner occupied becomes an investment property, the Company accounts for such property in accordance with the policy stated under property and equipment up to the date of change in use.

3.05.06 Other Non-current Assets

Other non-current assets include long-outstanding trade receivables, plant supplies and refundable security deposits. These are carried at historical cost and classified as non-current since the Company expects to utilize the assets beyond twelve (12) months from the end of the reporting period.

Plant supplies are carried at lower of cost and net realizable value (NRV). NRV is the estimated future sales price of the product that the entity expects to realize when the product is processed and sold, less estimated costs to complete production and bring the product to sale. Where the time value of money is material, these future prices and costs to complete are discounted.

Cost of plant supplies comprise all costs of purchase and other costs incurred in bringing the plant supplies to their present location and condition. A regular review is undertaken to determine the extent of any provision for obsolescence.

3.05.07 Impairment of Non-financial Assets

Other Current Assets

At each end of the reporting period, these assets are reviewed to determine whether there is any indication that those assets have suffered impairment loss. If there is an indication of possible impairment, the recoverable amount of assets is estimated and compared with their carrying amounts. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognized immediately in the statements of loss.

Property and Equipment and Investment Properties

The Company assesses at each reporting period whether there is an indication that property and equipment, and investment properties may be impaired when events or changes in circumstances indicate that the carrying values of the said assets may not be recoverable. If any such indication exists and if the carrying value exceeds the estimated recoverable amount, the assets or CGUs are written down to their recoverable amounts. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs to sell and its value-in-use (VIU) and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. In assessing VIU, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses of continuing operations are recognized in the statements of loss in those expense categories consistent with the function of the impaired asset.

An assessment is made at each end of the reporting period as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of comprehensive income (loss) unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Plant Supplies

At each end of the reporting period, plant supplies are assessed for impairment by comparing the carrying amount of each item of plant supplies (or group of similar items) with its NRV. If an item of plant supplies (or group of similar items) is impaired, its carrying amount is reduced to NRV, and an impairment loss is recognized immediately in profit or loss.

If an impairment loss subsequently reverses, the carrying amount of plant supplies is increased to the revised NRV, but not in excess of the amount that would have been determined had no impairment loss has been recognized. A reversal of impairment loss is recognized immediately in profit or loss.

3.05.08 Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each end of the reporting period and adjusted to reflect the current best estimate. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as finance cost in the statements of loss. Where the Company expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented on the statements of loss, net of any reimbursement.

3.05.09 Retirement Benefits Costs

The net retirement benefits liability or asset is the aggregate of the present value of the retirement benefits obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net retirement benefits asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Retirement benefits costs comprise the following:

- service cost
- net interest on the net retirement benefits liability or asset
- remeasurements of net retirement benefits liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the statements of loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net retirement benefits liability or asset is the change during the period in the net retirement benefits liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net retirement benefits liability or asset. Net interest on the net retirement benefits liability or asset is recognized as expense or income in the statements of loss.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on retirement benefits liability) are recognized immediately in other comprehensive income in the period in which these arise. Remeasurements are not reclassified to profit or loss in subsequent periods. Remeasurements recognized in other comprehensive income after the initial adoption of Revised PAS 19 are not closed to any other equity account.

When the Company deems that it is impractical to use the projected unit credit method to measure its liability and costs under defined benefit plan, the Company measures the liability using the following assumptions: 1) current salaries continue until current employees are expected to begin receiving post-employment benefits; 2) closure of the plan for existing as well as any new employees; 3) all current employees will receive the post-employment benefits.

At the reporting date, the Company measures its retirement benefits liability under defined benefit plans at the net total of its defined benefit obligation minus fair value of plan assets. The Company recognizes the net change in the retirement benefits liability as the retirement benefits costs for the years ended 2011, 2010, and 2009.

3.05.10 Capital Deficiency

Capital stock is measured at par value for all shares issued. Proceeds and/or fair value of considerations received in excess of par value, if any, are recognized as additional paid-in capital (APIC). Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Retained earnings represent the cumulative balance of periodic net income or loss, dividend contributions, prior period adjustments, effect of changes in accounting policy and other capital adjustments. When the retained earnings account has a debit balance, it is called "deficit". A deficit is not an asset but a deduction from equity. Dividends are recognized as a liability and deducted from equity when these are approved by the BOD of the Company. Dividends for the period that are approved after the end of the reporting period are dealt with as an event after the reporting period.

