## PART I - BUSINESS AND GENERAL INFORMATION

### Item 1. Business

#### Description of Business

#### Business Development During the Past Three Fiscal Years (2017-2019)

Centro Escolar University (CEU), an institution of higher learning established in 1907 by Librada Avelino and Carmen de Luna, is committed to the furtherance of its founders' philosophy, Ciencia y Virtud (knowledge and virtue), and aims to cultivate the mind, the spirit, and the body for service to God, country and the family. It has ranked among the top ten institutions of higher education in the Philippines.

In pursuit of this philosophy, it seeks to educate students:

1. To develop wholesome values and attitudes;
2. To become intellectually, technologically, and globally proficient in their chosen professions; and
3. To be involved in the promotion of nationalism.

CEU, a stock corporation, was first incorporated in 1932 to exist for 50 years, or until 1982. On March 31, 1982 the corporate life was extended for another 12 years to last until 1994. On March 31, 1994, the Articles of Incorporation was amended extending the life of CEU for another 50 years.

There was no bankruptcy, receivership or similar proceeding that happened to the corporation.

Stock split was approved by SEC on March 31, 2000, effectively reducing the par value from ₱100 to ₱1 per share. PSE correspondingly adjusted the par value on August 3, 2000.

## **School Year 2016-2017**

### **Student Enrolment**

The University had an enrolment of 17,532 for the first semester and 16,632 for the second semester of school year 2016-2017. The total enrolment for the three campuses for both the first and second semester decreased by 20.51% and 20.77%, respectively compared to that of SY 2015-2016. The total first year (freshmen, transferees) enrolment decreased by 91.18% as compared to the enrolment of the previous school year due to the K-12 transition.

### **Foreign Student Enrolment**

Foreign student enrolment for SY 2016-2017 stood at 500 and 461 for the first and second semesters, respectively. A decrease of 23.08% for the first and 19.97% for the second semester was noted compared to the enrolment of the previous school year. The programs where most of the foreign students enrolled are in Dentistry and Graduate School.

### **Performance in Board Examination**

The sterling performance of Centro Escolar University graduates in the licensure examinations given by the Professional Regulation Commission (PRC) defines CEU's pursuit of academic excellence and conviction to continually raise up its academic programs to the standards of the world's best.

Escolarians dominated the Optometry Board Examination with six graduates in the top 10 in the July 2016 licensure examination. Meanwhile, the School of Dentistry proved its superiority as the school produced three top placers (1<sup>st</sup>, 2<sup>nd</sup>, 6<sup>th</sup>) in the June 2016 board examination and another two from CEU Makati in the December 2016 licensure examination.

Another accolade to CEU was brought by the School of Pharmacy graduates grabbing the sixth place in the June 2016 Pharmacy board examination. On the other hand, CEU Malolos ranked 5<sup>th</sup> in the September Licensure Examination for Teachers.

In February 2017 Medical Technology licensure examination, one of their graduates ranked 9<sup>th</sup>.

The passing percentage of CEU graduates was higher than the national passing percentage in almost all licensure examinations taken by the graduates in the previous year. Programs such as the Nutrition-Dietitian, Library Science, Elementary Education as well as Dentistry in the practical phase of the licensure examination posted a remarkable 100% passing rate.

The brilliant performance of CEU graduates is a testament to the University's quest for academic excellence and quality education. Along with exceptional ratings, CEU provides a training ground for its students to become globally competent imbued with character and wit.

### Accreditation and Recognition

In its mission to provide quality education, Centro Escolar University Nursing and Social Work programs were granted Level III accreditation status from 2017-2021 by the Philippine Accrediting Association of Schools, Colleges and Universities (PAASCU) and certified by the Federation of Accrediting Agencies of the Philippines (FAAP) last December 2016.

Centro Escolar University Accountancy program was granted Level 1 formal accreditation status by the Philippine Association of Colleges and Universities Commission on Accreditation (PACUCOA) last October 2016. The accredited program was also endorsed for certification to the Federation of Accrediting Agencies of the Philippines (FAAP).

CEU Malolos embarked on Level II PACUCOA accreditation for the Dentistry, Pharmacy, Nursing, Hotel and Restaurant Management and Tourism programs. Level I accreditation of the Information Technology program, and Preliminary Visit for the Education program.

PACUCOA awards Centro Escolar University for producing graduates who obtained the highest rating (topnotcher) in the Optometrists board examination and the highest rating (topnotcher) in the Dentistry board examination 2016.

The Commission on Higher Education (CHED) granted Centro Escolar University Malolos a three-year autonomous status that runs from April 1, 2016 until May 31, 2019. The Certificate of Autonomous status was awarded to CEU during the CHED awarding ceremony held last May 16, 2016.

Meanwhile, CEU School of Law and Jurisprudence (CEU-SLAJ) received awards during the Legal Education awards in the upcoming Legal Education awards night of the Legal Education Board. CEU-SLAJ is one of the 15 highest ranked Law schools in overall passing rate and one of the 15 highest ranked Law schools in the passing rate for first-time examinees.

The CEU School of Optometry reaped the title as this year's top performing school in the licensure examination with their overall rate of 92.06. School of Medical Technology Manila campus was also named as the 5<sup>th</sup> Top Performing school with a rating of 89.37% rating along with CEU Makati Medical Technology department as the 10<sup>th</sup> place with 80.26% rating in the Medical Technology board examination.

CEU Manila Pharmacy program had its 1<sup>st</sup> re-accreditation visit for Level 4 last January 12-13, 2017.

CEU Makati Pharmacy and Nursing programs were awarded with Level 1 in August and September 2016, respectively by PACUCOA. Meanwhile, its Doctor of Dental Medicine and Information Technology programs were given candidate status for Level I.

Meanwhile, programs of the CEU Graduate School had their preliminary/consultancy visit last September 29-30, 2016 and January 13-14, 2017 for the Pharmacy program.

### International Linkages

In its continues effort to strengthen international ties, Centro Escolar University is now the first Philippine university to have a partnership with the Paradise Suites and the Paradise Hotel and Cruises in Halong Bay, Vietnam. The partnership is under the Student Internship Abroad Program (SIAP) of the Commission on Higher Education (CHED). CEU sent nine Tourism Management students as on-the-job trainees last January 2017.

The School of Nursing sent 6 Level IV Nursing students to Buleleng Institute of Health Sciences, Bali, Indonesia on January 7-21, 2017. This is the second time that the School of Nursing sent students to Indonesia. The students exchange program aims to provide opportunities for the senior nursing students to broaden students experience in giving nursing care in a community setting in another country like Indonesia and apply the concept of transcultural nursing.

CEU School of Nursing in collaboration with Sekolah Tinggi Llumu Kesehatan Buleleng recently conducted a 5-day Diabetes Capability Training in Buleleng Region in Bali, Indonesia. Furthermore, School of Nursing in coordination with the CEU-PACE conducted the 5<sup>th</sup> batch of the four-day training on Stroke Management to 25 Nursing students of Budi Luhur Institute of Health Sciences, Bandung, Indonesia and the members of the Budi Luhur International Network for Education (BIN for Edu).

CEU School of Science and Technology sent three of its incoming senior students for the on-the-job training in Bangkok, Thailand. The three students are required to complete 300 hours of their practicum in the three institutions: North Chiang Mai University, Manose Health and Beauty Research Center, and Bangkok Laboratory and Cosmetic Center, Ltd from April 6 to May 28, 2017. These academic, research and industry partners are generous enough to provide the three Escolarians free accommodation, in addition to the experiential training that will be given to them. Another group of Biology students went to University of Malaya in Kuala Lumpur, Malaysia for their practicum under the tutelage of Dr. Veeranoot Nissappatorn, a long time research collaborator of Dr. Julieta Dungca, Dean of the School of Science and Technology.

Ten students from 4 different schools of CEU Manila joined the Global Exchange Student Internship Program held at Daegu Health College in Daegu, South Korea on January 7-22, 2017. On the other hand, 10 students from Daegu Health College joined the Global Exchange Student Internship Program in CEU last February 12-25, 2017. The said program aims to widen international relationship of the university and provide high quality global training for participating student through hands-on training on the facilities and equipment of different prestigious hotels, hospitals, dental, and optometry clinics in Korea such as Kyungpook National University Medical Center which focuses on diagnosis and treatment of cancer.

### Quality Assurance

The continuous improvement program of CEU includes various programs coordinated by its Quality and Risk Management System Committee. These are Management Review, 7s, Quality Circle, Customer Feedback, and CEU STARS. The majority of CEU work areas in the 3 campuses attained Level 4 compliance in a scale of 5, in each component of the 7s program (Sort, Sweep, Systematize, Standardize, Safety, Security, Self Disciplined). To further improve service to various clientele, Customer Feedback was incorporated in the visitor's form to obtain feedback from external clients and in the CEU Internal Customer Survey Instrument from internal clients/students.

Since the University applied of ISO 9001:2015, an orientation for Data and Document Custodian was conducted last June 17, 22 and 28 for Malolos, Manila and Makati, respectively. To calibrate internal auditors' knowledge, skills and attitude, an Internal Quality Audit orientation and re-orientation was held on July 8, 21 and 22, 2017 for Manila, Malolos and Makati, respectively. The same activity was also held for 7s evaluators on July 6, 2017. Orientation for 7S evaluation was also conducted last October 3, 4 and 7 at CEU Malolos, Makati and Manila, respectively. An orientation for ISO 9001:2015 version, SOWT and Risk Assessment Workshop were also conducted last August 19 and September 9, 2016. Several activities were conducted in preparation for the transition to ISO 9001:2015 version such as the stakeholders needs, SWOT and Risk assessment. Submission of work-area based stakeholders needs, SWOT and risk and communication plan was on October 24, 2016. Alignment workshop was also conducted on February 11, 2017 and was continued on March 8, 2017. The institutional stakeholders needs, SWOT and Risk assessment was held last March 30, 2017 and the cluster was conducted last April 17, 2017.

SGS surveillance visit was conducted on March 15-17, 2017 and the auditors recommended that Centro Escolar University be certified with ISO 9001:2015 standard.

## **School Year 2017-2018**

### **Student Enrolment**

The University registered an enrolment of 12,929 for the first semester and 12,046 for the second semester of school year 2017-2018. The total enrolment for the three campuses for both the First and Second semesters decreased by 26.25% and 27.57%, respectively compared to that of SY 2016-2017. The decrease is due to the implementation of the K-12 wherein, the SY 2017-2018 has no first and second year students.

### Foreign Student Enrolment

Foreign student enrolment for SY 2017-2018 stood at 370 and 315 for the first and second semesters, respectively. A decrease of 26.15% for the First and 31.82% for the second semester was noted compared to the enrolment of the school year 2016-2017. The programs where most of the foreign students enrolled are in Dentistry and Graduate School.

### Performance in Board Examination

Escolarians ruled anew in the 2017 licensure examinations administered by the Professional Regulation Commission. The consistent outstanding performance of the graduates in the PRC exams affirms CEU's determination and commitment to an unrelenting pursuit of its vision to be the University of first choice, as well as indicative of its sincere effort and high intention to provide quality education among its clientele.

For three consecutive times, the CEU School of Dentistry has consistently set an excellent record of producing graduates who obtained the highest rating (topnotcher) in the 2017 Dentistry Licensure Examination. CEU Manila School of Dentistry scored five (5) spots (1<sup>st</sup>, 3<sup>rd</sup>, 4<sup>th</sup>, 5<sup>th</sup>, and 7<sup>th</sup> placers) in the May 2017 Board Exam and 4<sup>th</sup> placer in the December 2017-January 2018 Board Exam.

The CEU Medical Technology of CEU Manila and the Medical Technology program of CEU Makati both reaped the title as this year's two top performing schools in the licensure examination with their overall ratings of 92.06%. School of Medical Technology Manila campus was named as the 5<sup>th</sup> Top Performing School with a rating of 89.37% rating along with CEU Makati Medical Technology Department as the 10<sup>th</sup> place with 80.26% rating in the Medical Technology Board Examination. Furthermore, the School, both in Manila and Makati, was chosen by the Professional Regulation Commission as one of the ten (1) Medical Technology schools in the Philippines, where Philippine registered Medical Technologists can be qualified to attain U.S.D. professional visa. This implies that Medical Technologists from CEU will be allowed by the Hawaii Department of Health to obtain the Hawaii Medical Technologists license though they have not complied with the mandatory one (1) year work in a U.S. clinical laboratory.

CEU Manila graduate of Bachelor of Science in Nursing ranked 10<sup>th</sup> out of 5,875 board passers in the November 2017 Board Examination. A Nursing graduate from the same campus ranked 9<sup>th</sup> in the June 2017 Nursing Board Examination.

The CEU School of Optometry posted an excellent performance grabbing five (3<sup>rd</sup>, 6<sup>th</sup>, 7<sup>th</sup>, 8<sup>th</sup> and 9<sup>th</sup>) of the top ten spots. The passing percentage of CEU graduates of 88.46% was higher than the national passing percentage of 81.66%.

The sterling performance of CEU graduates is an indication of the University's quest for academic excellence and quality education. Along with the exceptional ratings, CEU provides a training ground for its students to become globally competent imbued with character and wit.

### Accreditation and Recognition

CEU's adherence to its quality objectives and principles, as well as its compliance to documentary requirements, urges the academic community to seek for continuous improvement.

For CEU Manila, the University's Business Administration program was granted its Level IV First Reaccreditation status, but still awaiting the results of the first reaccreditation for Level IV of the following programs: Doctor of Dental Medicine and B.S. Nutrition and Dietetics both held on November 8-10, 2017. Furthermore, the B.S. Computer Engineering, B.S. Information Technology, and B.S. Computer Science programs visited last August 8-9, 2017 were likewise granted accreditation status for Level 1.

Centro Escolar University Pharmacy program was granted Level IV Re-accreditation status by the Philippine Association of Colleges and Universities Commission on Accreditation (PACUCOA) as certified by the Federation of Accrediting Agencies of the Philippines (FAAP).

Centro Escolar University continues to build up its status as an institution of higher learning and as the University of first choice by bringing its academic standards on par with internationally recognized accrediting agencies. On January 29-31, 2018, four programs were subjected to AUN-QA accreditation. The university successfully earned the ASEAN University Network-Quality Assurance (AUN-QA) accreditation of Nursing, Nutrition and Dietetics and Optometry programs.

This recognition serves as another testament to the University's commitment to quality and excellence.

### International Linkages

CEU Manila School of Dentistry, is the first dental school peer reviewed by the SEAADE Peer Review Committee which reported areas of "Best Practice Situation". Reports of SEAADE Peer Review Committee on their evaluation of the CEU in their official website. School of Dentistry established a linkage with the International Association for Dental Research-SEA (IADR-SEA) and the China ASEAN Forum on Dentistry (CAFD).