3.05.11 Deposit for Subscription

Deposit for subscription pertains to debts to be converted into equity as serial redeemable preferred shares based on the court-approved Rehab Plan (see Notes 2 and 14).

3.05.12 Loss Per Share

Basic

Basic loss per share is calculated by dividing the net loss attributable to ordinary stockholders of the Company by the weighted average number of common shares outstanding during the year, excluding common shares purchased by the Company and held as treasury shares.

Diluted

Diluted loss per share is calculated by dividing the net loss attributable to ordinary stockholders of the company by the weighted average number of common shares outstanding, adjusted for any stock dividends declared during the year plus weighted average number of ordinary shares that would be issued on the conversion of all potentially dilutive common shares during the period.

3.05.13 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements, has pricing latitude, and is also exposed to inventory and credit risks.

Broadband Internet Access Services

Recognized when earned and as the service is provided to customers, net of share of other service providers.

Dividend income

Dividend income is recognized when the Company's right to receive payment is established.

Rental Income

Recognized as the service is performed.

Interest Income

Income is recognized as the interest accrues using the EIR method.

3.05.14 Costs and Expenses

Cost and expenses are decreases in economic benefits during the accounting period in the form of outflows or depreciations of assets or incurrence of liabilities that result in decrease in equity, other than those relating to distributions to equity participants. Cost and expenses are recognized in statements of loss in the period these are incurred.

3.05.15 Leases

Determination of Whether an Arrangement Contains a Lease

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement at the date of inception and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:

- a. there is a change in contractual terms, other than a renewal or extension of the arrangement;
- b. a renewal option is exercised, or extension granted, unless that term of the renewal or extension was initially included in the lease term;
- c. there is a change in the determination of whether fulfillment is dependent on a specified asset; or
- d. there is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the period when the change in circumstances gave rise to the reassessment for scenarios (a), (c) or (d) above, and at the period of renewal or extension period for scenario (b).

Operating Leases

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognized as expense in the statements of loss on a straight-line basis over the lease terms.

3.05.16 Income Taxes

Current Income Tax

Current tax liabilities for the current and prior year periods are measured at the amount expected to be paid to the tax authority. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as at the financial reporting date.

Deferred Income Tax

Deferred income tax is provided, using the liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax assets are recognized for all deductible temporary differences, carry-forward benefits of unused net operating loss carry-over (NOLCO) and excess of minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) to the extent that it is probable that sufficient future taxable income will be available against which the deductible temporary differences, unused NOLCO and excess of MCIT over RCIT can be utilized.

The carrying amount of deferred income tax assets is reviewed at each end of the reporting period and reduced to the extent that it is no longer probable that sufficient future taxable income will be available to allow all or part of the deferred income tax assets to be utilized. Unrecognized deferred income tax assets are reassessed at each end of the reporting period and are recognized to the extent that it has become probable that the sufficient future taxable income will allow the deferred tax assets to be recovered.

Deferred income tax assets are measured at the tax rate that is expected to apply to the period when the asset is realized based on tax rate and tax laws that has been enacted or substantively enacted as at the reporting date.

Income tax relating to items recognized directly in equity is recognized in equity and not in the statements of loss.

3.05.17 Contingencies

Contingent liabilities are not recognized in the financial statements. These are, however, disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but disclosed in the notes to financial statements when an inflow of economic benefits is probable.

3.05.18 Events after the Reporting Period

Post year-end events that provide additional information about the Company's position at the reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the financial statements when material.

4. SUMMARY OF SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and the accompanying disclosures. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the financial statements as they become reasonably determinable.

Judgments, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcome can differ from these estimates.

4.01 Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, apart from those including estimations and assumptions, which have the most significant effect on the amount recognized in the financial statements.

4.01.01 Determination of the Functional Currency

Based on the economic substance of the underlying circumstances relevant to the Company, the functional currency of the Company has been determined to be the Philippine peso. In making this judgment, the Company considered the following:

- a. The currency that mainly influences sales prices for financial instruments and services (this will often be the currency in which sales price for its financial instruments and services are denominated and settled);
- b. The currency in which funds from financing activities are generated; and
- c. The currency in which receipts from operating activities are usually retained.

The Philippine peso is the currency of the primary economic environment in which the Company operates.

4.01.02 Distinction between Property and Equipment and Investment Properties

The Company determines whether a property qualifies as property and equipment or an investment property. In making this judgment, for investment properties, the Company considers whether the property generates cash flows largely independent of the other assets and is held primarily to earn rentals or for capital appreciation. Property and equipment are held for use in the supply of services or for administrative purposes. The Company considers each property separately in making its judgment.

4.01.03 Classification of Financial Instruments

The Company exercises judgments in classifying a financial instrument on initial recognition either as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial asset, a financial liability or an equity instrument. The substance of a financial instrument, rather than its legal form, governs its classification in the statements of financial position.

In addition, the Company classifies financial assets by evaluating, among others, whether the asset is quoted or not in an active market. Included in the evaluation on whether a financial asset is quoted in an active market is the determination on whether the quoted prices are readily and regularly available, and whether those prices represent actual and regularly occurring market transactions on an arm's length basis.

4.01.04 Settlement of Obligations Through Conversion to Equity

The Company determines whether an obligation is settled if the obligation is replaced by another from the same lender on substantially different terms, or terms of an existing liability are substantially modified, such an exchange or modification is considered as settlement of the original liability. As such, conversion of obligations to equity, in accordance with the court-approved Rehab Plan, is considered as full settlement of the obligation as the terms with the same creditor are substantially modified. Thus, creditors are now considered as owners of the Company pending actual issuance of the serial redeemable preferred shares. As at June 30, 2011 and 2010, deposit for subscription in accordance with the court-approved Rehab Plan amounted to ₱8,841,736,581 (see Note 14).

4.02 Estimates and Assumptions

The key estimates and assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below.

4.02.01 Estimation of Allowance for Doubtful Accounts on Receivables and Long-outstanding Trade Receivables included under "Other Non-current Assets"

If the Company assessed that there is objective evidence that an impairment loss has been incurred on its receivables and long-outstanding trade receivables, the Company estimates the related allowance for doubtful accounts on these assets that are specifically identified as doubtful of collection. The level of allowance is evaluated by management on the basis of factors that affect the collectibility of the accounts. In these cases, the Company uses judgment based on the best available facts and circumstances, including but not limited to, the length of its relationship with the customer and the customer's credit status based on third-party credit reports and known market factors, to record specific reserves for customers against amounts due in order to reduce the receivables to amounts that the Company expects to collect. These specific reserves are re-evaluated and adjusted as additional information received affect the amounts estimated.

Provision for doubtful accounts on receivables amounted to nil in 2011 and 2010 and ₱953,958 in 2009. Reversal of allowance for doubtful accounts amounted to ₱3,167, and ₱264,789 and nil in 2011, 2010 and 2009, respectively (see Note 6). Provision for doubtful accounts on long-outstanding trade receivables amounted to nil in 2011, 2010, and 2009 (see Note 10).

As at June 30, 2011 and 2010, the carrying values of receivables amounted to ₱1,931,450 and ₱1,772,843, respectively, net of allowance for doubtful accounts amounting to ₱686,002 and ₱689,169 as at June 30, 2011 and 2010, respectively (see Note 6).

As at June 30, 2011 and 2010, the carrying values of long-outstanding trade receivables amounted to nil, net of allowance for doubtful accounts amounting to ₱1,381,525,501 as at June 30, 2011 and 2010 (see Note 10).

4.02.02 Estimation of Allowance for Impairment Losses on Plant Supplies included under "Other Non-current Assets"

The Company maintains an allowance for impairment losses at a level considered adequate to reflect the excess of cost of plant supplies over its NRV. NRV of plant supplies are assessed regularly based on prevailing estimated selling prices of plant supplies and the corresponding cost of disposal. Increase in the NRV of inventories will increase cost of inventories but only to the extent of original acquisition costs. As at June 30, 2011 and 2010, the carrying amounts of plant supplies amounted to nil, net of allowance for impairment losses of ₱63,913,307, as at June 30, 2011 and 2010. In 2011 and 2010, provision for impairment on plant supplies amounted to nil (see Note 10).

4.02.03 Estimation of Impairment of Property and Equipment and Investment Properties

The Company evaluates whether property and equipment and investment properties have suffered any impairment either annually or when circumstances indicate that related carrying amounts are no longer recoverable. The recoverable amounts of these assets have been determined based on either VIU or fair value, whichever is higher.