Six senior nursing students of Centro Escolar University joined the 3rd International Student Exchange Program of the School of Nursing with STIKEs Budi Luhur in Cimahi, West Java, Indonesia from November 11 to 26, 2017. As part of their Intensive Nursing Practice, the students performed the complete family nursing process to selected families in Batujajar, Indonesia. They also participated in the International Competition wherein the CEU nursing students achieved several awards including third place in the Talent Competition, second in the CPR/BLS competition, first place in the Health Promotion Competition and first and second place in the Oral Presentation Competition. A cultural presentation capped the two-week student exchange program in Bandung, Indonesia where all participants had the opportunity to showcase their talent and respective national dances.

The Tourism Management Program of the School of Nutrition and Hospitality Management (SNHM) of the University has established International connections with different countries such as United States of America, Malaysia, Thailand and Vietnam, and

CEU has been sending students for their international practicum training in conjunction with its goal of reinforcing the global competency of CEU students. The two of the Paradise group sectors, Paradise Suites and Paradise Hotels and Cruises, warmly received the second batch of interns from CDEU Manila for their on-board training from November 2017 to April 2018. Paradise Suites and Paradise Hotels and Cruises, the most recognized and diverse hospitality groups, expressed continued assistance to CEU students and graduates becoming world-class service providers in the tourism industry.

Six (6) Tourism Management students were accepted by the premier hospitality group in Vietnam, with joint efforts of Paradise Group Vietnam's General Manager Mr. Edgar Cayanan, CEU Tourism Management Coordinator, Ms. Janelle Villamor, and with the recommendation of SNHM Dean, Dr. Cecilia C. Uncad and the University President, Dr. Ma. Cristina D. Padolina. ## **School Year 2018-2019**

### **Student Enrolment**

The University had an enrolment of 12,270 for the first semester and 11,344 for the second semester of school year 2018-2019. The total enrolment for the three campuses for both the first and second semesters decreased by 5.10% and 5.83%, respectively compared to that of SY 2017-2018. The school year 2018-2019 was the start of the regular offering of first year after the K-12 transition.

### **Foreign Student Enrolment**

Foreign student enrolment for SY 2018-2019 was 239 and 214 for the first and second semesters, respectively. A decrease of 35.41% and 32.06% for the first and second semesters, respectively, was noted compared to that of the previous school year. Dentistry and Graduate School are the programs where most of the foreign students enrolled.

## **Performance in Board Examination**

Through the years, CEU graduates have remarkably excelled in the various professional licensure examinations given by the Professional Regulation Commission (PRC).

With an outstanding overall passing rate of 87.23%, CEU was the top 3 performing school for July 2018 Optometry Licensure Examination. CEU Optometry graduates also nailed the top places in the July 2018 board examination as they captured the 2<sup>nd</sup>, 5<sup>th</sup>, and 7<sup>th</sup> places.

CEU's Pharmacy program was listed in the top performing schools with CEU Malolos campus in rank 6 garnering a rating of 88.75%, Makati campus on the 7<sup>th</sup> spot with 87.95%, and Manila campus on the 8<sup>th</sup> place with 83.90%. A Pharmacy graduate from CEU Manila seized the 2<sup>nd</sup> place in the August 2018 board examination.

On March 2019 Medical Technology Licensure Examinations, CEU Manila was the top 7 performing school having 92.31% passing rate while CEU Makati was the top 10 with 80.88% passing percentage.

CEU Malolos Dentistry program has 100 percent passing rate in the board examination both for written and practical for the past four years. CEU-Manila School of Dentistry dominated in the May-June 2018 board examination as it produced the top three placers while CEU Malolos graduate got the 6<sup>th</sup> placer. The university continued its superiority as CEU Manila graduate obtained the 7<sup>th</sup> placer while CEU Makati grabbed the 9<sup>th</sup> placer in December 2018 board examination.

Other programs of CEU that produced topnotch graduates are CEU Makati Nursing program which took the 6<sup>th</sup> and the 8<sup>th</sup> places in the board examination, CEU Manila Guidance and Counseling graduate school at 6<sup>th</sup> place in the Guidance Counseling Licensure Examination, and Bachelor of Elementary Education Specialization Special Education graduate at 9<sup>th</sup> place in the Licensure Examination for Teachers-Elementary Level.

The first timer examinees in almost all the programs in the three campus obtained a higher passing rate than the national passing percentage.

## **Accreditation and Recognition**

CEU prides itself in its continuous efforts to improve its academic programs that have resulted in its reaching another milestone in accreditation history. The CEU Manila graduate school programs Master of Science, Master of Arts, and Master of Business Administration were added to the list of highest level of accreditation, Level IV from the Philippine Association of Colleges and Universities Commission on Accreditation (PACUCOA) as certified by the Federation of Accrediting Association of the Philippines (FAAP).

On the other hand, six (6) undergraduate programs of CEU Manila were reaccredited Level IV by the same accrediting agency: Nutrition and Dietetics, Dentistry, Bachelor of Secondary Education and the Elementary Education, Liberal Arts, and Medical Technology. Computer Science and Computer Engineering currently received Level I

accreditation. Meanwhile, Biology and Psychology programs are awaiting for the results of their 2<sup>nd</sup> reaccredited Level IV and Hotel and Restaurant Management and Tourism Management programs for their Level II visit last September 24-25, 2018

CEU Makati's Hotel and Restaurant Management, Tourism Management, Business Administration, and Computer Science were reaccredited Level II by PACUCOA while Information Technology and Dentistry received Level I accreditation.

Meanwhile, CEU Malolos Bachelor of Elementary Education program was granted Level I accreditation.

The university successfully earned the ASEAN University Network-Quality Assurance (AUN-QA) accreditation of Psychology program based on 15 AUN-QA criteria: expected learning outcomes, program satisfaction, program structure and content, teaching and learning process, student assessment, academic staff quality, support staff quality, student quality, student advice and support, facilities and infrastructure, stakeholders' feedback, output, and stakeholders satisfaction.

This recognition serves as another testament to the University's commitment to quality and excellence.

### **International Linkages**

Determined to bring its academic programs up to international standards and to remain competitive, Centro Escolar University continues to expand its internationalizations thrusts.

For three consecutive years, the School of Science and Technology and the Biological Sciences Department join efforts in sending graduating students for international practicum. This school year 2018-2019, fourteen (14) students participated to complete the third batch for the international practicum held at Walailak University, Nakhon Si Thammarat, Thailand. Students were trained to engage in rigorous research works from sample collection, processing data gathering and analysis up to the writing of report. Their studies focus on waterborne protozoans and soil transmitted helminthes. Students were trained to do systematic review specifically in the area of Biology.

The CEU Manila and Makati School of Nursing sent five (5) graduating students in the 4<sup>th</sup> International Student Exchange Program at Sekolah Tinggi Ilmu Kesehatan Baiturrahim, Jambi, Indonesia last January 9 to 23, 2019. The program aimed to broaden the students' experience in giving nursing care in a community and hospital setting in another country like Indonesia and apply the concept of transcultural nursing. Furthermore, the program provided them excellent opportunity to gain new insights on the educational and health care delivery system of Indonesia.

Two students from CEU-Manila joined the Daegu's Health College's Global Student Leadership Program 2018. The activity provided students the opportunity to undertake a challenging extra-curricular program. The leadership program centered on the theme "Meeting the Global Challenge: Creativity, Profession, and Humanity," that targeted students who were interested to see their personal growth in inclusive environments and how student leadership could impact global issues and global change.

Together with two of the most recognized hospitality management establishments in Vietnam, the School of Nutrition and Hospitality Management of Centro Escolar University keeps up on committing with the standards for global competitiveness. Under the CHED Student Internship Abroad Program (SIAP), the School of NHM remains to be partner with Phu Hai Resort, a four-star hotel in Phan Thiet City and Paradise Suites, Hotels and Cruises and one of the top hospitality management companies in Halong Bay. With the support and approval of dean of the School of NHM and the University President and through the compassion and hard work of the Program Head of Tourism Management, the program provides a wide-range and world-class training that equips students with skills and knowledge as future professionals in the field of hospitality management. SIAP lasts for at least four to five months training for Tourism and HRM students. Furthermore, this international tie-up has given chances to student participants and alumni of CEU to work and be part of these two companies.

### **Quality Assurance**

To leverage the future of the University as the “University of first choice” and to strengthen its pursuit of its vision and mission, the CEU Management Council conducts a yearly review and strategic planning. The activity also serves as a venue for strengthening the working relationship among the different units of the University.

The annual Management Review for the SY 2017-2018 was held on April 24-26, 2018 and aimed to firm up CEU’s strategic directions.. A Midyear Management Review was conducted on December 5, 2018 to review and improve the organizational performance and to apprise opportunities and threats for the next strategic planning. A periodic monitoring of the annual operation plan of the different units was conducted online by the Planning and Monitoring Office. A stakeholders’ needs, and SWOT analysis workshop was held on January 30, 2019. It was followed by the risk assessment on February 14-15, 2019 and a pre-strategic planning on March 18, 2019.

An Internal Quality Audit orientation and re-orientation was held on August 14-16, 2018 to update and calibrate internal auditors’ knowledge, skills and attitude. The same activity was also conducted for the Data and Document Custodian on September 4, 5, and 17 for Makati, Malolos, and Manila respectively. The orientation for the 7S evaluators was conducted on September 17, 19, and 21 for Manila, Malolos, and Makati campuses respectively.

To further improve service to various clientele, Customer Feedback Form (CFF) was incorporated in the visitor’s form to obtain feedback from external clients. Collection and submission of the CFF to the Planning and Monitoring Office is done periodically. On the other hand, the CEU Internal Customer Survey Instrument and Student Personnel Services (SPS) Evaluation from internal clients/students are done annually.

SGS surveillance visit was conducted on May 2-3, 2019 and the auditors recommended that Centro Escolar University be certified with 9001:2015.

Likewise CEU also received special citation from PACUCOA for obtaining the highest rating (topnotcher) in the Dentistry Board Examinations in May-June 2018.

To build further its status as an institution of higher learning, the University continues to bring its academic standards at par with internationally recognized certifying bodies.

CEU successfully earned the AUN-QA Certification for ten programs based on the 11 AUN-QA criteria: expected learning outcomes, program specification, program structure and content, teaching and learning approach, student assessment, academic staff quality, support staff quality, student quality and support, facilities and infrastructure, quality enhancement, output. The programs with AUN-QA certification are BS Biology, BS Hotel and Restaurant Management, BS Pharmacy, BS Tourism Management, Doctor of Dentistry, BS Business Administration, BS Nutrition and Dietetics, BS Nursing and Doctor of Optometry, and BS Psychology.

The University entered into a 25-year lease contract with Philtrust Bank on July 29, 2004. The lease covers the use of Philtrust Bank's land, building and improvements thereon located at 259-263 Sen. Gil Puyat Avenue and Malugay Street, Makati City. The lease commenced on January 1, 2005 for the operation of the CEU-Makati Extension Campus for school year 2005-2006.

CEU complies with environmental laws. Its buildings are inspected regularly by the Office of the Mayor of Manila for sanitation and other safety measures, and the University pays the corresponding regulatory fees.

CEU has 1,051 employees, 553 of whom are faculty members and 395 are non-teaching staff. The University expects to hire approximately 134 additional employees within the ensuing 12 months to accommodate its expansion program. Of the total number of employees, 72 have administrative functions and are not subject to Collective Bargaining Agreement (CBA). The latest CBA expires in 2015. There have been no strikes in the past 3 years. Aside from basic salary and legally mandated benefits and bonuses, CEU employees receive incremental proceeds and retirement benefits under the University's non-contributory retirement plan.

The University is recognized for its specialization in the fields of Dentistry, Medical Technology, Nursing, Education, Optometry, Pharmacy and Business Education.

### **Tuition Fee Increase**

There was a 5% increase in tuition fees and other fees for SY 2016-2017, 2017-2018 and 4.17% in SY 2018-2019.

### **Effect of Government Regulation with Respect to Increase in Tuition Fees**

The Commission on Higher Education (CHED) promulgates guidelines to be followed by Higher Educational Institutions (HEIs) intending to increase their tuition and other fees. The guidelines provide, among others:

“A Certificate of Intended Compliance (COIC) stating that (70%) of the proceeds to be derived from the tuition fee increase shall be used for the payment of the salaries, wages, allowances and other benefits of its teaching and non-teaching personnel and other staff x x x.

“The 20% shall go to the improvement of the following:

1. Modernization of buildings
2. Equipment
3. Libraries
4. Laboratories
5. Gymnasium and similar facilities and
6. Payment of other cost of operations.

“Only 10% is left for return on investment.”

The University has consistently distributed 70% of the increase in tuition fees to its employees on a semestral basis. The 70% increase in tuition fees is distributed in the form of the benefit known as incremental proceeds, employee development programs, and other benefits.

The University regularly spends on capital expenditures to improve its facilities. These expenditures are sourced from internally-generated funds and generally exceed the allotted 20% of the tuition fee increase for the year.

Except for competition from other schools and universities, the rising cost of goods and materials and adverse economic situation which can affect operational costs and enrollment figures, there are no other major risks involved in the business of the University.

## **Item 2. Properties**

CEU's main campus site, which houses 13 buildings, is located on a two-hectare prime real estate in Mendiola, Manila. Its campus in Malolos, Bulacan is located on a seven-hectare property along McArthur Highway.

The properties in Manila campus are covered by TCT Nos. 11919, 69761, 76251, 76252, 76253, 92437, 99602 and 171233. The Malolos property is covered by TCT No. T87162.

The University has no property that is subject to any mortgage, lien or encumbrance.

In connection with the establishment of CEU-Makati Campus, the University has been leasing the Philtrust Bank Building since 2004 for ₱2M fixed rental per month for 25 years plus a percentage of the annual income for its CEU-Makati, Gil Puyat Campus.

Pursuant to the authority granted by the Board of Directors and as part of the University's expansion program for CEU-Makati Campus, the University purchased on July 5, 2006 Seaboard Centre Condominium on Esteban Street, Legaspi Village, Makati City on installment basis through internally generated funds. The CEU-Makati, Legaspi Village Campus is covered by CCT Nos. 99424, 99167, 99410, 99425, 99426, 99427, 99411, 99428, 99429, 99430, 99431, 99432, 99168, 99408, 99169, 99170, 99433, 99434, 99435, 99436, 99437, and 99438.

## **Known Trends**

### **Effect of Government Regulation with Respect to Increase in Tuition Fees**

The Commission on Higher Education (CHED) promulgates guidelines to be followed by Higher Education Institutions (HEIs) intending to increase their tuition and other fees. Notable among them follows:

“A Certificate of Intended Compliance (COIC) stating that (70%) of the proceeds to be derived from the tuition fee increase shall be used for the payment of the salaries, wages, allowances and other benefits of its teaching and non-teaching personnel and other staff xxx.

“The 20% shall go to the improvement of the following:

1. Modernization of buildings
  2. Equipment
  3. Libraries
  4. Laboratories
  5. Gymnasium and similar facilities and
  6. Payment of other cost of operations.
- “Only 10% is left for return on investment.”

## **Education Trends**

For school years 2018-2019 and 2017-2018, the University registered downward trends in enrollment due to K-12 program of the government.

For school year 2016-2017, The University registered upward trends in Dentistry, Pharmacy and Medical Technology while nursing course continued to experience downward enrollment due to lesser demand in the United States and United Kingdom.

## **Key Variable and Other Qualitative and Quantitative Factors**

Currently, there are no known trends, events, or uncertainties that have a material impact on the University’s liquidity.

The Registrant does not know of any event that will trigger any direct or contingent financial obligation that may be material to the company, including default or acceleration of an obligation.

There are no known material off-balance sheet transactions, arrangements, or obligations (including contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during the reporting period.

For school year 2017-2018, there are commitments for capital expenditures such as improvements and renovations of existing laboratories, repairs and repainting of administration offices, improvements and maintenance of information and communications technology and procurement of computer for Computer Education Department and different offices which is being done every year which funding shall be derived from the increase in tuition fees in accordance with the guidelines of the Commission of Higher Education (CHED).

Currently, there are no known trends, events or uncertainties that have material impact on sales, aside from downward enrollment on nursing course, tourism and hotel and restaurant management courses.

All income is derived from the normal course of operations or through interest income on money market placements. There are no significant elements of income or loss.

Material changes from FY 2017 to FY 2018 include a decrease of 11% in total revenues which resulted from the decrease in tuition and other school fees and miscellaneous income of 11% and 5% respectively. For costs and expenses, posted was a 4% decrease in cost of services resulting from decreased cost of laboratory, other student-related services, materials and uniforms. General and administrative expenses increased by 7% due to increases in the repairs and maintenance for Las Piñas and Manila facilities, janitorial and security services, membership dues, clinical and insurance expenses. On other income and expenses, 8% decrease in interest income was reported due to lower placements and lower interest rates. Interest expense posted an increase of 1279% resulting from the payment of interests for two-year tax assessment. There was a decrease of 53% in foreign exchange gains because of lower foreign currency placements, and an increase of 13% in loss on retirement of assets due to the value of condemned furniture and equipment. These material changes resulted to a decrease of 58% in net income after tax.

### **New Accounting Standards**

The University presented its consolidated financial statements to comply with accounting principles generally accepted in the Philippines (Philippine GAAP) as set forth in Philippine Financial Reporting Standards (PFRS). New and revised accounting standards, consisting of Philippine Accounting Standards (PAS) and PFRS became effective for financial reporting purposes.

The consolidated financial statements include the financial statements of the University, Centro Escolar University Hospital, Inc. (the Hospital), a wholly owned subsidiary, and Centro Escolar Integrated School (CE-IS) (collectively referred to as the Group).

The financial statements of the Hospital are prepared for the same reporting year as the University.

Subsidiary is consolidated when control is transferred to the Group and ceases to be consolidated when control is transferred out of the Group. Control is presumed to exist when the University owns more than 50% of the voting power of an entity unless in exceptional cases, it can be clearly demonstrated that such ownership does not constitute control. The consolidated financial statements are prepared using uniform accounting

policies for the like transactions and other events in similar circumstances. All intercompany balances and transactions, intercompany profits and unrealized gains and losses have been eliminated in the consolidation.

#### Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except that the Group has adopted the following new accounting pronouncements starting April 1, 2018. Adoption of these pronouncements did not have any significant impact on the Group's financial position or performance, unless otherwise discussed.

- Amendments to PFRS 2, *Share-based Payment, Classification and Measurement of Share-based Payment Transactions*
- PFRS 9, *Financial Instruments*
- Amendments to PFRS 2, *Share-based Payment, Classification and Measurement of Share based Payment Transactions*

PFRS 9 replaces PAS 39, *Financial Instruments: Recognition and Measurement* for annual periods beginning on or after January 1, 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Group applied PFRS 9 prospectively, with an initial application date of April 1, 2018. The Group did not restate the comparative information which continues to be reported under PAS 39. Differences arising from the adoption of PFRS 9 have been recognized directly in retained earnings and other components of equity.

The effects of adopting PFRS 9 as at April 1, 2018 were as follows:

(a) *Classification and measurement*

Under PFRS 9, debt instruments are subsequently measured at fair value through profit or loss (FVTPL), amortized cost, or FVOCI. The classification is based on two criteria: the Group's business model for managing the assets; and whether the instruments' contractual cash flows represent 'solely payments of principal and interest' on the principal amount outstanding.

The assessment of the Group's business model was made of the date of initial application, April 1, 2018, and then applied prospectively to those financial assets that were not derecognized after April 1, 2018. The assessment of whether contractual cash

- Amendments to PFRS 4, *Applying PFRS 9 Financial Instruments with PFRS 4 Insurance Contracts*
- PFRS 15, *Revenue from Contracts with Customers*

PFRS 15 supersedes PAS 11, *Construction Contracts*, PAS 18, *Revenue*, and related interpretations and it applies, with limited exceptions, to all revenue arising from contracts with its customers. PFRS 15 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

PFRS 15 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires relevant disclosures.

The Group adopted PFRS 15 using the modified retrospective approach with an initial application date of April 1, 2018. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at that date. The Group elected to apply the standard to all contracts as at April 1, 2018.

The cumulative effect of initially applying PFRS 15 is recognized at the date of initial application as an adjustment to the opening balance of retained earnings. Therefore, the comparative information was not restated and continues to be reported under PAS 18 and related interpretations.

The nature of the adjustments as at April 1, 2018 and the reasons for the significant changes in the consolidated statement of financial position as at March 31, 2019 and the consolidated statement of income for the year ended March 31, 2019 are described below:

- (a) Advances received for culminating activities, previously recognized as revenues in line with the completion of the school year, are now recognized as revenue upon transfer of the related services to the customer. These are currently classified as contract liability account under "Accounts payable and other current liabilities". Costs to fulfill the contract, previously recognized as expenses for co-curricular activities under "Cost of services", are now capitalized as Cost to fulfill a contract under "Other current assets" and are recognized as an expense consistent with the transfer of the related services to the customer.
  - (b) Advances received for the publication of yearbooks, previously recognized as revenues in line with the completion of the school year, are now recognized as revenue upon transfer of the related goods to the customer. These are currently classified as contract liability account under "Accounts payable and other current liabilities". Costs to fulfill the contract, previously recognized as expenses for co-curricular activities under "Cost of services", are now capitalized as Cost to fulfill a contract under "Other current assets" and are recognized as an expense consistent with the transfer of the related goods to the customer.
  - (c) The Group receives refundable advanced collections from customers to be applied to the next school year or semester. These are previously presented under accounts payable under "Accounts payable and other current liabilities". Under PFRS 15, the Group reclassified these to contract liability account under "Accounts payable and other current liabilities".
  - (d) Other reclassifications to present items not covered under PFRS 15.
- Amendments to PAS 28, *Investments in Associates and Joint Ventures, Measuring an Associate or Joint Venture at Fair Value* (Part of *Annual Improvements to PFRSs 2014 - 2016 Cycle*)

- Amendments to PAS 40, *Investment Property, Transfers of Investment Property*
- Philippine Interpretation on International Financial Reporting Interpretations Committee (IFRIC) 22, *Foreign Currency Transactions and Advance Consideration*
- In the absence of a principal market, in the most advantageous market for the asset or liability.
- PFRS 9, Financial Instruments

PFRS 9 reflects all phases of the financial instruments project and replaces PAS 39, Financial Instruments: Recognition and Measurement, and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. PFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions. The adoption of PFRS 9 will have an effect on the classification and measurement of the Group's financial assets and impairment methodology for financial assets, but will have no impact on the classification and measurement of the Group's financial liabilities. The Group is currently assessing the impact of adopting this standard.

- PFRS 15, Revenue from Contracts with Customers

PFRS 15 was issued by International Accounting Standards Board in May 2014 and establishes a new five-step model that will apply to revenue arising from contracts with customers. Under PFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in PFRS 15 provide a more structured approach to measuring and recognizing revenue.

The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under PFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018 with early adoption permitted.

The Group is currently assessing the impact of PFRS 15 and plans to adopt the new standard on the required effective date.

- Amendments to PAS 28, Investments in Associates and Joint Ventures, Measuring an Associate or Joint Venture at Fair Value (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)

The amendments clarify that an entity that is a venture capital organization, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at FVPL. The amendments also clarify that if an entity that is not itself an investment entity has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made

separately for each investment entity associate or joint venture, at the later of the date on which (a) the investment entity associate or joint venture is initially recognized; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent. The amendments should be applied retrospectively, with earlier application permitted.

- Amendments to PAS 40, Investment Property, Transfers of Investment Property

The University engaged the services of Sycip Gorres Velayo & Co. (SGV) in SY 2007-2008 to undertake the external quality assessment review of its internal audit activity in compliance with the International Standards for the Professional Practice of Internal Auditing (ISPPA), specifically Standard 1312 – External Assessments. The purpose of said external quality assessment review was to determine and, as appropriate, to improve the internal audit activity's compliance with ISPPA.

SGV completed the external quality assessment review of the University's internal audit activity last January 28, 2008 and rendered the overall opinion that "the internal audit activity of CEU Partially Complies to the Standards. 'Partially Complies' means that the activity is making good-faith efforts to comply with the requirements of the individual Standard or element of the Code of Ethics, section or major category, but falls short of achieving some major objectives. These will usually represent significant opportunities for improvement in effectively applying the Standards or Code of Ethics and/or achieving their objectives. Some deficiencies may be beyond the control of the activity and may result in recommendations to senior management or the board of the organization."

The audit was completed in the last fiscal year and the University is committed to move in the direction of the risk-based auditing process. The plan will be set forth by the University's Quality Management Systems Group along with the Internal Audit Department.

## **Item 7. Financial Statement**

The audited financial statements and supplementary schedules to the financial statements duly submitted to BIR\* are attached as Exhibit 1 hereto.

## **Item 8. Changes in and Disagreements with External Accountants on Accounting and Financial Disclosure**

### **1. External Audit Fees and Services**

#### **Audit Fees and Related Fees**

The appointment of Sycip, Gorres, Velayo and Co. (SGV) as external auditor of the University for the fiscal year ending March 31, 2019 was approved by the stockholders during the annual meeting on July 24, 2018.

In compliance with Securities Regulation Code (SRC) Rule 68, Ms. Djole S. Garcia was designated as partner in-charge in FY 2019 and FY 2018 while Ms. Josephine Adrienne A. Abarca and Mr. Christian Lauron were designated as partner in-charge in FY 2016 to FY 2017 and FY 2014 to FY 2015 respectively. Ms. Janet Alvarado-Paraiso has been the partner in-charge for five years. Her appointment started in 2009.

In 2019 and 2018, the University paid ₱1,056,000 and ₱987,500 respectively, VAT exclusive, to Sycip, Gorres, Velayo and Co. (SGV) for the audit of the University's annual financial statements, as well as assistance in the preparation of the annual income tax returns.

There is no other assurance and related services by the external auditor that are reasonably related to the performance of the audit or review of the University financial statements.

### **Tax Fees**

In 2011, the University paid ₱240,000, VAT exclusive to Sycip, Gorres, Velayo and Co. (SGV) for the performance of a tax compliance review for the fiscal year ended March 31, 2010 covering income tax, expanded withholding tax, fringe benefit tax and withholding tax on wages. The review involved a study of the University's opposition and practices and procedures in relation to specific tax laws, regulations and rulings. The objectives were to determine whether or not the tax position, practices and procedures adopted and maintained are in compliance with the tax laws and regulations; to identify areas where non-compliance are noted and quantify, if possible, the extent of the University's exposure thereon, and to provide recommendations to improve or correct the University's tax practices and procedures in compliance with the tax laws and BIR regulations.

### **Other Fees**

There are no other services provided by the external auditor, other than the services reported.

### **Audit Committee Pre-approval Policy**

CEU's Audit Committee is composed of the Chairman, Dr. Emil Q. Javier, (independent director) and members, Dr. Angel C. Alcala, Dr. Alejandro C. Dizon and Atty. Sergio F. Apostol.

The Audit Committee is required to pre-approve all audit and non-audit services rendered and approve the engagement fees and other compensation to be paid to the external auditor.

The Audit Committee is required to pre-approve all audit and non-audit services rendered and approve the engagement fees and other compensation to be paid to the external auditor.

The Audit Committee found the services and fees for external audit reasonable and approved the same following a conference with the external auditors and the University's financial officers to clarify the scope, extent and details of the audit.

## Changes in and Disagreements with External Accountants on Accounting and Financial Disclosure

There was no change in nor disagreement with External Accountants on accounting and financial disclosures.

for the exclusive purpose of maintaining and operating an extension campus in Makati City, and to conduct therein all such activities necessary to provide adequate educational instruction and other services to its students, including authorized extra-curricular activities.

The consideration for the lease was principally based on the valuation of the property by Asian Appraisal, Inc. and on the financial advisory by Buenaventura, Echaz and Partners. Except for the respective parties' covenants under said lease contract between CEU and Philtrust Bank, there is no further contractual or other commitment resulting from the arrangement that would pose any risk or contingency. There are no other parties involved in this transaction.

The University, in line with its expansion program and for marketing purposes, avails of advertising services of Manila Bulletin Publishing Corporation. The terms of said advertising transactions are based on terms similar to those offered to non-related parties.

For a more detailed discussion on related party transactions, please see Note 21 of the attached Audited Financial Statements for fiscal year ending March 31, 2019.

## **PART IV – CORPORATE GOVERNANCE**

### **Item 13. Corporate Governance**

## INDEPENDENT AUDITOR'S REPORT

The Stockholders and the Board of Directors  
Centro Escolar University  
9 Mendiola Street  
San Miguel, Manila

### Opinion

We have audited the consolidated financial statements of Centro Escolar University (the "University") and its subsidiaries (the "Group"), which comprise the consolidated statements of financial position as at March 31, 2019 and 2018, and the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended March 31, 2019, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2019 and 2018, and their consolidated financial performance and their consolidated cash flows for each of the three years in the period ended March 31, 2019, in accordance with Philippine Financial Reporting Standards (PFRSs).

### Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (the "Code of Ethics") together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Adoption of Expected Credit Loss Model*

On April 1, 2018, the Group adopted PFRS 9, *Financial Instruments*. PFRS 9, which replaced PAS 39, *Financial Instruments: Recognition and Measurement*, introduces a forward-looking expected credit loss (ECL) model to assess impairment on debt financial assets not measured at fair value through profit or loss. The Group adopted the modified retrospective approach in adopting PFRS 9.

The Group's adoption of the ECL model is significant to our audit as it involves the exercise of significant management judgment. Key areas of judgment include: segmenting the Group's credit risk exposures; determining the method to estimate lifetime ECL; defining default; determining assumptions to be used in the ECL model such as the expected life of the financial asset and timing and amount of expected net recoveries from defaulted accounts; and incorporating forward-looking information in calculating ECL.

The application of the ECL model did not result to any transition adjustment.

The disclosures related to the adoption of the expected credit loss model are included in Note 2 to the consolidated financial statements.