Estimation of VIU requires the use estimate and assumptions in determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets. Fair value is based on the results of assessment done by independent appraisers engaged by the Company. The approach utilizes prices recently paid for similar assets with adjustments made to the indicated market price to reflect condition and utility of the appraised assets relative to the market comparable. Any resulting impairment loss could have a material adverse impact on our financial position and financial performance. No impairment loss was recognized by the Company in 2011, 2010, and 2009.

The carrying values of property and equipment amounted to ₱419,762,262 and ₱445,589,897 as at June 30, 2011 and 2010, respectively (see Note 8).

The carrying values of investment properties amounted to ₱235,794,708 as at June 30, 2011 and 2010 (see Note 9).

4.02.04 Estimation of Useful Lives of Property and Equipment

The Company estimates the useful lives and residual values of property and equipment, except land, based on the period over which the asset is expected to be available for use. Such estimation is based on a collective assessment of similar businesses, internal technical evaluation and experience with similar assets. The estimated useful lives of the property and equipment, except land, are reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the property and equipment. It is possible, however, that future financial performance could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above. A reduction in the estimated useful life of any item of property and equipment would increase the recorded depreciation expense and decrease the carrying value of the assets. There were no changes in the estimated useful lives of the property and equipment in 2011 and 2010.

As at June 30, 2011 and 2010, the carrying values of property and equipment, amounted to ₱419,762,262 and ₱445,589,897, respectively. Depreciation and amortization expense recognized in 2011, 2010, and 2009 amounted to ₱26,002,867, ₱25,983,882 and ₱25,978,697 respectively (see Note 8).

4.02.05 Estimation of Retirement Benefits

The costs of retirement benefits liability as well as the present value of the retirement benefits costs are determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates, future salary increases, mortality rates and future retirement increases.

Due to practicality and the complexity of the valuation, the underlying assumptions and its long-term nature, retirement benefits liability is highly sensitive to changes in these assumptions. All assumptions are reviewed at each end of the reporting period.

In determining the appropriate discount rate, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the retirement benefits retirement liability.

The Company deemed that it is impractical to use the projected unit credit method to measure its liability and costs under defined benefit plan, the Company measured the liability using the following assumptions: 1) current salaries continue until employees are expected to begin receiving post-employment benefits; 2) closure of the plan for existing as well as any new employees; 3) all current employees will receive the post-employment benefits.

Also included in the retirement benefits liability are the unpaid benefits of separated employees for service rendered prior to August 24, 2009 Stay Order in 2009 of which the Company may put on hold as per Rehab Court's order (see Note 1). Retirement benefits liability attributable to separated employees were computed considering accrual of 6% annual legal interest and are discounted to get the present value as of the ending period of the report.

At the reporting date, the Company measured its retirement benefits liability under defined benefit plans at the net total of its retirement benefits obligation minus fair value of plan assets. The Company recognizes the net change in the retirement benefits liability as the retirement benefits costs for the years ended June 30, 2011, 2010 and 2009.

Retirement benefits costs amounted to ₱4,107,453 in 2011 and ₱281,169 and ₱2,879,107 income in 2010 and 2009, respectively. Retirement benefits liability amounted to ₱71,731,920 and ₱67,624,467 as at June 30, 2011 and 2010, respectively. Further details about the assumptions used are provided in Note 15.

4.02.06 Assessment of Realizability of Deferred Income Tax Assets

The Company reviews the carrying amounts of deferred income taxes assets at each end of the reporting period and reduces deferred income tax assets to the extent that it is no longer probable that sufficient future taxable income will be available to allow all or part of the deferred income tax assets to be utilized. Accordingly, the Company did not recognize deferred tax assets in respect of deductible temporary differences and unused tax losses. As at June 30, 2011 and 2010, unrecognized deferred income tax assets amounted to ₱530,220,816 and ₱523,271,785, respectively, as the Company believes that the carry forward benefit would not be realized in the future prior to their expiration (see Note 21).

4.02.07 Estimation of Provisions and Contingencies on Legal Proceedings

The Company is currently involved in various legal proceedings which are pending resolution in view of the Company's ongoing corporate rehabilitation. The estimate of the probable costs for the resolution of these claims has been developed in consultation with in-house and outside counsels handling the Company's defense in these matters and is based upon an analysis of potential results. The Company's management and legal counsels have made judgment that, while the proceedings are legally defensible, they cannot anticipate with certainty the progress and the outcome of the legal proceedings, the appreciation of the available evidences by the relevant courts or tribunal involved and the evolution of jurisprudence or similar cases that will be decided by the highest court, which will be relevant to these pending cases. The Company currently assessed that these proceedings will not have a material adverse effect on its financial position. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings. No provisions were made in relation to these ongoing legal proceedings (see Note 23).