### *Audit Response*

We obtained an understanding of the approved methodologies and models used for the Group's different credit exposures and assessed whether these considered the requirements of PFRS 9 to reflect an unbiased and probability-weighted outcome, the time value of money and the best available forward-looking information.

We (a) assessed the Group's segmentation of its credit risk exposures based on homogeneity of credit risk characteristics; (b) checked the methodology used in applying the simplified approach by evaluating the key inputs, assumptions, and formulas used; (c) compared the definition of default against historical analysis of accounts and credit risk management policies and practices in place; (d) tested loss given default by inspecting historical recoveries including the timing, related direct costs, and write-offs; and (e) evaluated the forward-looking information used for overlay through statistical test and corroboration using publicly available information and our understanding of the Group's broader industry knowledge.

Further, we checked the data used in the ECL models, such as the historical analysis of defaults, and recovery data, by reconciling data from source reports to the loss allowance analysis/models and financial reporting systems. To the extent that the loss allowance analysis is based on credit exposures that have been disaggregated into subsets with similar risk characteristics, we traced or re-performed the disaggregation from source reports to the loss allowance analysis.

We recalculated impairment provisions. We checked the disclosures made in the financial statements on allowance for expected credit losses by tracing such disclosures to the ECL analysis prepared by Management.

### ***Adoption of PFRS 15, Revenue from Contracts with Customers***

Effective April 1, 2018, the Group adopted the new revenue recognition standard, PFRS 15, *Revenue from Contracts with Customers*, under the modified retrospective approach. The adoption of PFRS 15 resulted in changes in the Group's revenue recognition policies, processes and procedures.

The adoption of PFRS 15 is significant to our audit because this involves application of significant management judgment and estimation in: determining whether the criteria for the recognition of revenue from tuition fees, other school fees, fees for other school services and miscellaneous fees are met; determining whether there are other promises in the contract that are separate performance obligations; and determining the timing of satisfaction of performance obligation.

The disclosures related to the adoption of PFRS 15 are included in Note 2 to the consolidated financial statements.

### ***Audit Response***

We reviewed the PFRS 15 adoption papers and accounting policies prepared by management which includes analysis of contracts.

We obtained the contracts which are the certificates of matriculation and reviewed whether the accounting policies appropriately considered the five-step model and cost requirements of PFRS 15.

We reviewed sample contracts and checked whether the revenue from tuition fees, other school fees, fees for other school services and miscellaneous fees meet the criteria for recognition as revenue from contracts with customers and whether the performance obligations within the contracts have been identified. We reviewed sample contracts and checked whether the Group's timing of revenue recognition is based on (1) output method over the same period and (2) control of the related goods and services is transferred to the student.

We reviewed the application of the accounting policy in relation to the adoption of the new standard. We also reviewed the disclosures related to the transition based on the requirements of PFRS 15.

### ***Valuation of Land Classified as Property and Equipment and Investment Property***

The Group accounts for its land classified as property and equipment and investment property using the revaluation model and fair value model, respectively. As at March 31, 2019, the carrying value of the Group's land classified as property and equipment and investment property amounted to ₱3,336 million and ₱152 million, respectively, representing 60% and 3%, respectively, of the Group's consolidated total assets. In addition, for the year ended March 31, 2019, the Group recognized a revaluation gain of ₱1,450 million in other comprehensive income and ₱0.77 million fair value losses in profit or loss. The valuation of the land classified as property and equipment and investment property requires the assistance of an external appraiser whose calculations involve certain assumptions, such as sales price of similar properties and adjustments to sales price based on internal and external factors. This matter is significant to our audit because it involves significant judgment and estimates.

Refer to Note 2 to the consolidated financial statements for the relevant accounting policy, Note 3 for the disclosure on the relevant judgment and estimate and Notes 9 and 10 to the consolidated financial statements for the disclosures about the Group's land classified as property and equipment and investment property, respectively.

#### *Audit Response*

We involved our internal specialist in the review of the scope, bases, methodology and results of the work by the Group's external appraiser whose professional qualifications and objectivity were also taken into consideration. We compared the relevant information supporting the sales price of similar properties and the adjustments made to the sales price against real estate industry data and made inquiries to the external appraiser as to the basis. We also reviewed the Group's disclosures with respect to the fair value of the land classified as property and equipment and investment property.

#### ***Impairment Testing of Property and Equipment Valued at Cost***

The Group is adversely affected by the decline in its market capitalization. Since an impairment indicator is identified, an impairment assessment on the Group's property and equipment valued at cost was performed. As at March 31, 2019, the carrying value of the Group's property and equipment valued at cost amounted to ₱1,472 million representing 27% of the Group's consolidated total assets. The assessment of the recoverable amount of the property and equipment valued at cost requires significant judgment and involves estimation and is based on assumptions such as tuition fee rates, number of students and long-term growth rate, as well as discount rate, an external input. Hence, such assessment is a key audit matter in our audit.

Refer to Note 2 to the consolidated financial statements for the relevant accounting policy, Note 3 for the disclosure on the relevant judgment and estimate and Note 9 to the consolidated financial statements for the disclosure about the Group's property and equipment valued at cost.

#### *Audit Response*

We involved our internal specialist in evaluating the methodology and the assumptions used. These assumptions include tuition fee rates, number of students, long-term growth rate and discount rate. We compared the tuition fee rates and number of students against the historical performance of the CGU and other relevant external data. We tested the long-term growth rate and the parameters used in the determination of the discount rate against market data. We also reviewed the Group's disclosures about those assumptions to which the outcome of the impairment test is most sensitive; specifically those that have the most significant effect on the determination of the recoverable amount of property and equipment valued at cost.

#### **Other Information**

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended March 31, 2019, but does not include the consolidated financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended March 31, 2019 are expected to be made available to us after the date of this auditor's report.

- 5 -

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

### **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- 6 -

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Djole S. Garcia.

**CENTRO ESCOLAR UNIVERSITY AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. Corporate Information**

The consolidated financial statements include the financial statements of Centro Escolar University (the “University”) and the following subsidiaries (collectively referred to as the “Group”):

Subsidiary	Percentage of Ownership		
	2019	2018	2017
Centro Escolar University Hospital, Inc. (the “Hospital” or CEUHI)	100.00%	100.00%	100.00%
Centro Escolar Las Piñas, Inc. (CELPI) (formerly Las Piñas College)	99.90%	99.90%	90.00%
Centro Escolar Integrated School, Inc. (CE-IS)	90.00%	90.00%	90.00%

The University, a publicly listed entity, was organized in the Philippines on June 3, 1907 to establish, maintain and operate an educational institution or institutions for the instruction and training of the youth in all branches of the arts and sciences, offering classes in tertiary level. The University renewed its corporate life for another fifty years on March 31, 1994.

In accordance with the Commission on Higher Education (CHED) Memorandum Order No. 32, the University’s Mendiola and Makati campuses were granted autonomous status to be in force and in effect for five years from November 15, 2007 to November 14, 2012 per Resolution Nos. 087-2012 and 148-2012. Private Higher Education Institutions (HEIs) which were granted with autonomous status in 2007 to 2009 and deregulated status in 2009 and 2010 shall retain their respective status until December 31, 2015 by virtue of CHED Memorandum Order No. 21, series of 2015. On May 16, 2016, the CHED extended the autonomous status of these two campuses until May 31, 2019.

The University’s Malolos campus was granted autonomous status for a period of five years effective from November 15, 2009 to November 14, 2014 per Resolution Nos. 087-2012 and 148-2012. Such autonomous status was extended until December 31, 2015 by virtue of CHED Memorandum Order No. 21, series of 2015. On May 16, 2016, the CHED extended the autonomous status of the University’s Malolos campus until May 31, 2019.

Under this autonomous status, the University is free from monitoring and evaluation of activities of the CHED and has the privilege to determine and prescribe curricular programs, among other benefits, as listed in the memorandum order. The three general criteria used by the CHED for the selection and identification of institutions which shall receive autonomous status are as follows:

- a. Institutions established as centers of excellence or centers of development and/or with Federation of Accrediting Agencies of the Philippines Level III Accredited programs;
- b. With outstanding overall performance of graduates in the government licensure examinations; and
- c. With long tradition of integrity and untarnished reputation.

The registered principal office of the University is at 9 Mendiola Street, San Miguel, Manila.

The University incorporated the Hospital on June 10, 2008. The primary purpose of the Hospital is to establish, maintain and operate a hospital, medical and clinical laboratories and such other facilities that shall provide healthcare or any method of treatment for illnesses or abnormal

physical or mental health in accordance with advancements in modern medicine and to provide education and training facilities in the furtherance of the health-related professions. The registered principal office of the Hospital is at 103 Esteban corner Legaspi Streets, Legaspi Village, Makati City. In January 2016, the Hospital entered into an agreement with Hemotek Renal Center (Hemotek), a dialysis clinic, for the former to provide laboratory examinations to Hemotek patients. As at March 31, 2019, the Hospital is operating eight Renal Centers, two of which are operated by the Hospital starting the second quarter of the current fiscal year.

CE-IS was incorporated on July 24, 2013 and is a learning institution which offers pre-school, primary and secondary education. The principal place of business of CE-IS is located at Km 44 MacArthur Highway, Longos, Malolos City.

CELPI was incorporated on June 1, 1975 and is primarily engaged as an educational institution offering a full range of programs from Kindergarten to Graduate school. On November 29, 2016, the Securities and Exchange Commission (SEC) certified and approved the filing of the amended Articles of Incorporation. One of the significant amendments to the Articles of Incorporation was the change in the corporate name to Centro Escolar Las Piñas, Inc. as approved by its Board of Directors (BOD) and stockholders on April 29, 2016. The principal place of business of CELPI is located at Dr. Faustino Uy Avenue, Pillar Village, Las Piñas City.

The consolidated financial statements were approved and authorized for issuance by the University's BOD on June 28, 2019.

## 2. Summary of Significant Accounting and Financial Reporting Policies

### Basis of Preparation

The consolidated financial statements have been prepared on a historical cost basis, except for land classified under 'Property and equipment' which is measured at revalued amount, and financial assets at fair value through other comprehensive income (FVOCI) and equity investments included under 'Other noncurrent assets' and investment property which are measured at fair value.

The consolidated financial statements are presented in Philippine Peso (₱ or Peso), which is also the Group's functional currency. All values are rounded to the nearest Peso, unless otherwise stated.

### Statement of Compliance

The consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs).

### Presentation of Consolidated Financial Statements

The Group presents its assets and liabilities in the consolidated statement of financial position based on current/noncurrent classification.

An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in the normal operating cycle;
- Held primarily for trading;
- Expected to be realized within 12 months after the statement of financial position date; or
- Cash or cash equivalent, unless restricted from being exchanged or used to settle a liability for at least 12 months after the statement of financial position date.

All other assets are classified as noncurrent.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for trading;
- It is due to be settled within 12 months after the statement of financial position date; or
- There is no unconditional right to defer the settlement of the liability for at least 12 months after the statement of financial position date.

All other liabilities are classified as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent.

#### Basis of Consolidation

The consolidated financial statements comprise the financial statements of the University and its subsidiaries. Control is achieved when the University is exposed, or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the University controls an investee if, and only if, the University has:

- Power over the investee (that is, existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the University has less than a majority of the voting or similar rights of an investee, the University considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee,
- Rights arising from other contractual arrangements, and
- The University's voting rights and potential voting rights.

The University reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the University obtains control over the subsidiary and ceases when the University loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the University gains control until the date the University ceases to control the subsidiary.

When necessary, adjustments are made to the financial statements of subsidiaries to align their accounting policies with the University's accounting policies. All intra-group assets, liabilities, equity, income, expenses and cash flows relating to transactions between entities in the Group are eliminated in full on consolidation.

The financial statements of the subsidiaries were prepared for the same reporting years as the Group, except for CE-IS which was presented as at and for the years ended March 31, 2019 and 2018, using consistent accounting principles and policies.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. In such circumstances, the carrying amount of the controlling and non-controlling interests are adjusted by the Group to reflect the changes in its relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the University.

When a change in ownership interest in a subsidiary occurs, which results in loss of control over the subsidiary, the University:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- Derecognizes the carrying amount of any non-controlling interests;
- Derecognizes the cumulative translation differences recorded in equity;
- Derecognizes the other comprehensive income (OCI) and recycle the same to the profit or loss to retained earnings;
- Recognizes the fair value of the consideration received;
- Recognizes the fair value of any investment retained; and
- Recognizes any surplus or deficit in the consolidated statement of income.

#### Non-controlling Interests

Non-controlling interests represent the portion of profit or loss and the net assets not held by the University and are presented separately in the consolidated statement of income, consolidated statement of comprehensive income and within equity in the consolidated statement of financial position, separately from equity attributable to the equity holders of the University. Any losses applicable to the non-controlling interests are allocated against the interests of the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

#### Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except that the Group has adopted the following new accounting pronouncements starting April 1, 2018. Adoption of these pronouncements did not have any significant impact on the Group's financial position or performance, unless otherwise discussed.

- Amendments to PFRS 2, *Share-based Payment, Classification and Measurement of Share-based Payment Transactions*
- PFRS 9, *Financial Instruments*

PFRS 9 replaces PAS 39, *Financial Instruments: Recognition and Measurement* for annual periods beginning on or after January 1, 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Group applied PFRS 9 prospectively, with an initial application date of April 1, 2018. The Group did not restate the comparative information which continues to be reported under PAS 39. Differences arising from the adoption of PFRS 9 have been recognized directly in retained earnings and other components of equity.

The effects of adopting PFRS 9 as at April 1, 2018 were as follows:

##### *(a) Classification and measurement*

Under PFRS 9, debt instruments are subsequently measured at fair value through profit or loss (FVTPL), amortized cost, or FVOCI. The classification is based on two criteria: the Group's business model for managing the assets; and whether the instruments' contractual cash flows represent 'solely payments of principal and interest' on the principal amount outstanding.

The assessment of the Group's business model was made as of the date of initial application, April 1, 2018, and then applied prospectively to those financial assets that were not derecognized after April 1, 2018. The assessment of whether contractual cash

flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

The following are the changes in the classification of the Group's financial assets:

- Cash in banks and short-term deposits, tuition and other receivables (excluding accrued rent receivables), and refundable security deposits previously classified as *Loans and receivables* as of March 31, 2018 are held to collect contractual cash flows and give rise to cash flows representing 'solely payments of principal and interest' (SPPI). These are now classified and measured as *debt instruments at amortized cost* beginning April 1, 2018. There are no changes in the measurement of these financial assets which are carried at amortized cost.
- Equity investments in listed and non-listed companies classified as *available-for-sale (AFS) investments* as at March 31, 2018 are classified and measured as *Equity instruments designated at FVOCI* beginning April 1, 2018. The Group elected to classify irrevocably its investments in quoted and unquoted equity securities under this category at the date of initial application as it intends to hold these investments for the foreseeable future.

As a result of the change in classification of the Group's unquoted equity investments, the revaluation reserve on AFS investments amounting to ₱100,298 as of March 31, 2018 was reclassified to revaluation reserve on financial assets at FVOCI as at April 1, 2018. In addition, decrease in fair value of AFS investments amounting to ₱406,317 was recognized as at April 1, 2018.