4.02.08 Estimation of Accrued Interest Based on Court-Approved Rehab Plan

The Company determines the accrued interest based on the outstanding balances of its unpaid obligations to all claimants listed in the Rehab Plan. These obligations are subject to 6% legal interest in accordance with the court-approved Rehab Plan (see Note 2). The management believes that the accrued interest recognized by the Company is reasonable and appropriate following the interpretation of the court-approved Rehab Plan.

As at June 30, 2011 and 2010, accrued interest on these obligations amounted to ₱7,127,764 and nil, respectively. Interest expense recognized in 2011 and 2010 amounted to ₱7,127,764 and nil, respectively (see Note 13).

As at June 30, 2011 and 2010, the Company has fully depreciated assets still used in operations amounting to ₱21,393,978 and ₱21,213,705, respectively.

In 2010, the Company sold at an auction some equipment and facilities that are fully impaired and written off in the books amounting to ₱14,271,023, as presented in the statement of loss.

9. INVESTMENT PROPERTIES AT COST

The Company's investment properties consist of lands in various locations in NCR, and Regions 3 and 4 amounted to ₱235,794,708. Some of these lands are rented out for a fee to third parties for one (1) to five (5) years lease term and are renewable subject to mutual consent of both parties, while others are held for capital appreciation.

The Company assessed that the highest and best use of the parcels of land are for commercial use. Based on the appraisals made in July 7, 2017, July 18, 2017 and October 15, 2017 covering valuation date as at June 30, 2017, the fair value of the investment properties is determined using the sales comparison approach amounted to ₱351,319,500. This is a comparative approach to value that considers the sales of similar or substitute properties and related market data and establishes a value estimate by processes involving comparison.

Due to circumstances disclosed in Note 2, the fair value of the investment properties cannot be measured reliably on a continuing basis prior to above mentioned dates where appraisals were made by independent valuer. Also, there were no alternative reliable measurements of fair value available as of end of reporting period.

In 2011, 2010, and 2009, the Company recognized rental income from these investment properties amounting to ₱4,786,471, ₱2,157,357 and nil, respectively (see Note 22).

Long-outstanding trade receivables represent due from customers related to the LEC business (landline-based telephone and long-distance service) of the Company. These long-outstanding receivables are not expected to be received anytime within the 12-month succeeding period and are fully provided with allowance for doubtful accounts amounting to ₱1,381,525,501 as at June 30, 2011 and 2010.

Plant supplies pertain to telephone assets which are fully provided with allowance for impairment losses amounting to ₱63,913,307 as at June 30, 2011 and 2010.

Escrow fund pertains to the account established by the Company with a local bank as its escrow agent for the benefit of all its creditors.

On October 27, 2010, the escrow fund was released to the Company in exchange for the Deed of Release and Quit Claim, thus, on November 2, 2010, the Company was able to settle with the SSS the outstanding delinquent contributions under the latter's condonation program, amounting to ₱32,466,271 (see Note 12).

Refundable security deposits represent deposits on various space rental for central office equipment and telecommunication nodes.

AFS investments pertain to shares of a listed telecommunications entity.

Movement of AFS investment account are as follows:

	2011	2010
Balances at beginning of year	410,400	409,545
Unrealized valuation gain (loss) for the year	(15,048)	855
Balances at end of year	395,352	410,400

The cumulative net unrealized valuation loss on changes in fair values of AFS investments account is recognized under "Unrealized valuation gain (loss) on AFS investments" account which is a separate component under the equity section in the statements of financial position.

Movements of unrealized valuation gain (losses) on AFS financial assets follows:

	2011	2010
Balances at beginning of year	(88,920)	(89,775)
Changes in fair value of AFS financial assets	(15,048)	855
Balances at end of year	(103,968)	(88,920)

In 2011, 2010, and 2009, the Company recognized dividend income pertaining to the AFS financial assets amounting to ₱32,319, ₱37,962 and ₱37,278, respectively.

There was no movement in allowance for doubtful accounts and impairment losses in 2011 and 2010.

11. TRADE AND OTHER PAYABLES

Others	1,562,319	154,257
	111,009,930	109,551,722

Trade payables are non-interest bearing and are settled on a 30 to 120 days' term. Included in the trade payables are suppliers' credits under corporate rehabilitation amounting to ₱15,726,642 as at June 30, 2011 and 2010.

Customers' deposits pertain to 2 months advance and 1 month deposit of internet broadband monthly subscription fee from customers. These customers' deposits are refundable and/or to be applied to unpaid receivables of the customers.

Other payables represent advance rental payments from lessees. These are refundable and/or to be applied to unpaid rent of the lessees upon expiration and/or termination of the lease.

12. STATUTORY OBLIGATIONS

The statutory obligations consist of liabilities to the Philippine government agencies and labor-related liabilities summarized as follows:

	2011	2010
<i>Covered by Corporate Rehabilitation (Note 2)</i>		
Labor-related	185,749,667	185,749,667

	20,254,010	18,844,183
	496,704,025	527,760,469

Labor-related

This pertains to unpaid salaries and wages of employees, and National Labor Relation Commission (NLRC) fees. NLRC, as arbiter, is handling labor-related cases against the Company. Some of these cases are already carried up to the courts (see Note 23).

BIR

This includes liabilities with BIR for the various unpaid taxes such as output VAT, expanded and compensation withholding tax, overseas communication tax, and final taxes payable.

NTC

This pertains to unpaid Supervision and Regulation Fees (SRF) and Spectrum User Fees. SRF is billed for the LEC operations of the Company. On August 3, 2008, the Company has ceased its LEC operations along with its domestic long distance toll telephone services in Rizal and Laguna, but continue to function offering VAS for internet connectivity for its internet subscribers, and NTC was formally informed of the cessation of these services (see Notes 1 and 24). The Company's management believes that NTC should not continue charging SRF from August 3, 2008 and onwards.

SSS

This pertains to unremitted employer and employee contributions, and employee loans. On September 3, 2010, the Rehab Court ordered Philippine National Bank Trust Banking Group (PNB-TBG), as escrow agent under Escrow Agreement entered into by the Company and PNB-TBG on June 2, 1999, to release the escrow fund to pay obligations to SSS under the condonation program in RA No. 9903 and SSS Circular No. 2010-2005 (see Notes 1 and 2). In November 2010, the Company paid ₱32,466,271 out of the escrow fund (see Note 10).

HDMF and PHIC

These pertain to unremitted employer and employees' contributions.

NHFMC

This pertains to unremitted employees housing loan deducted from their salaries.

Other government agencies

These include liabilities with SEC for the unpaid filing fees, Department of Public Works & Highways for the excavation fees, Department of Environment and Natural Resources for area clearing permits, and City Treasurer of various municipalities for the real property tax.

Statutory obligations outside corporate rehabilitation are current obligations which are incurred after the Rehab Plan was filed with the Rehab Court. These obligations are paid on a regular basis as part of its normal business operations on a 5 to 30 days' term.

13. ACCRUED INTERESTS, EXPENSES AND OTHER LIABILITIES

	2011	2010
Accrued interests	7,127,764	—
Accrued expenses	59,047,468	46,492,414
	66,175,232	46,492,414

Pursuant to the order of the Rehab Court to pay 6% legal interest from the approval of the Rehab Plan until full payment of the obligation (see Note 2). Interest expense amounted to ₱7,127,764 in 2011 and nil in 2010 and 2009, respectively.

Accrued expenses pertain to utilities, professional fees and outside services which were incurred subsequent to the approval of the Rehab Plan.

14. DEPOSIT FOR SUBSCRIPTION IN ACCORDANCE WITH THE COURT-APPROVED REHABILITATION PLAN

As discussed in Note 2 in the financial statements, the Rehab Court has ordered the Company the full conversion of all outstanding liabilities into 12-year serial redeemable preferred shares except for statutory obligations, financing and advances from owners and certain liabilities in the nature of suppliers' credits, under respective classifications as shown below:

Type of redeemable serial preferred shares	Type of obligation
Series "A"	Secured obligations
Series "B"	Unsecured obligations
Series "C"	Obligations to affiliated companies

The Company sent confirmation letters to all claimants concerned that the principal amount of their debts/liabilities have been fully converted to equity, by way of 12-year serial redeemable preferred shares and that the corresponding amount of ₱8,841,736,581 of which balance of ₱130,000,000 pertains to the subscribed common shares of RETELCOM previously lodged under paid up capital, was lodged in the Company's books as "Deposit for subscription". No oppositions were made by the creditors except as discussed in Note 1.