The Group has not designated any financial assets or liabilities as at fair value through profit or loss. There are no changes in classification and measurement for the Group's financial liabilities.

In summary, upon the adoption of PFRS 9, the Group had the following required or elected reclassifications as at April 1, 2018.

	Total	PFRS 9 measurement category	
		Amortized cost	Fair value through other comprehensive income
<b>PAS 39 measurement category</b>			
<b><i>Loans and receivables</i></b>			
Cash in banks and short-term deposits	₱289,845,769	₱289,845,769	₱-
Tuition and other receivables	119,765,090	119,765,090	-
Refundable security deposits	1,012,012	1,012,012	-
<b><i>AFS investments*</i></b>	512,157	-	105,840
	<b>₱411,135,028</b>	<b>₱410,622,871</b>	<b>₱105,840</b>

\*The change in the carrying amount is a result of additional revaluation reserve. See discussion on measurement above.

(b) *Impairment*

The adoption of PFRS 9 has fundamentally changed the Group's accounting for impairment losses for financial assets by replacing PAS 39's incurred loss approach with a forward-looking ECL approach. PFRS 9 requires the Group to recognize an allowance for ECLs for all debt instruments not held at FVTPL.

Adoption of PFRS 9 has no significant impact on the allowance for impairment of the Group as at April 1, 2018.

(c) *Hedging*

The Group has no existing hedging transactions. Thus, the adoption of the new standards relating to hedging does not have impact to the Group.

- Amendments to PFRS 4, *Applying PFRS 9 Financial Instruments with PFRS 4 Insurance Contracts*
- PFRS 15, *Revenue from Contracts with Customers*

PFRS 15 supersedes PAS 11, *Construction Contracts*, PAS 18, *Revenue*, and related interpretations and it applies, with limited exceptions, to all revenue arising from contracts with its customers. PFRS 15 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

PFRS 15 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires relevant disclosures.

The Group adopted PFRS 15 using the modified retrospective approach with an initial application date of April 1, 2018. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at that date. The Group elected to apply the standard to all contracts as at April 1, 2018.

The cumulative effect of initially applying PFRS 15 is recognized at the date of initial application as an adjustment to the opening balance of retained earnings. Therefore, the comparative information was not restated and continues to be reported under PAS 18 and related interpretations.

The effect of adopting PFRS 15 as at April 1, 2018 was, as follows:

	<b>Reference</b>	<b>Increase (Decrease)</b>

Set out below are the amounts by which each consolidated financial statement line item is affected as at and for the year ended March 31, 2019 as a result of adoption of PFRS 15. The adoption of PFRS 15 did not have material impact on OCI or the operating, investing and financing cash flows. The first column shows amounts prepared under PFRS 15 and the second column shows the amounts that would have been had PFRS 15 not been adopted:

The nature of the adjustments as at April 1, 2018 and the reasons for the significant changes in the consolidated statement of financial position as at March 31, 2019 and the consolidated statement of income for the year ended March 31, 2019 are described below:

- (a) Advances received for culminating activities, previously recognized as revenues in line with the completion of the school year, are now recognized as revenue upon transfer of the related services to the customer. These are currently classified as contract liability account under “Accounts payable and other current liabilities”. Costs to fulfill the contract, previously recognized as expenses for co-curricular activities under “Cost of services”, are now capitalized as Cost to fulfill a contract under “Other current assets” and are recognized as an expense consistent with the transfer of the related services to the customer.
  - (b) Advances received for the publication of yearbooks, previously recognized as revenues in line with the completion of the school year, are now recognized as revenue upon transfer of the related goods to the customer. These are currently classified as contract liability account under “Accounts payable and other current liabilities”. Costs to fulfill the contract, previously recognized as expenses for co-curricular activities under “Cost of services”, are now capitalized as Cost to fulfill a contract under “Other current assets” and are recognized as an expense consistent with the transfer of the related goods to the customer.
  - (c) The Group receives refundable advanced collections from customers to be applied to the next school year or semester. These are previously presented under accounts payable under “Accounts payable and other current liabilities”. Under PFRS 15, the Group reclassified these to contract liability account under “Accounts payable and other current liabilities”.
  - (d) Other reclassifications to present items not covered under PFRS 15.
- Amendments to PAS 28, *Investments in Associates and Joint Ventures, Measuring an Associate or Joint Venture at Fair Value* (Part of *Annual Improvements to PFRSs 2014 - 2016 Cycle*)
  - Amendments to PAS 40, *Investment Property, Transfers of Investment Property*
  - Philippine Interpretation on International Financial Reporting Interpretations Committee (IFRIC) 22, *Foreign Currency Transactions and Advance Consideration*

#### Foreign Currency Translation

Transactions denominated in foreign currencies are recorded in Peso based on the exchange rates prevailing at the transaction dates. Foreign currency-denominated monetary assets and liabilities are translated in Peso based on the Bankers’ Association of the Philippines and Philippine Dealing System closing rate prevailing at the reporting date in 2019 and 2018, respectively. Foreign exchange differences between rate at transaction date and rate at settlement date or reporting date of foreign currency-denominated monetary assets or liabilities are credited to or charged against profit or loss in the period in which the rates changed. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

#### Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of reporting date.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks and the level within the fair value hierarchy as explained above (see Note 24).

#### Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from dates of placements and are subject to insignificant risks of changes in value. Cash and cash equivalents are carried at face value in the consolidated statement of financial position.

#### Financial Instruments (Effective April 1, 2018)

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### Financial assets

##### *Initial recognition and measurement*

Financial assets are classified, at initial recognition, and subsequently measured at amortized cost, FVOCI and FVTPL.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain significant financing component or for which

the Group has applied the practical expedient, the Group initially measures a financial asset at fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or which the Group has applied the practical expedient are measured at transaction price determined under PFRS 15.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are SPPI on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

#### *Subsequent measurement*

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at FVOCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets at FVOCI for equity instruments without recycling
- Financial assets at FVTPL

#### *Financial assets at amortized cost (debt instruments)*

This category is most relevant to the Group. The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are closely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in the profit or loss when the asset is derecognized, modified or impaired.

As of March 31, 2019, the Group's financial assets at amortized cost includes cash in banks and short-term deposits, tuition and other receivables (excluding accrued rent receivables) and refundable security deposits.

#### *Financial assets at FVOCI (equity instruments)*

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at FVOCI when they meet the definition of equity under PAS 32, *Financial instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as income in the consolidated statements of income when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVOCI are not subject to impairment assessment.

The Group elected to classify irrevocably its investments in quoted and unquoted equity instruments under this category.

#### *Derecognition*

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### *Impairment of financial assets*

The Group recognizes an allowance for ECLs for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of timing of the default (a lifetime ECL).

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to debtors and the economic environment.

Primary drivers like macroeconomic indicators of qualitative factors such as forward looking data on inflation rate, unemployment rate and consumer price index were added to the ECL calculation to reach a forecast supported by both quantitative and qualitative data points.

The Group considers a financial asset in default when contractual payments are past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual cash flows in full before considering any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

#### Financial liabilities

##### *Initial recognition and measurement*

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings, other financial liabilities carried at amortized cost, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include accounts payable and other current liabilities (excluding contract liabilities and statutory payables) and dividends payable.

##### *Subsequent measurement*

###### *Loans and borrowings*

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in profit or loss.

This category generally applies to interest bearing loans and borrowings.

###### *Other financial liabilities carried at amortized cost*

These are issued financial instruments or their components, which are not designated as at FVTPL and where the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of its own equity shares. The components of issued financial instruments that contain both liability and equity elements are accounted for separately, with the equity component being assigned the residual amount after deducting from the instrument as a whole the amount separately determined as the fair value of the liability component on the date of issue.

After initial measurement, financial liabilities not qualified and not designated as at FVTPL are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issuance and fees that are an integral part of the effective interest rate.

This accounting policy applies primarily to the Group's accounts payable and other current liabilities (excluding contract liabilities and statutory payables) and dividends payable.

##### *Derecognition*

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same

lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in profit or loss.

#### *Offsetting of financial instruments*

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

#### Financial Instruments (Effective before April 1, 2018)

##### *Date of recognition*

The Group recognizes financial instruments when, and only when, it becomes a party to the contractual terms of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date. Settlement date accounting refers to:

- a. The recognition of an asset on the day it is received by the Group; and
- b. The derecognition of an asset and recognition of any gain or loss on disposal on the day that such asset is delivered by the Group.

##### *Initial recognition*

All financial instruments are initially measured at fair value. Transaction costs are included in the initial measurement of all financial assets and liabilities, except for financial instruments which are classified at fair value at profit or loss (FVPL). The Group classifies its financial assets in the following categories: financial assets at FVPL, held-to-maturity (HTM) investments, AFS investments, and loans and receivables. Financial liabilities are classified as financial liabilities at FVPL and other financial liabilities carried at amortized cost. The classification depends on the purpose for which the financial instruments are acquired and whether they are quoted in an active market, and for HTM financial assets, the ability and intention to hold the investment until maturity. Management determines the classification of its financial instruments at initial recognition and, where allowed and appropriate, re-evaluates such designation at every statement of financial position date.

As at March 31, 2018, the Group has no financial asset or liability at FVPL and HTM investments.

##### *'Day 1' difference*

Where the transaction price in a non-active market is different with the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from an observable market, the Group recognizes the difference between the transaction price and fair value ('Day 1' difference) in the profit or loss. In cases where the transaction price used is made of data which is not observable, the difference between the transaction price and model value is only recognized in the profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the 'Day 1' difference amount.

##### *Loans and receivables*

These are non-derivative financial assets with fixed or determinable payments and fixed maturities that are not quoted in an active market other than those:

- That the Group intends to sell immediately or in the near term and those that the Group, upon initial recognition, designates as at FVPL;
- That the Group, upon initial recognition, designates as AFS; and
- For which the Group may not cover substantially all of its investments, other than because of credit deterioration.

After initial measurement, loans and receivables are subsequently measured at amortized cost using the effective interest method, less allowance for doubtful accounts. Amortization is determined using the effective interest method and is included under “Interest income” in the consolidated statement of income. Losses arising from impairment are recognized in “Provision for credit losses” under “General and administrative expenses” in the consolidated statement of income.

As at March 31, 2018, the Group’s loans and receivables include cash in banks and short-term deposits, tuition and other receivables (excluding accrued rent receivables) and refundable security deposits.

#### *AFS investments*

AFS investments are those which are designated as such or do not qualify to be classified as financial assets at FVPL, HTM investments or loans and receivables. These are purchased and held indefinitely, and may be sold in response to liquidity requirement or changes in market conditions.

After initial measurement, AFS investments are subsequently measured at fair value. The unrealized gains and losses arising from the fair valuation of AFS investments are recognized, net of tax, in the consolidated statement of comprehensive income as “Change in revaluation reserve on available-for-sale investments.”

When the fair value of AFS investments cannot be measured reliably because of lack of reliable estimates of future cash flows and discount rates necessary to calculate the fair value of unquoted AFS investments, these investments are carried at cost, less any allowance for impairment losses. When the security is disposed of, the cumulative gain or loss previously recognized in equity is recognized in “Others” under “Miscellaneous income” in the consolidated statement of income. Where the Group holds more than one investment in the same security, these are deemed to be disposed of on a weighted average basis.

Dividends earned on holding AFS investments are recognized in “Others” under “Miscellaneous income” in the consolidated statement of income when the right of the payment has been established. Losses arising from impairment of such investments are recognized as “Provision for credit losses” under “General and administrative expenses” in the consolidated statement of income.

The Group’s AFS investments pertain to quoted and unquoted equity investments.

#### *Other financial liabilities carried at amortized cost*

These are issued financial instruments or their components, which are not designated as at FVPL and where the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of its own equity shares. The components of issued financial instruments that contain both liability and equity elements are accounted for separately, with the equity component being assigned the residual amount after deducting from the instrument as a whole the amount separately determined as the fair value of the liability component on the date of issue.

After initial measurement, financial liabilities not qualified and not designated as at FVPL are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issuance and fees that are an integral part of the effective interest rate (EIR).

As at March 31, 2018, other financial liabilities carried at amortized cost include accounts payable and other current liabilities (excluding statutory payables) and dividends payable.

#### *Impairment of Financial Assets*

The Group assesses, at each reporting date, whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the borrower or the group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

#### *Loans and receivables*

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on loans and receivables has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognized in the consolidated statement of income.

Loans and receivables, together with the associated allowance, are written off when there is no realistic prospect of future recovery. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in the consolidated statement of income, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date. If a write-off is later recovered, the recovery is credited to "Others" under "Miscellaneous income" in the consolidated statement of income.

The Group impairs its receivables through the use of an allowance account.

#### *AFS investments*

In the case of equity investments classified as AFS investments, objective evidence of impairment would include a significant or prolonged decline in the fair value of the investments below its cost. Where there is evidence of impairment, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in profit or loss - is removed from equity and recognized in the consolidated statement of income. Impairment losses on equity investments are not reversed through the consolidated statement of income. Increases in fair value after impairment are recognized directly in the consolidated statement of comprehensive income.

### *Derecognition of Financial Instruments*

#### *Financial assets*

A financial asset (or, when applicable, a part of a financial asset or part of a group of financial assets) is derecognized (that is, removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired;
- The Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- The Group has transferred its rights to receive cash flows from the asset; and either:
  - a. The Group has transferred substantially all the risks and rewards of the asset; or
  - b. The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### *Financial liabilities*

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statement of income.

### *Offsetting of Financial Instruments*

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if, and only if, there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the assets and settle the liability simultaneously. The Group assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Group and all of the counterparties.

### Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). NRV is the estimated selling price in the ordinary course of business, less marketing and distribution costs. The cost includes the invoice amount, freight in and other incidental costs and is determined using the first-in, first-out method.

### Property and Equipment

Property and equipment, except for land, is carried at cost, less accumulated depreciation and amortization and accumulated allowance for impairment losses. The initial cost of property and

equipment comprises its purchase price, including import duties, taxes and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

Land is carried at revalued amount. Valuations are performed with sufficient regularity to ensure that the fair value of a revalued asset does not differ materially from its carrying amount.

Any revaluation surplus, net of tax effect, is presented in OCI, except to the extent that it reverses a revaluation decrease of the same asset previously recognized in the consolidated statement of income, in which case, the increase is recognized in the consolidated statement of income. A revaluation decrease is recognized in the consolidated statement of income, except to the extent that it offsets an existing surplus on the same asset presented in OCI. Upon disposal, any revaluation surplus, net of tax effect, relating to the land being sold is transferred to retained earnings.

Construction in progress, included in property and equipment, is stated at cost.

Expenditures incurred after the property and equipment have been put into operations, such as repairs and maintenance and overhaul costs, are normally charged against the consolidated statement of income in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment.

The useful life and depreciation and amortization method are reviewed at least every reporting date and adjusted prospectively, if appropriate.