On October 9, 2018, the Company has filed with the SEC the increase in authorized capital stock of which the SEC approved on October 31, 2018, pending issuance of Series "A", Series "B" and Series "C" Preferred Shares and the implementation of the Company's debt-to-equity conversion as ordered by the Rehab Court amounting to ₱8,711,736,581. The Company has yet to issue the share certificates to the creditors (see Notes 1 and 16).

15. RETIREMENT BENEFITS LIABILITY

The Company has a noncontributory defined benefit plan covering all regular and permanent employees. Benefits are based on the employee's final plan salary and at least 10 years of service ranging from 12.5% to 130%. Currently, the Company has no plan asset established for the funding of the retirement benefits liability.

The Company recognized estimated retirement benefits liability required under R.A. No. 7641 for its qualified employees. The retirement benefits costs accrued is based on the number of years in service and the current monthly salary rate of qualified employees. Because of impracticality of measuring retirement obligations under defined benefit plan using the projected unit credit method, the Company elected to measure its retirement benefits liability using the following assumptions:

- 1) current salaries continue until current employees are expected to begin receiving post-employment benefits;
- 2) closure of the plan for existing as well as any new employees;
- 3) all current employees will receive the post-employment benefits.

At the reporting date, the Company measured its retirement benefits liability under defined benefit plans at the net total of its defined benefit obligation minus fair value of plan assets. The Company recognizes the net change in the retirement benefits liability as the retirement benefits costs for the years ended June 30, 2011 and 2010.

The following tables summarize the retirement benefits liability recognized in the statements of financial position and the components of retirement benefits costs recognized in the statements of loss for the retirement plan:

Retirement benefits costs (income) recognized in the statements of loss:

	Note	2011	2010	2009
Current service cost (income)	20	4,107,453	(281,169)	(2,879,107)

Retirement benefits costs attributable to key management personnel amounted to ₱740,055 and ₱740,053, in 2011 and 2010, respectively (see Note 18).

Changes in the present value of the retirement benefits liability are as follows:

	Note	2011	2010
Retirement benefits liability at beginning of year		67,624,467	67,905,636
Current service cost (income)	20	4,107,453	(281,169)
Retirement benefits liability at end of year		71,731,920	67,624,467

In 2009, the Company applied for corporate rehabilitation which was later approved in April 1, 2011 by the Rehab Court. As per Rehab Court's order, the Company may put on hold the benefits of separated employees for service rendered prior to August 24, 2009 Stay Order (see Note 1).

As at June 30, 2011 and 2010, the Company has retirement benefits liability attributable to separated employees amounting to ₱3,751,141 and nil, respectively.

The average duration of retirement benefits liability as at June 30, 2011 and 2010 are 20 years and 17 years, respectively, covering 53 and 75 employees, respectively.

23. LEGAL CONTINGENCIES

The Company is a party to various legal cases and assessments which are pending in courts or are under protest. The Company's management and the Company's legal counsels, both in-house and external, strongly believe that the liabilities, if any, that may result from the final outcome of these cases and assessments will not materially affect the Company's financial position and results of operations. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these cases and assessments. The disclosure of additional details beyond the present disclosures may seriously prejudice the Company's position and negotiation strategies with respect to these matters. Thus, as allowed by PAS 37, only a general description is provided.

24. SEGMENT REPORTING

The Company has only one operating segment which is the broadband internet access services which include, among others: (a) fiber optic dedicated, e-line or shared broadband; (b) wireless dedicated or shared broadband; (c) very small aperture terminal; and (d) gateway peering. Revenues derived from these services consists of fixed monthly subscription rate plus installation charges and other one-time fees associated with the customer service.

The Company's LEC business which represent landline-based telephone and long distance (incoming and outgoing domestic and international calls) service already ceased operations in 2008 (see Notes 1 and 12). All assets related to this segment are either fully provided with allowance for impairment losses or written off.

The Company monitors the operating results based on earnings before interest, taxes and depreciation and amortization (EBITDA).