Depreciation of property and equipment is computed on a straight-line basis over the following estimated useful lives of the assets:

	Number of Years
Land Improvements	10
Building	50
Furniture and Equipment	5
Library Books	10
Leasehold Improvements	10 or lease term whichever is shorter

Construction in progress is not depreciated until such time that the relevant assets are completed and become available for intended use.

Fully depreciated property and equipment are retained in the accounts until these are no longer used and no further depreciation and amortization is charged to the consolidated statement of income.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from the derecognition of the asset by sale (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) and by write off, is recognized under "Miscellaneous income" and "Loss on retirement/disposal of assets," respectively, in the consolidated statement of income in the year the asset is derecognized.

### Investment Property

Investment property is measured initially at cost, including transaction costs. An investment property acquired through an exchange transaction is measured at fair value of the asset acquired, unless the fair value of such an asset cannot be measured, in which case, the investment properties acquired are measured at the carrying amount of the asset given up. Expenditures incurred after the investment properties have been put into operations, such as repairs and maintenance costs, are normally charged to the consolidated statement of income in the year in which the costs are incurred.

The investment property of the Group comprise of land being leased to a third party.

Subsequent to initial recognition, land is stated at fair value, which reflects the prevailing market conditions at the end of reporting period. Gains and losses from changes in the fair value of the land are recognized in the consolidated statement of income under “Fair value gain (loss) from investment property.”

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the cost and the carrying amount of the property transferred do not change. If an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the accounting policy on property and equipment up to the date of change in use.

Investment property is derecognized when it has either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal.

### Business Combinations and Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer elects whether to measure the non-controlling interest in the acquiree at fair value or at the proportionate share in the recognized amounts of the acquiree’s identifiable net assets. Acquisition-related costs incurred are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and financial liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognized in the consolidated statement of income.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognized in accordance with PAS 39 in the consolidated statement of income. If the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

When the seller agrees to contractually indemnify the acquirer for the outcome of a contingency or uncertainty related to a specific asset or liability, the acquirer recognizes an indemnification asset with an equivalent amount deducted from the consideration transferred for the business combination. Indemnification asset recognized at the acquisition date continues to be measured on the same basis as the related indemnified item subject to collectability and contractual terms

until the asset is collected, sold, cancelled or expires in the post-combination period. The Group measures the indemnification asset on the same basis as the related item, subject to any restrictions in the contractual terms.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in the consolidated statement of income.

After initial recognition, goodwill is measured at cost, less any accumulated impairment losses. For purposes of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating unit (CGU), or group of CGU's, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Each unit or group of units to which the goodwill is allocated should:

- Represent the lowest level within the Group at which the goodwill is monitored for internal management purposes; and
- Not be larger than an operating segment determined in accordance with PFRS 8.

When goodwill has been allocated to a CGU and part of the operation within that unit is disposed of, the goodwill allocated with disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation.

#### Impairment of Nonfinancial Assets

An assessment is made at each reporting date whether there is any indication of impairment of nonfinancial assets, or whether there is any indication that an impairment loss previously recognized for an asset in prior years may no longer exist or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. An asset's recoverable amount is calculated at the higher of the asset's or CGU's value-in-use or its fair value less cost to sell. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case, the recoverable amount is assessed as part of the CGU to which it belongs.

In assessing value-in-use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or CGU). In determining fair value less cost to sell, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

An impairment loss is recognized only if the carrying amount of an asset (or CGU) exceeds its recoverable amount. An impairment loss is charged against the consolidated statement of income in the period in which it arises, unless the asset (or CGU) is carried at a revalued amount, in which case, the impairment loss is charged against the revaluation increment of the said asset (or CGU).

A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount of an asset (or CGU), but not to an amount

higher than the carrying amount that would have been determined (net of any depreciation and amortization) had no impairment loss been recognized for the asset (or CGU) in prior years. A reversal of an impairment loss is credited to current consolidated statement of income, unless the asset (or CGU) is carried at revalued amount, in which case, the reversal of the impairment loss is credited to the revaluation increment of the said asset (or CGU).

The following criteria are also applied in assessing impairment of specific assets:

*Property and equipment*

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. If any such indication exists and when the carrying values exceed the estimated recoverable amounts, the assets or CGUs are written down to their recoverable amounts.

*Goodwill*

Goodwill is reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of the CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or group of CGUs) to which goodwill has been allocated, an impairment loss is recognized immediately in the consolidated statement of income. Impairment losses relating to goodwill cannot be reversed for subsequent increases in its recoverable amount in future periods.

Other Assets

*Advances to suppliers*

Advances to suppliers, included under “Other current assets”, represent amounts paid to suppliers for purchases not yet received as at the reporting date. This is subsequently reversed to an expense account when the goods or services are received.

*Advances to contractors*

Advances to contractors, included under “Other noncurrent assets”, represent amounts paid to contractors for purchases not yet received as at the reporting date. This is subsequently reversed to an asset account when the goods or services are received.

*Prepayments*

Prepayments, included under “Other current assets”, are initially measured at the amounts paid and subsequently recognized as expense over the period in which the prepayments apply.

*Software costs*

Software cost includes all software which are currently use by the Group which is carried at cost, less accumulated amortization and accumulated allowance for impairment losses.

*Cost to fulfill the contract (Effective April 1, 2018)*

Cost to fulfill the contract, included under “Other current assets”, are initially measured at amounts paid and subsequently recognized as expense upon performance of the related services to the students. The Group amortizes capitalized cost to fulfill a contract to expenses for co-curricular activities under “Cost of services”.

### Equity

Capital stock is measured at par value for all shares issued. When the University issues more than one class of stock, a separate account is maintained for each class of stock and the number of shares issued.

When the shares are sold at a premium, the difference between the proceeds and the par value is credited to “Additional paid-in capital.” When shares are issued for a consideration other than cash, the proceeds are measured by the fair value of the consideration received.

Retained earnings represent accumulated earnings of the Group less dividends declared.

### Revenue from Contracts with Customers (Effective April 1, 2018)

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods, excluding the related taxes. The Group assesses its revenue arrangement against specific criteria in order to determine if it is acting as principal or agent. The Group has concluded that it is acting as principal in its all of its revenue arrangements.

#### *Tuition and other school fees, excluding income from other school services*

Tuition and other school fees, excluding income from other school services, are recognized over time as revenue over the corresponding school term using output method (i.e., time lapsed over the service period such as semester or school year, depending on the curriculum registered). Upon enrollment, students have the option to pay the tuition and other school fees in full or in installment.

#### *Income from other school services and miscellaneous income*

Income from other school services and miscellaneous income are recognized at a point in time upon delivery of the promised goods to the customer or when services have been rendered.

#### *Contract Balances*

##### *Receivables*

A receivable represents the Group’s right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

##### *Contract liability*

A contract liability is the obligation to transfer goods to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs the obligations under the contract. The Group’s contract liabilities represent payable to students and advance collections for culminating and yearbook fees presented under “Accounts payable and other current liabilities” and will be recognized as revenue when the related services are rendered. Payable to students are advanced collections from students to be applied to the next school year or semester.

### Other Revenues (Effective April 1, 2018)

#### *Interest income*

Interest income is recognized as the interest accrues taking into account the effective yield on the asset.

*Rental income*

Rental income arising from leased properties is accounted for on a straight-line basis over the lease terms.

*Donation income*

Donation income is recognized as revenue when the right to receive, whether in money or in kind, is established.

*Dividend income*

Dividend income is recognized when the right to receive the payment is established.

Revenue Recognition (Effective before April 1, 2018)

Revenue is recognized when it is probable that future economic benefits will flow to the Group and these benefits can be measured reliably. Revenue is measured at the fair value of consideration received. The following specific recognition criteria must also be met before revenue is recognized:

*Tuition and other school fees, excluding income from other school services and rental income*

Tuition and other school fees, excluding income from other school services, and rental income are recognized as income when earned on a straight-line basis over the corresponding school term.

*Interest income*

Revenue is recognized as the interest accrues taking into account the effective yield on the asset.

*Income from other school services and miscellaneous income*

Revenue is recognized when services are rendered or goods are delivered.

*Rental income*

Rental income arising from leased properties is accounted for on a straight-line basis over the lease terms and is recorded in the consolidated statement of income under "Miscellaneous income."

Expense Recognition

Expenses are recognized in the consolidated statement of income when a decrease in future economic benefits related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably.

Expenses are recognized in the consolidated statement of income:

- On the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association can only be broadly or indirectly determined; or
- Immediately when an expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify or cease to qualify, for recognition in the consolidated statement of financial position as an asset.

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

### Retirement Benefits

The Group operates a defined benefit retirement plan which requires contribution to be made to a separately administered fund.

The cost of providing benefits under the defined benefit retirement plan is actuarially determined using the projected unit credit method.

Retirement expense comprises the following:

- Service cost; and
- Net interest on the retirement liability.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the consolidated statement of income. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by the independent qualified actuary.

Net interest on the retirement liability is the change during the period in the retirement liability that arises from the passage of time which is determined by applying the discount rate based on government bonds to the retirement liability. Net interest on the retirement liability is recognized as an expense or income in the consolidated statement of income.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on the retirement liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to the consolidated statement of income in subsequent periods.

The retirement liability is the aggregate of the present value of defined benefit obligation at the reporting date reduced by the fair value of plan assets, adjusted for any effect of limiting a net retirement asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. The fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

### Income Taxes

Income tax on income or loss for the year comprises current and deferred tax. Income tax is determined in accordance with Philippine tax laws. Income tax is recognized in the consolidated statement of income, except to the extent that it relates to items recognized directly in equity, in which case, the tax effect is recognized in the consolidated statement of comprehensive income.

#### *Current tax*

Current tax assets and current tax liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at the statement of financial position date.

### *Deferred tax*

Deferred tax is provided or recognized, using the liability method, for all temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the statement of financial position date.

Deferred tax assets are recognized for all deductible temporary differences and unused net operating loss carryover (NOLCO). Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and NOLCO can be utilized, except:

- a. When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- b. In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profits will be available to allow all or part of the deferred tax assets to be utilized.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- a. When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- b. In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same tax authority.

### Leases

The determination of whether an arrangement is, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

A reassessment is made after inception of the lease only if one of the following applies:

- a. There is a change in contractual terms, other than a renewal or extension of the arrangement;
- b. A renewal option is exercised or extension granted, unless the term of the renewal or extension was initially included in the lease term;
- c. There is a change in the determination of whether fulfillment is dependent on a specified asset; or
- d. There is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment for scenarios a, c or d, and at the date of renewal or extension period for scenario b.

#### *Group as lessor*

Leases where the Group does not transfer all the risks and benefits of ownership of the assets are classified as operating leases. Initial direct costs incurred in negotiating operating leases are added to the carrying amount of the leased asset and are recognized over the lease term on the same basis as the rental income. Operating lease payments are recognized in the consolidated statement of income. Any rental payments are accounted for on a straight-line basis over the lease term and included under 'Miscellaneous income' in the consolidated statement of income. Contingent rentals are recognized as revenue in the period in which they are earned.

#### *Group as lessee*

Leases where the lessor retains substantially all the risks and benefits of ownership of the assets are classified as operating leases. Operating lease payments are recognized as "Rental" under "Cost of services" in the consolidated statement of income on a straight-line basis over the lease term. Contingent rental payable is recognized as expense in the period in which it is incurred.

#### Segment Reporting

The Group's operating businesses are organized and managed separately according to the geographic locations, designated as the Group's campuses, with each segment representing a strategic business unit that offers varying courses depending on demands of the market. Financial information on business segments is presented in Note 20.

#### Basic and Diluted Earnings Per Share (EPS)

Basic EPS amounts are calculated by dividing net income by the weighted average number of ordinary shares outstanding during the year.

Diluted EPS is calculated by dividing net income attributable to common shareholders by the weighted average number of common shares outstanding during the year adjusted for the effects of any dilutive potential common shares.

#### Provisions

A provision is recognized only when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and, a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

#### Contingencies

Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements when an inflow of economic benefits is probable. Contingent liabilities are not recognized in the consolidated financial statements but these are disclosed in the notes to consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote.

#### Events after the Statement of Financial Position Date

Post year-end events up to the date of approval of the BOD of the consolidated financial statements that provide additional information about the Group's position reporting date (adjusting events) are reflected in the consolidated financial statements, if any. Post year-end events that are not adjusting events are disclosed in the notes to consolidated financial statements when material.

---

### 3. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements in compliance with PFRS requires management to make judgments and estimates that affect the amounts reported in the consolidated financial statements and accompanying notes. Future events may occur which can cause the assumptions used in arriving at those estimates to change. The effects of any changes in estimates will be reflected in the consolidated financial statements as they become reasonably determinable.

Judgments and estimates are continuously evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

#### Judgments

In the process of applying the Group's accounting policies, management has made the judgments below apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements:

#### *Recognition of tuition and other fees over time*

The Group determined that tuition and other fees, the major source of revenue of the Group, are to be recognized over time using the output method on the basis of time lapsed over the service period since it provides a faithful depiction of the Group's performance in transferring control of the services to the students. The fact that another entity would not need to re-perform the service that the Group has provided to date demonstrates that the customer or the student simultaneously receives and consumed the benefits of the Groups' performance as it is performed.

#### *Operating leases*

- Group as lessor

The University has entered into commercial property leases on its Mendiola, Malolos, Makati and Las Piñas campuses. The University has determined, based on an evaluation of the terms and conditions of the arrangements (that is, the lease does not transfer ownership of the asset to the lessee by the end of the lease term, the lessee has no option to purchase the asset at a price that is expected to be sufficiently lower than the fair value at the date the option is exercisable, and the lease term is not for the major part of the asset's economic life), that it retains all the significant risks and rewards of ownership of these properties. Thus, the leases are classified as operating leases.

- Group as lessee

The University has entered into a lease on premises it uses for its Makati-Buendia campus. The University has determined, based on an evaluation of the terms and conditions of the arrangement (that is, the lease does not transfer ownership of the asset to the lessee by the end of the lease term, the lessee has no option to purchase the asset at a price that is expected to be sufficiently lower than the fair value at the date the option is exercisable, and the lease term is not for the major part of the asset's economic life), that not all significant risks and rewards of ownership of the properties have been transferred to the University. Thus, the lease is classified as operating lease (see Note 19).

#### Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

*Estimation of allowance for expected credit losses (Effective April 1, 2018)*

The Group uses a provision matrix to calculate ECLs for receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by customer type and rating).

The provision matrix is initially based on the Group's historical observed default rates. The Group calibrates the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecasted economic conditions are expected to deteriorate over the next year which can lead to an increased number of defaults, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in forward-looking estimates are analyzed.

The assessment of the correlation between historically observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of the customer's actual default in the future.

The carrying values of tuition and other receivables and allowance for doubtful accounts as at March 31, 2019 are disclosed in Note 6.

*Estimation of allowance for doubtful accounts (Effective before April 1, 2018)*

The University determines the allowance for doubtful accounts on a portfolio basis by applying a loss rate determined based on a five-year average of historical losses. The determination of the loss rate involves management judgment, and the estimated losses could be significantly different from actual credit losses.

The carrying values of tuition and other receivables and allowance for doubtful accounts as at March 31, 2018 are disclosed in Note 6.

*Determination of NRV of inventories*

The University's estimates of the NRV of inventories are based on the most reliable evidence available at the time the estimates are made and the amount at which the inventories are expected to be realized. These estimates consider the fluctuations of price or cost directly relating to events occurring after the end of the period to the extent that such events confirm conditions existing at the reporting date. A new assessment is made of NRV in each subsequent period. When the circumstances that previously caused inventories to be written down below cost no longer exist or when there is a clear evidence of an increase in NRV because of changes in economic circumstances, the amount of the write-down is reversed so that the new carrying amount is the lower of the cost and the revised NRV.

No write-down of inventories is recognized for the years ended March 31, 2019 and 2018. The carrying value of inventories of the Group is disclosed in Note 7.

*Estimation of useful lives of property and equipment and software cost*

The useful lives of property and equipment and software cost are estimated based on the period over which these assets are expected to be available for use. The estimated useful lives of property and equipment and software costs are reviewed periodically and are updated if expectations differ from previous estimates due to asset utilization, internal technical evaluation, technological and environmental changes and anticipated use of the assets tempered by related industry benchmark information. It is possible that future financial performance could be materially affected by changes

in these estimates brought about by changes in factors mentioned. Any reduction in the estimated useful lives of the property and equipment and software costs would increase depreciation and amortization expense and decrease noncurrent assets.

The estimated useful lives of property and equipment and software costs are discussed in Note 2 to the consolidated financial statements. There is no change in the estimated useful lives of property and equipment and software costs as of March 31, 2019 and 2018.

The carrying values of depreciable property and equipment (i.e., excluding land and construction in progress) and software costs with definite useful lives are disclosed in Notes 9 and 11.

*Impairment of property and equipment and software costs*

The Group assesses at each reporting date whether there is any indication that its property and equipment and software costs are impaired. Determining the fair value of these noncurrent non-financial assets, which requires the determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets, requires the Group to make estimates and assumptions that can materially affect the consolidated financial statements. Future events could cause management to conclude that these assets are impaired. Any resulting impairment loss could have a material adverse impact on the Group's financial position and financial performance. The preparation of the estimated future cash flows involves significant judgment and estimations. While management believes that the assumptions made are appropriate and reasonable, significant changes in management assumptions may materially affect the assessment of recoverable values and may lead to future additional impairment charges under PFRS.

There is an impairment indicator on the Group's property and equipment as of March 31, 2019 (nil in March 31, 2018). Hence, the Group performed impairment analysis as of March 31, 2019. The Group's value-in-use calculation involves significant management judgment in the use of assumptions, particularly tuition fee rates, number of students, long-term growth rate and discount rate. The carrying values of property and equipment are disclosed in Note 9. There are no impairment indicators on the Group's software costs as of March 31, 2019 and 2018. The carrying values of software costs as of March 31, 2019 and 2018 are disclosed in Note 11.

As at March 31, 2019, the recoverable amount of the CGU has been determined based on the value-in-use calculation using cash flow projections from the five-year strategic plan for the University. Tuition fee rates and number of students assumed to project revenues were based on approved tuition fee increase and the University's historical data and performance. The discount rate used for the computation of the net present value is the cost of the equity and was determined by reference to comparable entities. In 2019, the pre-tax discount rate applied to cash flow projections is 11.14%, while the long-term growth rate to project cash flows beyond the five-year period is nil.

*Impairment of goodwill*

The Group determines whether goodwill is impaired at least on an annual basis. The Group's value-in-use calculation involves significant management judgment in the use of assumptions, particularly the tuition fee rates, number of students, long-term growth rate and the discount rate.

The carrying value of goodwill of the Group is disclosed in Note 4.

*Revaluation of land*

The fair value of the Group's land at revalued amount was based on a third party appraisal with effective date of valuation of March 31, 2019, using sales comparison approach. Key assumptions used by the independent appraiser are disclosed in Note 24.

The revalued amount of land included under "Property and equipment" and "Investment property" in the consolidated statement of financial position is disclosed in Notes 9 and 10, respectively.

*Retirement liability*

The cost of the defined benefit retirement plan and the present value of defined benefit obligation are determined using an actuarial valuation. The actuarial valuation involves making assumptions about employee turnover rates, discount rates, prospective salary increases and mortality rate. Due to the complexity of the actuarial valuation, the underlying assumptions and long-term nature of this plan, such estimates are subject to significant uncertainty. All significant assumptions are reviewed at each reporting date.

The assumed discount rates were determined using the market yields on Philippine government bonds with terms consistent with the expected employee benefit payout as at the reporting date. Future salary increases are assumed for all future years within the duration of the plan and take into account the inflation, seniority, promotion, merit, productivity and other market factors. Employee turnover rates are based on the probability of voluntary separation of service from the University prior to their retirement date.

The present value of defined benefit obligation and details about the significant assumptions used are disclosed in Note 17.

*Recognition of deferred income taxes*

Deferred tax assets are recognized for all deductible temporary differences and unused NOLCO to the extent that it is probable that sufficient future taxable profits will be available against which the deductible temporary differences and unused NOLCO can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The estimates of future taxable income indicate that all temporary differences will be realized in the future.

Unrecognized deferred tax assets of the Group are disclosed in Note 18.

#### **4. Business Combination**

On August 24, 2015, the University entered into an agreement with the previous owners of CELPI (the "Sellers") to purchase their interest in CELPI shares, and real and other properties consisting of parcels of land and buildings and improvements which are owned directly by the Sellers but are used by CELPI.

Accordingly, the University obtained control of CELPI through the execution of the agreements outlined in the next page on September 1, 2015.

	Amount
Deed of Absolute Sale for the purchase of parcels of land, buildings and improvements	₱270,200,000
Deeds of Assignment for the purchase of CELPI shares representing 90% equity interest	3,600,000
	<u>₱273,800,000</u>

It was also agreed that the University will pay the Sellers the amount of ₱7.34 million to liquidate all liabilities of CELPI, including but not limited to, retirement/separation of all CELPI employees. The acquisition provides the University the opportunity to expand its operations in the Southern part of Metro Manila.

The fair values of the identifiable assets and liabilities of CELPI as at the date of acquisition follows:

	Fair value recognized on acquisition
<b>Assets</b>	
Cash	₱108,234
Receivables	10,000
Property and equipment	836,314
Other assets	6,650
	<u>961,198</u>
<b>Liabilities</b>	
Accounts payable and accrued expenses	197,496
Advances from officers	2,870,473
	<u>3,067,969</u>
<b>Net liabilities</b>	<u>(₱2,106,771)</u>

In addition to the above identifiable assets and liabilities, the Group recognized the fair value of real and other properties acquired as a result of the business combination amounting to ₱229.46 million and the related deferred tax asset of ₱4.07 million (see Note 18).

The fair values of land and buildings and improvements as at September 1, 2015 have been determined based on the valuation done by a professionally qualified appraiser accredited by the SEC. The fair values of these assets were derived based on sales comparison approach. Under this approach, the fair value of the land was determined considering sales and listings of comparable property in the same area as the land, also taking into account the economic conditions prevailing at the time the valuation was made. The actual sales and listings regarded as comparable are adjusted to account for differences in a property's location, size and time element. For buildings and improvements, the significant input considered in the valuation is the reproduction cost, which is the estimated cost to create a virtual replica of the existing structure, employing the same design and similar building materials.

The University has elected to measure the non-controlling interest in LPC at their proportionate share of CELPI's net identifiable assets.

Goodwill from the acquisition is computed as follows:

Consideration transferred	₱281,140,000
Fair value of net liabilities assumed	2,106,771
Less:	
Fair value of real and other properties acquired	(229,460,339)
Deferred tax asset on excess of acquisition cost over fair value of real and other properties acquired	(4,073,966)
Indemnification asset	(2,106,771)
Goodwill	₱47,605,695

The goodwill arising from the acquisition can be attributed mainly to expected synergies and increase in geographical presence and customer base.

The Sellers have contractually agreed to indemnify the University for all known liabilities until March 31, 2016, and consequently, the University recognized indemnification asset of ₱2.11 million at acquisition date.

#### Impairment Testing of Goodwill

As at March 31, 2019 and 2018, the carrying amount of goodwill amounted to ₱47.61 million. Management assessed that no impairment losses need to be recognized in 2019 and 2018.

#### *Key assumptions used in the value-in-use calculation*

As at March 31, 2019 and 2018, the recoverable amount of the CGU has been determined based on a value-in-use calculation using cash flow projections from the five-year strategic plan for CELPI. Tuition fee rates and number of students assumed to project revenues were based on externally available industry data and the Group's historical data and performance. The discount rate used for the computation of the net present value is the cost of equity and was determined by reference to comparable entities. In 2019 and 2018, the pre-tax discount rate applied to cash flow projections is 11.14% and 12.32%, respectively, while the long-term growth rate to project cash flows beyond the five-year period is nil for both years.

#### *Sensitivity to changes in assumptions*

Management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the goodwill to materially exceed its recoverable amount.

## 5. Cash and Cash Equivalents

This account consists of:

	2019	2018
Cash on hand and in banks (Note 21)	₱139,825,626	₱210,478,247
Short-term deposits (Note 21)	173,169,712	79,702,762
	₱312,995,338	₱290,181,009

Cash in banks earned interest rates ranging from 0.10% to 0.50% in 2019, 0.10% to 0.50% in 2018 and 0.25% to 2.47% in 2017. Short-term deposits are made for varying periods of up to three months depending on the immediate cash requirements of the Group and earned interest rates ranging from 1.25% to 5.75% in 2019, 1.25% to 2.75% in 2018 and 1.25% to 2.50% in

2017. Interest income from cash in banks and short-term deposits amounted to ₱5.26 million in 2019, ₱3.41 million in 2018 and ₱3.72 million in 2017.

Other income consists of the following in 2019 (nil in 2018 and 2017):

Recoveries	₱1,291,034
Miscellaneous receipts	1,280,803
Cash overage	1,439
	<u>₱2,573,276</u>

## 6. Tuition and Other Receivables

This account consists of:

	2019	2018
Tuition fee receivables	₱140,644,059	₱148,909,855
Advances to employees	18,556,882	13,015,260
Nontrade receivables	10,363,852	950,485
Accrued rent receivable	3,432,362	1,645,557

	<u>₱123,286,977</u>	<u>₱121,410,647</u>

Tuition fee receivables are noninterest-bearing and are generally on a 120-day term.

Advances to employees comprise of noninterest-bearing advances which are collectible through salary deduction and are generally on a 6 to 12-month term.

The allowance for ECL/doubtful accounts pertains to the Group's tuition fee receivables, which were impaired through collective assessment. The rollforward of allowance for ECL/doubtful accounts follows:

	2019	2018
Balance at beginning of year	₱45,354,755	₱39,505,051
Provision (Note 16)	6,846,897	5,849,704

## 17. Retirement Plan

The University has a funded, noncontributory defined benefit retirement plan which provides for death, disability and retirement benefits for all of its permanent employees. The annual contributions to the retirement plan consist of a payment covering the current service cost for the year plus payments toward funding the unfunded actuarial liabilities. Benefits are based on the employees' years of service and final plan salary.

The fund is administered by two trustee banks under the supervision of the Board of Trustees (BOT) of the plan. The BOT is responsible for the investment strategy of the plan.

In 2015, the University approved a new collective bargaining agreement with its employees with changes in the increments on employee retirement benefits.

The latest actuarial valuation study of the defined benefit retirement plan of the University was made as at March 31, 2019.

Changes in the retirement liability are as follows:

	2019				2018					
	Retirement Expense in the Consolidated Statements of Income				Retirement Expense in the Consolidated Statements of Income

The number of plan members as at March 31, 2019 and 2018 is 706 and 716, respectively.

Actual return on plan assets as at March 31, 2019 and 2018 amounted to ₱9.81 million and ₱6.83 million, respectively.

The fair value of plan assets as at March 31, 2019 and 2018 follows:

	2019	2018
Long-term investments:		
Debt securities	<b>₱98,164,293</b>	₱92,025,384
Equity securities	<b>79,309,471</b>	89,343,001

Liabilities	<b>(413,786)</b>	(251,768)
	<b>₱211,723,240</b>	₱202,460,044

All plan assets do not have quoted prices in an active market, except for equity and debt securities. Cash and cash equivalents are with reputable financial institutions and are deemed to be standard grade.

The plan assets pertain to diversified investments and are not exposed to concentration risk.

The overall investment policy and strategy of the University's defined benefit plan is guided by the objective of achieving an investment return which, together with contributions, ensures that there will be sufficient assets to pay retirement benefits as they fall due while also mitigating the various risks of the retirement plan.

The Group expects to contribute ₱32.46 million to the defined benefit retirement plan in fiscal year 2020.

The cost of defined retirement plan, as well as the present value of defined benefit obligation, is determined using actuarial valuation. The actuarial valuation involves making various assumptions. The principal assumptions used in determining the pension for the defined benefit retirement plan are shown below:

	2019	2018	2017
Discount rates	<b>5.77%</b>	6.95%	5.03%
Future salary increases	<b>3.00%</b>	3.00%	3.00%

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation as of the end of the statement of financial position date, assuming all other assumptions were held constant:

	<b>Increase (Decrease) in Defined Benefit Obligation</b>	
	<b>2019</b>	<b>2018</b>
Discount rates

-1.00%	<b>(31,534,347)</b>	(23,638,695)

The methods and types of assumptions used in preparing the sensitivity analysis did not change as at March 31, 2019 and 2018.

Shown below is the maturity analysis of the undiscounted benefit payments:

#### Transactions with Retirement Plans

Under PFRS, certain post-employment benefit plans are considered as related parties. The University's retirement plan is in the form of a trust administered by two trustee banks. The carrying value of the fund, which approximates its fair value, amounted to ₱211.72 million and ₱202.46 million as at March 31, 2019 and 2018, respectively (see Note 17).

As at March 31, 2019 and 2018, the retirement fund has 8,072,299 shares or 2.17% interest in the University. The total unrealized gains recognized from these investments amounted to ₱12.46 million and ₱3.58 million as at March 31, 2019 and 2018, respectively. No limitations and restrictions are provided and voting rights over these shares are exercised by a trust officer.

There are no other transactions by the Group or its related parties with the retirement fund as at March 31, 2019 and 2018.

#### Remuneration of Key Management Personnel

The Group's key management personnel include all management committee officers. The summary of compensation of key management personnel follows:

	2019	2018
Short-term employee salaries and benefits	<b>₱14,165,374</b>	₱13,220,339
Post-employment benefits	<b>4,168,921</b>	14,090,442
	<b>₱18,334,295</b>	₱27,310,781

There are no agreements between the Group and any of its directors and key officers providing for benefits upon termination of employment, except for such benefits to which they may be entitled under the Group's retirement plan.