The Company's EBITDA in 2011, 2010, and 2009 are as follows:

	2011	2010	2009

25. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

25.01 General Risk Management Principles

The Company's principal financial instruments comprise of cash, receivables, due to/from related parties and trade and other payables. The main purpose of these financial instruments is to finance the Company's operations. The Company has various other financial instruments such as refundable security deposits, AFS investments, accrued expenses and other liabilities, which arise directly from its operations.

The main risks arising from the Company's financial instruments are credit risk and liquidity risk. The BOD reviews and approves policies for managing each of these risks.

The following table summarizes the carrying amount of financial assets and liabilities recorded by category:

	2011	2010
Financial assets:		
Cash	675,265	2,044,227
Receivables – net	1,931,450	1,772,843

*Excluding non-refundable deposits and advance rentals of ₱1,562,315 and ₱185,264 as at June 30, 2011 and 2010, respectively.

25.02 Credit and Counterparty Risk

Credit risk is the risk that a counterparty will not meet its obligation under a financial instrument leading to a financial loss. The Company is exposed to credit risk from its operating activities, primarily receivables.

Concentration of credit risk relating to customer receivables is limited due to the large number of customers.

The Company trade only with recognized and creditworthy third parties. It is the Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an on-going basis to reduce the Company's exposure to bad debts.

The Company aims to minimize the credit risk of liquid assets and non-current financial assets. Credit limit are set based on each counterparty's size and risk of default. The methodology used to set the credit limit considers the counterparty's credit ratings and default probabilities. Counterparties are monitored regularly, taking into consideration the evolution of the above parameters. The Company's credit quality review process allows it to assess the potential loss as a result of the risks to which it is exposed and allow it to take corrective actions. As a result of this review, changes on credit limits and risk allocation are carried out.

The Company's policies regarding obtaining collateral have not significantly changed during the reporting period and there has been no significant change in the overall quality of the collateral held by the Company during the year. The Company have not identified significant risk concentrations arising from the nature, type or location of collateral and other credit enhancements held against the Company's credit exposures.

The maximum exposure to credit risk resulting from financial activities, without considering netting agreements and without taking into account any collateral held or other credit enhancements, is equal to the carrying amount of the Company's financial assets.

Credit risk arising from the inability of a counterparty to meet the terms of the Company's financial instruments is generally limited to the amount, if any, by which the counterparty's obligations exceed the obligation of the Company.

25.02.01 Credit Quality of Financial Assets

The following tables provide the credit information and maximum exposure of the Company's financial assets as at June 30, 2011 and 2010:

High grade cash in banks and working capital cash fund placed, invested, or deposited in foreign and local banks belonging to the top ten (10) banks in the Philippines in terms of resources and profitability. Other high grade accounts are accounts considered to be high value. The counterparties have a very remote likelihood of default and have consistently exhibited good paying habits.

Standard grade accounts are active accounts with minimal to regular instances of payment default, due to ordinary/common collection issues. These accounts are typically not impaired as the counterparties generally respond to credit actions and update their payments accordingly.

Substandard grade accounts are accounts which have a probability of impairment based on historical trend. These accounts show propensity to default in payment despite regular follow-up and extended payment terms.

25.03 Liquidity Risk

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of availments and extensions of advances to and from related parties. The contractual maturity of the Company's trade and nontrade payables is generally within 30 to 90 days after the recognition of the liability.

The tables below summarize the maturity profile of the Company's liabilities as at June 30, 2011 and 2010 based on contractual undiscounted repayment obligations. The table also analyses the maturity profile of the Company's financial assets in order to provide a complete view of the Company's contractual commitments. The analysis into relevant maturity groupings is based on the remaining period at the end of the reporting period to the contractual maturity dates.

*Excluding non-refundable deposits and advance rentals of P1,562,315 and P185,264 as at June 30, 2011 and 2010, respectively.

The Company has no financial liabilities measured at fair value as at June 30, 2011 and 2010. There are no transfers between fair value measurements in 2011 and 2010.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate on such date:

Cash, Receivables and Trade and Other Payables

The carrying values of these financial assets and liabilities approximate their fair values due to the relatively short-term maturities of these financial assets and liabilities.

Refundable Security Deposits

The difference between the fair value of refundable security deposit and its carrying amount is insignificant thus this is carried at its carrying amount.

AFS Investments

The fair values of quoted AFS investments is determined by reference to quoted market bid prices at the close of business on the reporting date.