## 22. Notes to Consolidated Statements of Cash Flows

Noncash investing activities pertain to the following:

- a. Retirement/disposal of assets - In 2019, 2018 and 2017, the University retired/disposed furniture and fixtures and laboratory equipment with aggregate cost of ₱15.98 million, ₱13.66 million and ₱7.54 million, respectively, and accumulated depreciation of ₱13.84 million, ₱13.26 million and ₱7.24 million, respectively (see Note 9).
- b. Revaluation increment on the land - For the current year, the University engaged the services of an independent appraiser and obtained valuation for its land in Mendiola, Malolos and Makati-Legaspi, Makati-Malugay and Las Piñas. The appraisal resulted in the recognition of increases in revaluation increment on land of ₱1.45 billion, gross of deferred income tax of ₱145 million (see Note 9).
- c. Donation income - In March 2019, the University received various laboratory and optical equipment from third parties as donations amounting to ₱7.09 million (see Note 9).

## 23. Basic/Diluted EPS

The income and share data used in the basic/diluted EPS computations are as follows:

	2019	2018	2017
Net income (a)	<b>₱184,163,109</b>	₱107,772,975	₱262,106,208
Weighted average number of outstanding common shares (b)	<b>372,414,400</b>	372,414,400	372,414,400
Basic/diluted earnings per share (a/b)	<b>₱0.49</b>	₱0.29	₱0.70

There were no potential dilutive financial instruments in 2019, 2018 and 2017.

## 24. Fair Value Measurement

The Group uses a hierarchy for determining and disclosing the fair value of its assets and liabilities.

The following tables summarize the carrying amounts and the fair values of the Group's financial and nonfinancial assets and liabilities as at March 31:

	2019			
	Carrying Value	Fair Value Measurement Using		Total Fair Value
Quoted Prices in Active Markets (Level 1)		Significant Unobservable Inputs (Level 3)		
<b>Assets measured at fair value:</b>

Land classified as investment property under fair value model	152,751,487	-	152,751,487	152,751,487
	<b>₱2,036,883,619</b>	<b>₱105,840</b>	<b>₱2,036,777,779</b>	<b>₱2,036,883,619</b>

As at March 31, 2018, unquoted equity securities carried at cost amounted to ₱0.41 million (nil as of March 31, 2019).

The methods and assumptions used by the University in estimating the fair value of the financial and nonfinancial assets and liabilities are as follows:

Cash and Cash Equivalents, Tuition and Other Receivables, Accounts Payable and Other Current Liabilities (Excluding Statutory Obligations), Dividends Payable

Fair values approximate carrying amounts given the short-term nature of these accounts.

Property and Equipment and Investment Property

The tables below summarize the valuation techniques and the significant unobservable inputs used in the valuation of land recorded as property equipment and investment properties:

	Valuation Techniques	Significant Unobservable Inputs	Range (Weighted Average)
Land	Sales Comparison Approach/Market Approach	<i>Internal factors:</i> Location Improvements Elevation Corner Influence Use Development Size Time Element	+10% to -20% +0% to -20% +0% to +20% +0% to +5% -20% to +20% +10% to +20% -20% to +20% +0%

The range of the prices per square meter used in the valuation is shown below:

	Valuation techniques	Location	Range (Weighted Average)
Land	Sales Comparison Approach/Market Approach	Comparable analysis: External factor (net price)	
		Manila - Site 1 and 2	₱133,178 to ₱157,729 per square meter (sqm)
		Makati - Malugay	₱247,500 to ₱360,000 per sqm

<b>Valuation techniques</b>	<b>Location</b>	<b>Range (Weighted Average)</b>
	Makati - Legaspi	₱270,000 to ₱500,000 per sqm
	Malolos, Bulacan	₱8,550 to ₱16,200 per sqm
	Las Piñas	₱19,655 to ₱25,200 per sqm

The description of the valuation technique and inputs used in valuation of the University's land follows:

<b>Market Data Approach</b>	A comparable method where the value of the property is based on sales and listings of comparable property by reducing reasonable comparative sales and listings to a common denominator. This is done by adjusting the differences between the subject property and those actual sales and listings regarded as comparable. The properties used as basis of comparison are situated within the immediate vicinity of the subject property. Comparison would be premised on the factors of location, size and shape of the lot, and time element.
<b>Location</b>	For a tract of land designated for a purpose or site occupied or available for occupancy, one of the key factors in land valuation is the location or area of preference.
<b>Improvements and developments</b>	Renovations in the land including the construction of building and installation of machineries and equipment should not be included in the valuation.
<b>Corner Influence</b>	Enhancement in usefulness accrues to those lots located or near street corners especially in retail business districts.
<b>Use</b>	Includes considerations factored in such as zoning, water and riparian rights, environmental issues, building codes and flood zones.
<b>Elevation</b>	Height of the property above or below a fixed reference point.
<b>Size</b>	Physical magnitude, extent or bulk, relative or proportionate dimensions. The value of the lot varies in accordance to the size of the lots. Basic rule of thumb is the bigger the lot size the lower the value, the smaller the lot size the higher the value.
<b>Time Element</b>	The measured or measurable period during action or condition exist. It is usually associated with the period in which the property can be sold in an open market within reasonable time.

Sensitivity analyses to the significant changes in unobservable inputs are shown below:

- Significant increases (decreases) in the price (per sqm) would result in a significantly higher (lower) fair value measurement.
- Significant factor in the location of the property (e.g., closer to a main road or secondary road) would result in a significantly higher (lower) fair value measurement
- Significant improvements and developments (deterioration) in the location would result in a significantly higher (lower) fair value measurement.
- Significant increases (decreases) in the influence of the corners of the property would result in a significantly higher (lower) fair value measurement.
- Significant increases (decreases) in the use of the property would result in a significantly lower (higher) fair value measurement.

- Significant increases (decreases) in the elevation of the property would result in a significantly lower (higher) fair value measurement.
- Significant increases (decreases) in the size of the property would result in a significantly lower (higher) fair value (per sqm) measurement.
- Significant increases (decreases) in the period in which the property can be sold in an open market would result in a significantly lower (higher) fair value measurement.

The appraiser considers the highest and best use of the asset which takes into account the use of the asset that is physically possible, legally permissible and financially feasible.

#### Quoted Equity Securities Classified as Investments at FVOCI/AFS Investments

Fair value is based on quoted prices.

#### Unquoted Equity Securities Classified as AFS Investments

Fair value could not be reliably determined due to the unpredictable nature of future cash flows and the lack of suitable methods of arriving at a reliable fair value. There is no active market for these investments and the Group does not intend to dispose these investments. These investments are carried at cost as of March 31, 2018 and its value was reduced as of March 31, 2019. Unquoted equity securities are not significant relative to the Group's portfolio of financial instruments.

In 2019 and 2018, there have been no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurement.

## **25. Financial Risk Management Objectives and Policies**

The Group's principal financial instruments comprise cash and cash equivalents. The main purpose of these financial instruments is to fund the Group's operations and capital expenditures. The Group has various other financial instruments such as tuition and other receivables, refundable deposits, equity investments, accounts payable and accrued expenses excluding statutory payables and dividends payable that arise directly from operations.

The main risks arising from the Group's financial instruments are credit risk, liquidity risk and foreign currency risk.

#### Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur financial loss.

The Group's risk management policy to mitigate credit risk on its receivables from students include the refusal of the Group to release pertinent records like examination permit, transcript of records and transfer credentials, if applicable, until the student's account is cleared/paid. As at the reporting date, there are no significant concentrations of credit risk.

As at March 31, 2019 and 2018, the analysis of financial assets follows:

\* Excluding cash on hand

The Group's neither past due nor impaired receivables are high grade receivables which, based on experience, are highly collectible and exposure to bad debt is not significant.

As at March 31, 2019 and 2018, the age of the entire Group's past due but not impaired tuition fee receivables is over 60 days (see Note 6).

#### *Tuition Fee Receivables*

The Group uses a provision matrix to calculate ECL for tuition fee receivables. The provision rates are determined based on the Group's historical observed default rates analyzed in accordance to days past due by grouping of customers based on customer type and channels. The Group adjusts historical default rates to forward-looking default rate by determining the closely related economic factors affecting each customer segment. At each reporting date, the observed historical default rates are updated and changes in the forward-looking estimates are analyzed.

Set out on the next page is the information about the credit risk exposure on the Group's tuition fee receivables using a provision matrix as of March 31, 2019.

	Current	Days Past Due			Total
		< 1 quarter	1 to less 3 quarters	Over 3 quarters	
Estimated tuition fee receivable at default	₱-	₱43,533,993	₱22,072,204	₱75,037,862	₱140,644,059
Expected credit losses	₱-	₱4,076,828	₱6,923,516	₱41,201,308	₱52,201,652

### Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial assets and financial liabilities. Liquidity risk may result from a counterparty failing on repayment of a contractual obligation or inability to generate cash inflows as anticipated.

The Group seeks to manage its liquidity risk to be able to meet its operating cash flow requirements, finance capital expenditures and maturing debts. As an inherent part of its liquidity risk management, the Group regularly evaluates its projected and actual cash flows. To cover its short-term and long-term funding requirements, the Group intends to use internally generated funds and external financing, if needed.

The maturity profile of the Group's financial assets and financial liabilities as at March 31, 2019 and 2018 based on contractual undiscounted receipts and payments follows:

\* Excluding statutory payables

The Group relies on internally-generated cash to fund its working capital needs, capital expenditures and cash dividends. The Group will continuously assess its overhead costs to determine opportunities to decrease them. As laid down in the Group's strategic plan, the Group is committed to attain its goal on sound financial position by accomplishing the objectives to implement cost saving measures, increase income of existing revenue generating programs and activities and expand revenue generating activities.

#### Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group's principal transactions are carried out in Peso and its exposure to foreign currency risk arises primarily from cash in banks and short-term deposits that are denominated in United States dollar (\$ or USD).

To mitigate the Group's exposure to foreign currency risk related to foreign currency-denominated accounts, management keeps the amount of these assets at a low level.

The following table shows the foreign currency-denominated accounts of the Group as at March 31, 2019 and 2018 in USD:

	2019	2018
Cash in banks	\$12,608	\$14,315
Short-term deposits	115,900	114,655
	\$128,508	\$128,970

In translating the foreign currency-denominated accounts to Peso amounts, the exchange rate used was ₱52.50 to \$1.00 and ₱52.16 to \$1.00 as at March 31, 2019 and 2018, respectively.

The following table demonstrates the sensitivity to a reasonably possible change in the Peso/USD exchange rate, with all other variables held constant, of the Group's net income before tax. There is no impact on the Group's equity.

	2019		2018	
Percentage change in exchange rate	-5.07%	5.07%	-9.44%	9.44%
Effect on net income before tax	(₱342,056)	₱342,056	(₱635,036)	₱635,036

#### Interest Rate Risk

The Group's exposure to market risk for changes in interest rates is not significant to the consolidated financial statements. The financial instruments of the Group are either noninterest-bearing or has minimal interest rate exposure due to the short-term nature of the account (that is, cash equivalents).

#### Capital Management

The primary objective of the Group's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made to the objectives and policies or processes during the years ended March 31, 2019, 2018 and 2017.

The Group monitors capital using a debt-to-equity ratio which is debt divided by total equity. The Group includes within debt accounts payable and accrued expenses.

The following table shows how the Group computes for its debt-to-equity ratio as at March 31, 2019 and 2018:

	2019	2018
Accounts payable and other current liabilities (a)	₱404,363,704	₱355,306,220
Total equity (b)	₱4,450,852,846	₱3,125,382,709
Debt-to-equity ratio (a/b)	0.09:1	0.11:1

As of March 31, 2019 and 2018, the Group was able to meet its capital management objectives and was successful in achieving its capital management policies.

## 27. Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Group does not expect that the future adoption to have a significant impact on its consolidated financial statements.

### Effective beginning on or after January 1, 2019 (FY 2020 for the Group)

- Amendments to PFRS 9, *Prepayment Features with Negative Compensation*
- PFRS 16, *Leases*

PFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under PAS 17, *Leases*. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under PFRS 16 is substantially unchanged from today's accounting under PAS 17. Lessors will continue to classify all leases using the same classification principle as in PAS 17 and distinguish between two types of leases: operating and finance leases.

PFRS 16 also requires lessees and lessors to make more extensive disclosures than under PAS 17.

A lessee can choose to apply the standard using either a full retrospective or a modified retrospective approach. The standard's transition provisions permit certain reliefs.

The Group is currently assessing the impact of adopting PFRS 16.

- Amendments to PAS 19, *Employee Benefits, Plan Amendment, Curtailment or Settlement*
- Amendments to PAS 28, *Long-term Interests in Associates and Joint Ventures*
- Philippine Interpretation IFRIC-23, *Uncertainty over Income Tax Treatments*

The interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of PAS 12, *Income Taxes*, and does not apply to taxes or levies outside the scope of PAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments.

The interpretation specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately
- The assumptions an entity makes about the examination of tax treatments by taxation authorities

- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
- How an entity considers changes in facts and circumstances

An entity must determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty should be followed.

The Group is currently assessing the impact of this interpretation.

- *Annual Improvements to PFRSs 2015-2017 Cycle*
  - Amendments to PFRS 3, *Business Combinations*, and PFRS 11, *Joint Arrangements, Previously Held Interest in a Joint Operation*
  - Amendments to PAS 12, *Income Tax Consequences of Payments on Financial Instruments Classified as Equity*
  - Amendments to PAS 23, *Borrowing Costs, Borrowing Costs Eligible for Capitalization*

Effective beginning on or after January 1, 2020 (FY 2021 for the Group)

- Amendments to PFRS 3, *Definition of a Business*
- Amendments to PAS 1, *Presentation of Financial Statements*, and PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Material*

Effective beginning on or after January 1, 2021 (FY 2022 for the Group)

- PFRS 17, *Insurance Contracts*

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

- Re-appropriation of ₱450.00 million for the development of the Malolos campus.

The estimated date of completion of the above projects as set by the University is within 2 years.

Furthermore, the University's BOD approved the change in fiscal year of the University effective fiscal year 2020 from beginning April 1 and ending March 31 to beginning June 1 and ending May 31 brought about by the change in the academic year from ending March of each year to ending May of each year.

## **INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY SCHEDULES**

The Stockholders and the Board of Directors  
Centro Escolar University  
9 Mendiola Street  
San Miguel, Manila

We have audited, in accordance with Philippine Standards on Auditing, the consolidated financial statements of Centro Escolar University and Subsidiaries (the "Group") as at March 31, 2019 and 2018 and for each of the three years in the period ended March 31, 2019, and have issued our report thereon dated June 28, 2019. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The schedules listed in the Index to the Financial Statements and Supplementary Schedules are the responsibility of the Group's management. These schedules are presented for the purpose of complying with Securities Regulation Code Rule 68, As Amended (2011), and are not part of the basic consolidated financial statements. These schedules have been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, fairly state, in all material respects, the information required to be set forth therein in relation to the basic consolidated financial statements taken as a whole.
